Local Mediterranean Food Plants and Nutraceuticals Michael Heinrich, Walter Erhard Müller, Claudio Galli, 2006-01-01 As a result of domestication - considered to be the most important cultural development of the past 13,000 years of human history - we depend today on a tiny number of domesticated plant and animal species for our food supply. Nevertheless, people continue to gather food which grows around their homes or they cultivate local varieties of food plants (as well as keep land races of domestic animals). Generally, wild varieties tend to be richer in micronutrients and bioactive secondary metabolites, which are produced in adaptation to local environmental conditions. These metabolites trigger further adaptive responses by producing 'protective', bioactive compounds which, when ingested, result in the transfer of protective effects to our organism. The preservation of local knowledge for future generations as well as the identification of new nutraceuticals

by means of characterizing plant extracts with potential health beneficial effects are the main objectives of this book. The first part therefore focuses on the ethnobotanical study of local food plants in selected regions of the Mediterranean, i.e. their use as well as beliefs and cultural practices associated with it. The biological-pharmacological effects of these plants on selected (mostly in vitro) targets of the central nervous system and the cardiovascular system make up the second part, highlighting the potential of these plants for developing novel health foods, herbal medicines or local products with beneficial effects on health. Those interested in an integrated approach to the identification of new and health beneficial foods will undoubtedly find this book a valuable source of information and an inspiration for new scientific approaches to this age-old topic.

Montano's Malady Enrique Vila-Matas,2007 A quirky, cosmopolitan novel about life and literature by the prize-winning Spanish writer Enrique Vila-Matas, author of *Bartleby & Co.* The narrator of *Montano's Malady* is a writer named José who is so obsessed with literature that he finds it impossible to distinguish between real life and fictional reality. Part picaresque novel, part intimate diary, part memoir and philosophical musings, Enrique Vila-Matas has created a labyrinth in which writers as various as Cervantes, Sterne, Kafka, Musil, Bolaño, Coetzee, and Sebald cross endlessly surprising paths. Trying to piece together his life of loss and pain, José leads the reader on an unsettling journey from European cities such as Nantes, Barcelona, Lisbon, Prague and Budapest to the Azores and the Chilean port of Valparaíso. Exquisitely witty and erudite, it confirms the opinion of Bernardo Axtaga that Vila-Matas is the most important living Spanish writer.

Handbook of Spanish Popular Culture Edward F. Stanton,1999-11-30 Spanish popular culture is one of the richest in the world. The absence of an efficient ruling class has allowed the people to stamp their personality on all major aspects of

the country's life. This book describes the peculiar Spanish feeling for death and tragedy in popular religious practices, music and the bullfight; the fiesta sense of life, so foreign to the work ethic of other Western countries; the oral tradition that has managed to survive into the post-industrial age with its creative use of slang, proverbs and obscenity; popular literature, the press, radio, television and the movies. Students and scholars will appreciate the first comprehensive treatment of Spanish popular culture in a single volume. The author has done first-hand research in all the major regions of Spain and has compiled a list of major archives and resource centers. An extensive bibliography on the major fields of popular Spanish culture is included at the end of each chapter.

Consuming Life Zygmunt Bauman,2013-05-08 With the advent of liquid modernity, the society of producers is transformed into a society of consumers. In this new consumer society, individuals become simultaneously the promoters of commodities and the commodities they promote. They are, at one and the same time, the merchandise and the marketer, the goods and the travelling salespeople. They all inhabit the same social space that is customarily described by the term the market. The test they need to pass in order to acquire the social prizes they covet requires them to recast themselves as products capable of drawing attention to themselves. This subtle and pervasive transformation of consumers into commodities is the most important feature of the society of consumers. It is the hidden truth, the deepest and most closely guarded secret, of the consumer society in which we now live. In this new book Zygmunt Bauman examines the impact of consumerist attitudes and patterns of conduct on various apparently unconnected aspects of social life politics and democracy, social divisions and stratification, communities and partnerships, identity building, the production and use of knowledge, and value preferences. The invasion and colonization of the web of human relations by the worldviews and behavioural patterns inspired and shaped by commodity markets, and the sources of resentment, dissent and occasional resistance to the occupying forces, are the central themes of this brilliant new book by one of the worlds most original and insightful social thinkers.

Inventing Our Selves Nikolas Rose,1998-12-28 Inventing Our Selves radically approaches the regime of the self and the values that animate it.

Work, Consumerism and the New Poor Zygmunt Bauman,2004-09-16 Reviewers' comments on the first edition "Zygmunt Bauman presents a cogently argued and compelling thesis... an important book from a distinguished scholar, that adds a new dimension to the poverty debate."British Journal of Sociology "It will be of great interest and value to students, teachers and researchers in sociology and social policy... [Bauman] provides a very forceful and sophisticated statement of the case; and a very well written one too. As a wide ranging analysis of our present discontents it is an admirable example of the sort of challenge which sociology at its best can offer to us and our fellow citizens to re-assess and re-think our current social arrangements."Work, Employment and Society "This is a stylish and persuasive analysis of the transition between the age of the 'society of producers' to that of the 'society of consumers'."Political Studies It is one thing to be poor in a society of producers and universal employment; it is quite a different thing to be poor in a society of consumers, in which life

projects are built around consumer choices rather than on work, professional skills or jobs. Where 'being poor' was once linked to being unemployed, today it draws its meaning primarily from the plight of a flawed consumer. This has a significant effect on the way living in poverty is experienced and on the prospects for redeeming its misery. Work, Consumerism and the New Poor traces this change over the duration of modern history. It makes an inventory of its social consequences, and considers how effective different ways of fighting poverty and relieving its hardships are. The new edition of this seminal work features: Updated coverage of key thinkers in the field Discussion of recent work on redundancy, disposability and exclusion Current thinking on the effects of capital flows on different countries and the changes on the shop floor through, for example, business process re-engineering New material on security and vulnerability Key reading for students and lecturers in sociology, politics and social policy, and those with an interest in contemporary social issues.
