House Maid Indika Guruge,2017-01-22 A story behind the suffering of a Sri Lankan Migrant worker in Saudi Arabia. Kamala a mother of four children facing poverty to manage her family with a drunken worthless husband that sleeps all day getting drunk on moonshine and coconut arrack, he spends all her hard earn money, Kamala works in a local factory paid a low salary and not enough to solve her financial problems. She thinks migrating to a foreign land would be the only hope. The only qualification she has to migrate to a foreign country is to be a housemaid. That salary would be way better than in Sri Lanka, flying to Saudi Arabia as a housemaid would be a dream come true. Yet day after day, Kamala comprehends her

mistake and regrets her stupid actions of leaving her beloveds. She is trapped by the secured walls of the Arabian house and by the rules, regulations and her negligence on working. She gets punished by horrific physical and mental abuse by the hands of her employer. Finally trapped her in a room as a punishment with nonpayment of her salary. When she tries to escape she is being physically tortured by the employer with nailing her body feet beating her with chains and sticks. Finally, when she escapes and returns to her mother land, everything what she worked have gone on a waste by her husband and leaving it all for nothing. Why I wrote this book. Labor migration to the Middle East has become a main feature of Sri Lankan economy strategies making it the second biggest foreign exchange earnings. Migration is likely to continue in the future. Foreign embassies continued to receive many reports that employers abused foreign women working as domestic servants. Some embassies of countries with large domestic servant populations maintained safe houses to which their citizens may flee to escape work situations that included forced confinement, withholding of food, nonpayment of salaries, beating and other physical abuse, and rape. These are few stories... One particular day I dropped a saucer which broke into pieces. My employer was angry and he heated up five nails and drove them into my hand. When I shouted out in pain my employer's wife held a knife to my neck, she said. Why you should read this book? When you Google Sri Lanka all you see is a beautiful island with beautiful sceneries and nature surrounded by lovely sandy beaches, diverse landscapes ranging from plains to highlands, rainforests, wildlife and exotic food. But not many know how the Sri Lankan lower middle class suffer. How everyday is a challenge for them to make their ends meet. How much they suffer to keep their families alive, insufficient money to feed their children and to spend for their education. I was inspired by so many stories about how these migrant workers suffer. I have been fortunate enough to help these people and listen to their stories. This shows us how cruel the world is. Another side of life which many has not seen, or even think about, simply a nightmare. Why cannot the governments take any action about this? Non-government organizations? Is there anyone at all? When they send their hard earn money with high hopes, most of the time husbands waste money on alcohol and gambling, children go astray and get abused. These women and families fall of from the frying pan into fire. Time, money, pain all gets wasted. Everything end up in tears. This story will give you the inner aspect in depth about the middle class migrant workers and their lives, how hard they work, how much they sacrifice, how hard they hide their feelings and pain, suffer and struggle to survive every day. This book is a story about a family that went through this horrific abuse and torture. Hope you enjoy this book. Scroll up and grab your copy now.

But when Anna, gazing out her window one night, sees something she shouldn't, her world begins to crumble—and its shocking secrets are laid bare. What is real? What is imagined? Who is in danger? Who is in control? In this diabolically gripping thriller, no one—and nothing—is what it seems. Twisty and powerful, ingenious and moving, *The Woman in the Window* is a smart, sophisticated novel of psychological suspense that recalls the best of Hitchcock.

As rumours begin to circulate that the youngest Romanov daughter survived the massacre, old enemies and new threats awaken. *I Was Anastasia* unravels the thrilling mystery around Anna Anderson in a tale that is every bit as moving and momentous as it is harrowing and twisted.

Lee de Forest Mike Adams,2011-10-17 The life-long inventor, Lee de Forest invented the three-element vacuum tube used between 1906 and 1916 as a detector, amplifier, and oscillator of radio waves. Beginning in 1918 he began to develop a light valve, a device for writing and reading sound using light patterns. While he received many patents for his process, he was initially ignored by the film industry. In order to promote and demonstrate his process he made several hundred sound short films, he rented space for their showing; he sold the tickets and did the publicity to gain audiences for his invention. Lee de Forest officially brought sound to film in 1919. Lee De Forest: King of Radio, Television, and Film is about both invention and early film making; de Forest as the scientist and producer, director, and writer of the content. This book tells the story of de Forest's contribution in changing the history of film through the incorporation of sound. The text includes primary source historical material, U.S. patents and richly-illustrated photos of Lee de Forest's experiments. Readers will greatly benefit from an understanding of the transition from silent to audio motion pictures, the impact this had on the scientific community and the popular culture, as well as the economics of the entertainment industry.
