The volume encompasses a wealth of topics concerning structural, functional, and pragmatic aspects of play during early childhood and childhood, and includes strong emphasis on methodological as well as substantive concerns. It was hoped that the chapters here would inspire a new generation of research extending knowledge both in theoretical and applied areas.

**AI for Games** Ian Millington, 2021-11-15 What is artificial intelligence? How is artificial intelligence used in game development? Game development lives in its own technical world. **Histoire du droit savant (13e-18e siècle)** Robert Feenstra, 2023-07-14 This third selection of articles by Robert Feenstra complements the two previously published, continuing his studies of doctrines of private law and of texts related to university teaching from the 13th century into the early modern period. In the section on private law, some pieces deal with the Middle Ages, while others focus on Hugo Grotius. Property is again an important topic, but this time joined by legal personality (foundations) and negligence (vicarious liability included). The studies on the history of texts are mainly

concerned with works dating from the 14th and 15th centuries. One is devoted to a little-known civil law teacher at the University of Orléans and his commentary on a part of the Digest. The four others deal with treatises belonging to the so-called 'vulgarisation' of the 'droit savant' (medieval Roman and Canon law); most of these include important contributions to the history of early printing (incunabula and post-incunabula). Cette troisième sélection d'articles de Robert Feenstra complète les deux précédentes; elle constitue la suite de ses études sur les doctrines de droit privé et sur des textes se rapportant à l'enseignement universitaire du XIIIe jusqu'au XVIIIe siècle. Dans la section consacrée au droit privé, quelques articles s'occupent en premier lieu du moyen âge, d'autres focalisent sur Hugo Grotius. La propriété est de nouveau un sujet important, mais elle se trouve en compagnie de la personnalité juridique (notamment par rapport aux fondations) et de la responsabilité civile (y compris la responsabilité du fait d'autrui). Les études sur l'histoire des textes concernent surtout quelques ouvrages du XIVe et du XVe siècle. La première est consacrée à un professeur de droit civil peu connu de l'université d'Orléans et à son commentaire sur l'une des trois parties du Digeste. Les quatre autres s'occupent de traités appartenant à la vulgarisation du droit savant (droit romain et droit canonique au moye

*IS-LM and Modern Macroeconomics* Warren Young, Ben-Zion Zilberfarb, 2012-12-06 IS-LM is perhaps the prime example of 'cognitive dissonance' in economics, and is problematic to many economists. On the one hand, the IS-LM model is still taught by many academic economists or they use it to derive the AD-AS approach. On the other hand, the same economists

realize the limitations of the basic IS-LM model and would not now use it for policy analysis, as they did in the past. The distinction between pedagogical and analytical efficacy is made by all the authors in this volume regarding the IS-LM model. Indeed, even those who would reject using the model for modern policy analysis still see the basic model as useful for teaching purposes. Moreover, in an augmented form, some of the authors in this volume would even see fit to use IS-LM for modern policy analysis. As will be seen, therefore, the IS-LM model is 'not yet dead'. Rather, the model's 'plasticity' has enabled it to undergo a metamorphosis into augmented form, enabling its continuing utilization in economics accordingly.
