Orientación para la construcción del proyecto profesional SÁNCHEZ GARCÍA María Fe ,SUÁREZ ORTEGA Magdalena ,MORENO CALVO Adoración ,CARBAJO DE LERA Ángela ,FARIÑA SÁNCHEZ María Isabel ,ROMERO GARCÍA

Carolina ,2018-10-15 Gestionar la carrera profesional y vital en los tiempos actuales no es una tarea sencilla. Las economías del sistema neoliberal obligan a gestionarla en condiciones de incertidumbre, con alternancia de empleo-desempleo y a afrontar el desafío permanente de adaptación a las demandas cambiantes del medio laboral; cambios que, a menudo, también conllevan la alteración de los planteamientos vitales, del equilibrio personal y que igualmente comportan la necesidad de adquirir nuevos aprendizajes y competencias. Esta obra está dirigida a profesionales del ámbito de la orientación profesional y también a las personas que afrontan momentos de transición y que desean reemprender la construcción de su proyecto profesional. Se parte de una reflexión analítica en torno a la noción de proyecto profesional/vital del joven y del adulto contemporáneo, desde los planteamientos teóricos actuales del desarrollo de la carrera y, complementariamente, desde la visión global y analítica de una diversidad de programas y propuestas que incorporan un enfoque más integral y sistémico. Desde ese contexto, se presenta pormenorizadamente la propuesta metodológica Construyendo mi carrera profesional, un diseño pensado para facilitar la planificación y la gestión del proyecto profesional-vital de forma cíclica, flexible y retroalimentada. Se trata de una herramienta de aprendizaje y autoaprendizaje que ayuda a gestionar la carrera, ofreciendo un proceso sistemático y un conjunto de claves que permiten interrogarse acerca de las propias metas y del contexto específico en el que ésta transcurre y progresa. Al tiempo, proporciona una mirada hacia el interior destinada a reflexionar sobre el propio potencial para actuar y tomar las riendas del cambio personal o profesional. El paso por esta experiencia permitirá descubrir, desarrollar y desplegar un conjunto de competencias que afianzarán y fortalecerán a la persona, a lo largo de su vida, en la gestión estratégica de su carrera vital y profesional. Este modelo sitúa la figura del orientador/a en un rol de acompañamiento a través del cual la persona se sienta acompañada en la planificación, gestión y evaluación permanente de su proyecto, intentando que aprehenda estrategias y modos de afrontamiento autónomo con valor presente y futuro.

Modelo de la Escalera de la Comunicación Asertiva, los escalones que previenen la deserción escolar Skary Armando López Osuna,2024-05-09 Modelo de la escalera de la comunicación asertiva los escalones que previenen la deserción escolar. Antología y didáctica ofrece un viaje revelador a través de la implementación de una intervención psicopedagógica en una escuela secundaria, donde la lucha contra la deserción escolar se convierte en el escenario para una profunda exploración de la comunicación asertiva. El diagnóstico inicial, tras un breve contexto económico y social, revela deficiencias en la toma de decisiones y habilidades comunicativas entre los estudiantes. La falta de comunicación asertiva es un factor clave en la deserción escolar, por lo que se introduce un modelo de siete pasos —el modelo de la escalera de comunicación asertiva— efectuado a través de talleres. El libro presenta evidencias de que la aplicación del modelo ECA modifica actitudes, promoviendo decisiones más eficaces y una convivencia escolar positiva. Se sostiene que la comunicación asertiva no solo aborda la deserción escolar, sino que también fortalece habilidades sociales cruciales para la participación activa de los

estudiantes en una sociedad diversa. El libro documenta así evidencias convincentes de que el modelo no solo modifica actitudes, sino que también promueve decisiones más eficaces y una convivencia escolar más saludable, habilidades necesarias para enfrentar los obstáculos de la vida y participar plenamente en una sociedad plural.

