First Voyage Around the World James Cook,2009 Strange it must appear that the account of perhaps the most celebrated and, certainly to the English nation, the most momentous voyage of discovery that has ever taken place - for it practically gave birth to the great Australasian Colonies - has never before been given to the world in the very words of its great leader. It has fallen out in this wise. After the return of the Endeavour it was decided that a full and comprehensive account of the voyage should be compiled. COOK'S JOURNAL dealt with matters from the point of view of the seaman, the explorer, and the head of the expedition, responsible for life, and for its general success.

Light List ,2009

Poseidon Steven R. Schwankert,2013-10-01 Royal Navy submarine HMS Poseidon sank in collision with a freighter during routine exercises in 1931 off the Chinese coast. Thirty of its fifty-six-man crew scrambled out of the hatches as it went down. Of the twenty-six who remained inside, eight attempted to surface using an early form of diving equipment: five of them made it safely to the surface in the first escape of this kind in submarine history and became heroes. The incident was then forgotten, eclipsed by the greater drama that followed in World War II, until news emerged that, for obscure reasons, the Chinese government had salvaged the wrecked submarine in 1972. This lively account of the Poseidon incident tells the story of the accident and its aftermath, and of the author's own quest to discover the shipwreck and its hidden history.
