Evelin Verhás

Under the Banner of Islam Gülay Türkmen, 2021-01-22 Sunni Islam has played an ambivalent role in Turkey's Kurdish conflict--both as a conflict resolution tool and as a tool of resistance. Under the Banner of Islam uses Turkey as a case study to understand how religious, ethnic, and national identities converge in ethnic conflicts between co-religionists. Gülay Türkmen asks a question that informs the way we understand religiously homogeneous ethnic conflicts today: Is it possible for religion to act as a resolution tool in these often-violent conflicts? In search for answers to this question, in *Under the Banner of Islam*, Türkmen journeys into the inner circles of religious elites from different backgrounds: non-state-appointed local Kurdish meles, state-appointed Kurdish and Turkish imams, heads of religious NGOs, and members of religious orders. Blending interview data with a detailed historical analysis that goes back as far as the nineteenth century, she argues that the strength of Turkish and Kurdish nationalisms, the symbiotic relationship between Turkey's religious and political fields, the religious elites' varying conceptualizations of religious and ethnic identities, and the recent political developments in the region (particularly in Syria) all contribute to the complex role religion plays in the Kurdish conflict in Turkey. *Under the Banner of Islam* is a specific story of religion, ethnicity, and nationalism in Turkey's Kurdish conflict, but it also tracks a broader narrative of how ethnic and religious identities are negotiated when resolving conflicts.

The Thirty-Year Genocide Benny Morris, Dror Ze'evi, 2019-04-24 A Financial Times Book of the Year A Foreign Affairs Book of the Year A Spectator Book of the Year "A landmark contribution to the study of these epochal events." —Times Literary Supplement "Brilliantly researched and written...casts a careful eye upon the ghastly events that took place in the final decades of the Ottoman empire, when its rulers decided to annihilate their Christian subjects...Hitler and the Nazis gleaned lessons from this genocide that they then applied to their own efforts to extirpate Jews." —Jacob Heilbrun, *The Spectator* Between 1894 and 1924, three waves of violence swept across Anatolia, targeting the region's Christian minorities. By 1924, the Armenians, Assyrians, and Greeks, once nearly a quarter of the population, had been reduced to 2 percent. Most historians have treated these waves as distinct, isolated events, and successive Turkish governments presented them as an unfortunate sequence of accidents. *The Thirty-Year Genocide* is the first account to show that all three were actually part of a single, continuing, and intentional effort to wipe out Anatolia's Christian population. Despite the dramatic swing from the Islamizing autocracy of the sultan to the secularizing republicanism of the post-World War I period, the nation's

annihilationist policies were remarkably constant, with continual recourse to premeditated mass killing, homicidal deportation, forced conversion, and mass rape. And one thing more was a constant: the rallying cry of jihad. While not justified under the teachings of Islam, the killing of two million Christians was effected through the calculated exhortation of the Turks to create a pure Muslim nation. “A subtle diagnosis of why, at particular moments over a span of three decades, Ottoman rulers and their successors unleashed torrents of suffering.” —Bruce Clark, New York Times Book Review

Muslim Nationalism and the New Turks Jenny Barbara White, 2013 Turkey has leapt to international prominence as an economic and political powerhouse under its elected Muslim government, and is looked on by many as a model for other Muslim countries in the wake of the Arab Spring. This book reveals how Turkish national identity and the meanings of Islam and secularism have undergone radical changes in today's Turkey, and asks whether the Turkish model should be viewed as a success story or cautionary tale. Jenny White shows how Turkey's Muslim elites have mounted a powerful political and economic challenge to the country's secularists, developing an alternative definition of the nation based on a nostalgic revival of Turkey's Ottoman past. These Muslim nationalists have pushed aside the Republican ideal of a nation defined by purity of blood, language, and culture. They see no contradiction in pious Muslims running a secular state, and increasingly express their Muslim identity through participation in economic networks and a lifestyle of Islamic fashion and leisure. For many younger Turks, religious and national identities, like commodities, have become objects of choice and forms of personal expression. This provocative book traces how Muslim nationalists blur the line between the secular and the Islamic, supporting globalization and political liberalism, yet remaining mired in authoritarianism, intolerance, and cultural norms hostile to minorities and women.

