Encyclopedia of the World's Coastal Landforms Eric Bird, 2010-02-25 This unique richly-illustrated account of the landforms and geology of the world's coasts, presented in a country-by-country (state-by-state) sequence, assembles a vast amount of data and images of an endangered and increasingly populated and developed landform. An international panel of 138 coastal experts provides information on "what is where" on each sector of coast, together with explanations of the landforms, their evolution and the changes taking place on them. As well as providing details on the coastal features of each country (state or county) the compendium can be used to determine the extent of particular features along the world's coasts and to investigate comparisons and contrasts between various world regions. With more than 1440 color illustrations and photos, it is particularly useful as a source of information prior to researching or just visiting a sector of coast. References are provided to the current literature on coastal evolution and coastline changes.

Origins, History and Social Structure in Brunei Darussalam Victor T. King, Stephen C. Druce, 2020-10-29 This wide-ranging book re-evaluates in detail the early history and historiography of Brunei Darussalam, the origins of the sultanate, its genealogical foundations and the structure and administration of Brunei society. Contributors draw on the seminal work of Donald E. Brown whose major monograph on the sultanate was published in 1970 and marked the beginnings of advanced sociological, anthropological and historical research on Brunei. Among the key issues addressed are status systems, titles and social stratification, Chinese sources for the study of Brunei, Malay oral and written histories and traditions, the symbolism, meanings and origins of coronation rituals, previously unknown sources for the study of Brunei history and the processes of incorporation of minority populations into the sultanate. Contributions by leading scholars of Brunei, Borneo and the wider Indonesian-Malay world, both from within Brunei Darussalam and beyond, address some central preoccupations which Brown raised and which have been the subject of continued debate in Austronesian and Southeast Asian studies. A novel contribution to the study of the history of Brunei Darussalam, this book will be of interest to scholars of Southeast

Asian history, Asian history, Colonial and Imperial history and anthropology.

Negara Brunei Darussalam ,1983

Negara Brunei Darussalam A. V. M. Horton,1996

Brunei - History, Islam, Society and Contemporary Issues Ooi Keat Gin,2015-12-14 Brunei, although a relatively small state, is disproportionately important on account of its rich resource base. In addition, in recent years the country has endeavoured to play a greater role in regional affairs, especially through ASEAN, holding the chair of the organisation in 2013, and also beyond the region, fostering diplomatic, political, economic and educational ties with many nations. This book presents much new research and new thinking on a wide range of issues concerning Brunei largely drawn from Bruneian academics. Subjects covered include Brunei's rich history - the sultanate formerly had much more extensive territories and was a key player in regional affairs; the country's economy, politics, society and ethnicities; and resource issues and international relations.

The Use and Status of Language in Brunei Darussalam Noor Azam Haji-Othman,James McLellan,David Deterding,2016-09-17 This book provides an overview of the linguistic situation in Brunei, including a historical overview and a synopsis of the current education system. It investigates pronunciation, particularly the intelligibility of Brunei English and the vowels of Brunei Mandarin, and it also describes the acquisition of Malay grammar, Malay politeness strategies, the use of language online, language in the courts, a comparison of Malay and English newspapers, the language of shop signs, the status of Dusun, and lastly, English literature in Brunei.

Continuity and Change in Brunei Darussalam Victor T. King,Stephen C. Druce,2020-10-29 This book analyses the processes of social and economic change in Brunei Darussalam. Drawing on recent studies undertaken by both locally based scholars and senior researchers from outside the state, the book explores the underlying strengths, characteristics, and uniqueness of Malay Islamic Monarchy in Brunei Darussalam in a historical context and examines these in an increasingly challenging regional and global environment. It considers events in Brunei's recent history and current socio-cultural transformations, which give expression to the traumatic years of decolonisation in Southeast Asia. A wide range of issues focus on foreign, non-Bruneian narratives of Brunei as against insider or domestic accounts of the sultanate, the status of minority ethnic groups in Brunei and the concept of 'Brunei society', as well as changes in the character and composition of the famous 'water village', Kampong Ayer, as the cultural heartland of Brunei Malay culture and the socio-cultural and economic effects of the resettlement of substantial segments of the population from a 'life on water' to a 'life on land'. A timely and very important study on Brunei Darussalam, the book will be of interest to anthropologists, sociologists, historians, geographers, and area studies specialists in Southeast Asian Studies and Asian Studies.

The Routledge International Handbook of Language Education Policy in Asia Andy Kirkpatrick,Anthony J.

Liddicoat,2019-04-17 This must-have handbook offers a comprehensive survey of the field. It reviews the language education policies of Asia, encompassing 30 countries sub-divided by regions, namely East, Southeast, South and Central Asia, and considers the extent to which these are being implemented and with what effect. The most recent iteration of language education policies of each of the countries is described and the impact and potential consequence of any change is critically considered. Each country chapter provides a historical overview of the languages in use and language education policies, examines the ideologies underpinning the language choices, and includes an account of the debates and controversies surrounding language and language education policies, before concluding with some predictions for the future.

Brunei Marie-Sybille de Vienne,2015-03-09 Now an energy-rich sultanate, for centuries a important trading port in the South China Sea, Brunei has taken a different direction than its Persian Gulf peers. Immigration is restricted, and Brunei's hydrocarbon wealth is invested conservatively, mostly outside the country. Today home to some 393,000 inhabitants and comprising 5,765 square kilometers in area, Brunei first appears in the historical record at the end of the 10th century. After the Spanish attack of 1578, Brunei struggled to regain and expand its control on coastal West Borneo and to remain within the trading networks of the South China Sea. It later fell under British sway, and a residency was established in 1906, but it took the discovery of oil in Seria in 1929 before the colonial power began to establish the bases of a modern state. Governed by an absolute monarchy, Bruneians today nonetheless enjoy a high level of social protection and rule of law. Ranking second (after Singapore) in Southeast Asia in terms of standards of living, the sultanate is implementing an Islamic penal code for the first time of its history. Focusing on Brunei's political economy, history and geography, this book aims to understand the forces behind Brunei's to-and-fro of tradition and modernisation.

The Coastal Environmental Profile of Brunei Darussalam Thia-Eng Chua,L. M. Chou,Marie Sol M. Sadorra,1987

Brunei English David Deterding,Salbrina Sharbawi,2013-05-13 This detailed survey of Brunei English reflects the burgeoning academic interest in the many new varieties of English which are fast evolving around the world. Wholly up to date, the study is based on careful analysis of a substantial dataset that provides real-life examples of usage to illustrate the narrative throughout. As well as a thorough account of the pronunciation, grammar, vocabulary usage, and discourse patterns of Brunei English, the volume explores its historical and educational background and current developmental trends, providing an in-depth review of the patterns of English usage within this multilingual, oil-rich society on the north-western coast of Borneo. Written in a non-technical style throughout that will assist non-specialists wishing to grasp the fundamentals

of this unique brand of the English language, the work is a worthy addition to Springer's series on multilingual education that plugs a gap in the coverage of the numerous varieties of English being used across South East Asia. "The authors bring renewed and badly needed attention to the long-overlooked development of Brunei English. Their examination of the variety not only documents the features and functions of English within Brunei society, it also suggests the development of regional or global varieties of English that extend beyond Brunei, and even beyond South East Asia." Andrew Moody, University of Macau
