Social Support and Health in the Digital Age Nichole Egbert, Kevin B. Wright, 2019-12-16 Social Support and Health in the Digital Age discusses how the information age has revolutionized nearly every facet of human communication—from the ways in which people purchase products to how they meet and fall in love. These exciting new communication technologies can both unite and divide us. People who are separated by great distances can now communicate with each other in real time, whereas parents often find themselves competing with smartphones and tablets for their children’s attention. This book explores the many ways that digital communication media, such as online forums, social networking sites, and mobile applications, enhance and constrain social support in health-related contexts. We already know a great deal about how the Internet has altered how people search for health information, but less about how people seek and receive social support in this new age of information, which is critical for maintaining our physical, mental, and emotional wellbeing.

**Mastering the Art of Public Speaking** Michael J. Gelb, 2020-09-08 Seventy-four percent of Americans suffer from glossophobia, the fear of public speaking. In fact, even top professional speakers and accomplished actors experience butterflies before presenting. They never eliminate the butterflies; they just teach them how to fly in formation. How? Michael Gelb’s techniques will help you clarify and shape your message so that your audience — no matter how big or small, in person or virtual — will care about it. Once the message is clear, he teaches you how to convey it in memorable, creative, and effective ways. Gelb shows that public speaking is a skill anyone can learn and enjoy. Mastering the Art of Public Speaking will guide you to rediscover your natural gift for communication while strengthening confidence and presence.