Turkish Islam and the Secular State M. Hakan Yavuz, John L. Esposito, 2003-11-01 In the first book of its kind, M. Hakan Yavuz and John L. Esposito explore recent reformations of Islam and culture in Turkey and the successful Islamist modernist Fethullah Gülen movement. As one of the most significant religious movements to emerge in Turkey in the past fifty years, the Gülen movement combines a devotion to Islam with love for modern learning, especially modern science. This groundbreaking work focuses on and explains the nexus of complex historical and political developments that have contributed to the transformation of Islam in Turkey and to the movement's sphere of influence stretching into the Balkans and central Asia through the establishment of schools outside Turkey. The book cogently traces the origin of Gülen's ideology and his early efforts to propagate his views through educational activities. It details the various strategies employed by Gülen's followers to put his ideas into practice, both in Turkey and around the world. Contributors describe its intellectual and religious formation, its spread across Turkey and Central Asia, and its influence on citizens outside the movement, including leading Turkish politicians.

Handbook of Hinduism in Europe Knut A. Jacobsen, Ferdinando Sardella, 2020 Handbook of Hinduism in Europe portrays

and analyses how Hindu traditions have expanded across the continent, and presents the main Hindu communities, religious groups, forms, practices and teachings. The Handbook does this in two parts, Part One covers historical and thematic topics which are of importance for understanding Hinduism in Europe as a whole and Part Two has chapters on Hindu traditions in every country in Europe. Hindu traditions have a long history of interaction with Europe, but the developments during the last fifty years represent a new phase. Globalization and increased ease of communication have led to the presence of a great plurality of Hindu traditions. Hinduism has become one of the major religions in Europe and is present in every country of the continent--

The Turkish minority in Western Thrace Evelin Verhás,2019-10-23 The Turkish minority in Western Thrace has inhabited the region for centuries. However, despite a raft of protections in domestic and international law, they remain unrecognized by the Greek government. [This report] highlights the barriers still confronting the community today. This situation has resulted in a wide range of restrictions on their ability to establish associations, practice their culture and provide education in the Turkish language, representing a serious threat to their identity, participation and self-expression. The Turkish minority also faces a number of obstructions of their religious freedoms, including state interference in the appointment of their spiritual leaders. The rights of the Turkish minority continue to be determined by a framework established almost a century ago, despite Greece's accession to a host of international human rights treaties and its obligations as a member of the European Union. In this context, Greek authorities must take immediate steps to recognize the Turkish minority in Western Thrace and remove all barriers to the full enjoyment of their rights.

Religion, Society, and Modernity in Turkey Serif Mardin,2006-06-30 This book collects Serif Mardin's seminal essays written throughout the span of his prolific career. Comprising some of the author's finest and most incisive writings, these essays deal with the historical background, political travails, and socioeconomic metamorphosis of Turkey during a century of modernization. With his characteristic sophistication and breadth of vision, Mardin provides readers with a remarkably objective analysis of ideology, civil society, religion, urban life, and violence in late Ottoman and Republican Turkey. Mardin moves easily from sociological topics on violence and class-consciousness to the history of the Ottoman Empire, and the philosophy and culture of modern Turkey within the greater Middle East. These influential pieces—collected for the first time in one volume—represent an invaluable addition to the field of Middle East studies.

