**Art and Technology** Sheyda Ardan, Cheryl Adler Iozzo, 2021 Learn how to use digital technologies to provide a rich new entry-point for art students to make meaning, express their thoughts, and visualize their ideas. Through the lens of artistic development, this book offers a wide-ranging scope and sequence of over 50 technology-based art lessons. Each lesson plan includes the art activity, learning level, lesson objective, developmental rationale, list of materials, and suggested questions to motivate and engage students. The text also includes images of student work, students at work, and the environment of the classroom (many in full color). The authors' pedagogical approach begins with inquiry-based exploratory activities followed by more in-depth digital art lessons that relate to students' interests and experiences. With knowledge of how technology can be used in educationally sound ways, educators are better equipped to advocate for the technological resources they need. By incorporating technology into the art classroom--as a stand-alone art medium or in conjunction with traditional studio materials--teachers and students remain on top of 21st-century learning with increased opportunities for innovation. Book Features: Guidance for technology use in the K-12 art curriculum, including specifics for adopting sequential strategies in each grade. Cost-effective strategies that place teachers and students in a position to explore and learn from one another. Developmental theories to help art teachers and curriculum designers successfully incorporate new media. Engaging digital art lessons that acknowledge the role technologies play in the lives of today's young people. Novel approaches to art education, such as distance learning, animation, 3D printing, and virtual reality.

Taking Form, Making Worlds Lucy Bell, Alex Ungprateeb Flynn, Patrick O'Hare, 2022-06-07 2023 LASA Visual Culture Studies Section Book Prize, Latin American Studies Association (LASA) The first comprehensive study of cartonera, a vibrant publishing phenomenon born in Latin America. A publishing phenomenon and artistic project, cartonera was born in the wake of Argentina's 2001 economic crisis. Infused with a rebellious spirit, it has exploded in popularity, with hundreds of publishers across Latin America and Europe making colorful, low-cost books out of cardboard salvaged from the street. Taking Form, Making Worlds is the first comprehensive study of cartonera. Drawing on interdisciplinary research conducted across Mexico, Brazil, and Argentina, the authors show how this hands-on practice has fostered a politically engaged network of writers, artists, and readers. More than a social movement, cartonera uses texts, workshops, encounters, and exhibitions to foster community and engagement through open-ended forms that are at once artistic and social. For various groups

including waste-pickers, Indigenous communities, rural children, and imprisoned women, cartonera provides a platform for unique stories and sparks collaborations that bring the walls of the “lettered city” tumbling down. In contexts of stigma and exclusion, cartonera collectives give form to a decolonial aesthetics of resistance, making possible a space of creative experimentation through which plural worlds can be brought to life.