Examinations of current issues and projections of future research and practice are embedded within each chapter. This volume maps the boundaries of this rapidly growing and multidisciplinary field of study. Key features include... Comprehensive Coverage - The chapters are divided into three parts: Foundations; Assessment and Measurement; Prevention and Intervention Programs. Together they provide a comprehensive review of what is known about the types, causes, and effects of school violence and the most effective intervention programs that have been developed to prevent violence and promote safe and thriving school climates. Evidence-based Practice - Avoiding a one-size-fits-all approach to prevention and intervention, the focus throughout is on the application of evidence-based practice to address factors most commonly associated with school violence and safety. Implications for Practice - Each chapter bridges the research-to-practice gap, with a section delineating implications for practice of the foregoing research. Chapter Structure - To ensure continuity and coherence across the book, each chapter begins with a brief abstract and ends with a table showing the implications for practice. International Focus - Acknowledging the fact that school violence and safety is a global concern, this edition has increased its focus on insights learned from cross-national research and practice outside the USA. Expertise - The editors and authors are experienced researchers, teachers, practitioners, and leaders in the school violence field, their expertise includes their breadth and depth of knowledge and experience, bridging research, policy, and practice and representing a variety of international organizations studying school violence around the world.

The Bahía Blanca Estuary Sandra M. Fiori, Paula D. Pratolongo, 2021-08-03 The Bahía Blanca Estuary is one of the largest coastal systems in Atlantic South America. This mesotidal estuary, situated in a sharp transition between humid subtropical and semiarid climates, has a unique combination of large interannual climatic variations. The estuarine area encompasses roughly 2300 square kilometers and is composed of wide expanses of intertidal flats, salt marshes, and emerged islands, which create intricate landscape patterns. Natural environments in the estuary sustain a high concentration of marine and terrestrial species, including endemic, threatened, and endangered fish and shorebirds. Puerto Cuatrerros, in the inner zone of the estuary, hosts a permanent marine research station, whose records span more than 30 years of biophysical variables, and represent one of the largest time series of ecological data in South America. Beyond its ecological relevance, the Bahía

Blanca Estuary is under increasing anthropogenic pressure from large urban settlements, industrial developments and harbors, raising the question of how to balance conservation and development. The *Bahía Blanca Estuary: Ecology and Biodiversity* offers a comprehensive review of life in the ecosystems of the estuary. The book is divided into five major sections, the first of which provides a description of the regional setting and covers key aspects of estuarine dynamics. The three following sections are dedicated to different habitat types and, within each section, the chapters are organized around major functional groups from pelagic and benthic environments. The fifth and final section covers issues related to management and conservation. Overall, the book provides essential and up-to-date reference material on the biodiversity and ecosystem processes of the Bahía Blanca Estuary, and will appeal to a broad international audience.

A Secure Base John Bowlby, 1988 In this collection of lectures Dr Bowlby describes recent findings, and gives an outline of the main features of attachment theory, now widely recognised as a most productive conceptual framework within which to organise the evidence. In the final lecture he shows how this knowledge, when applied to analytically oriented psychotherapy, helps both to clarify the aims of therapy and to guide the therapist in his or her own work. This collection will be welcomed by students as a lucid introduction to the field, by professionals who are still unfamiliar with recent developments, as well as by those eager to extend their existing knowledge.

The Earliest Relationship T. Berry Brazelton, Bertrand G. Cramer, 2018-05-08 Never before has research on newborn behavior and parent-infant interaction been fully integrated with psychoanalytic insight into parents' emotions and fantasies. This book provide a vivid glimpse of the parents' daydreams and narcissistic wishes which grow into a desire for a child, and they show how these feelings develop into important attachments to the unborn infant during pregnancy. The power and competence of the newborn born then challenges parental fantasies, desires, wishes and expectations, creating the beginnings of the bond between parent and child. Using the latest research, the authors clarify all the ways the infant participates in the dawning relationship and the ingredients of very early communication and interaction. They then unveil the imaginary interactions which lend meaning and drama to each gesture and expression. We see the baby as Tyrant, as Savior, or as the reincarnation of lost relationships. Everyone who cares for mothers and babies-pediatricians, developmental and clinical psychologists, psychiatrists, early childhood specialists, nurses and social workers-as well as interested parents,

will find this book of immediate value.