Muslim Nationalism and the New Turks Jenny White,2014-04-27 Turkey has leapt to international prominence as an economic and political powerhouse under its elected Muslim government, and is looked on by many as a model for other Muslim countries in the wake of the Arab Spring. In this book, Jenny White reveals how Turkish national identity and the meanings of Islam and secularism have undergone radical changes in today's Turkey, and asks whether the Turkish model should be viewed as a success story or a cautionary tale. This provocative book traces how Muslim nationalists blur the line

between the secular and the Islamic, supporting globalization and political liberalism, yet remaining mired in authoritarianism, intolerance, and cultural norms hostile to minorities and women. In a new afterword, White analyzes the latest political developments, particularly the mass protests surrounding Gezi Park, their impact on Turkish political culture, and what they mean for the future.

Transnational Islam and the Integration of Turks in Great Britain Erdem Dikici, 2021-10-07 This book brings a transnational perspective to the study of immigrant integration in contemporary Western European societies, with a specific focus on transnational Turkish Islam and Turkish integration in Great Britain. It raises significant questions regarding national citizenship models, and offers original insights into the ways in which they can be extended and renewed to cover the cross-border reality. At the theoretical level, Dikici argues that the idea of multiculturalism can be extended to cover immigrant transnationalism without jeopardising its core principles such as equality and recognition of difference, and promises such as a shared national identity and unity in diversity. At the empirical level, the book illustrates that not all transnational Muslim organisations are the same (i.e. militant), and nor do they all hinder Muslim integration, rather they are diverse, with some deliberately contributing to the integration of Muslims into non-Muslim majority societies. The work will be of interest to scholars and students of contemporary integration and citizenship studies, multiculturalism studies, Muslim integration in Western societies, transnationalism and transnational Islam, Civil Society and Diaspora Studies.

A Compleat History of the Turks David Jones, 1701

Instilling Religion in Greek and Turkish Nationalism: A “Sacred Synthesis” I. Grigoriadis, 2012-10-30 The first comparative study to examine the role of religion in the formation of Greek and Turkish nationalisms, this book argues that the shift to an increasingly religious paradigm in both countries can be explained in terms of the exigencies of consolidation and the need to appeal to grassroots elements and account for diversity.

The Present State of the Ottoman Empire Sir Paul Rycaut, 1668

Islam and Turks in Belgium Mehmet Orhan, 2020-01-23 Drawing on qualitative research conducted in Brussels, Wallonia and Flanders, *Islam and Turks in Belgium* examines the interdependence between Muslim community and association. With a focus on social groups, religious structures and circles within Turkish populations, this book demonstrates how communal and associative movements operate through a combination of relationships of proximity and distance. Proximity is a way in which Muslim organisations establish religious, social, and cultural ties with communities. Distance, on the other hand, takes into account social, historical, and political elements from abroad, and refers to the relationship with the Muslim world more broadly. As this reciprocal web of relations gives rise to Islamic mobilisations, it leads to the emergence or persistence of different figures of authority within associations and communities who articulate traditional, charismatic, and bureaucratic legitimacies. This book will be of interest to students and scholars of the sociology

of religion, migration, race, ethnicity and Islamic studies.

Writing Religion Markus Dressler,2013-07-04 In the late 1980s, the Alevis, at that time thought to be largely assimilated into the secular Turkish mainstream, began to assert their difference as they never had before. The question of Alevism's origins and its relation to Islam and to Turkish culture became a highly contested issue. According to the dominant understanding, Alevism is part of the Islamic tradition, although located on its margins. It is further assumed that Alevism is intrinsically related to Anatolian and Turkish culture, carrying an ancient Turkish heritage, leading back into pre-Islamic Central Asian Turkish pasts. Dressler argues that this knowledge about the Alevis-their demarcation as heterodox but Muslim and their status as carriers of Turkish culture-is in fact of rather recent origins. It was formulated within the complex historical dynamics of the late Ottoman Empire and the first years of the Turkish Republic in the context of Turkish nation-building and its goal of ethno-religious homogeneity--Front flap.

Roots of Turkish History Ümit YILDIRIM TANAS,2024-07-07 This book focuses on the pre-Islamic Turks' military structures, their perception of the universe, women's social roles, ceremonies, their approach to different religions, general Turkish cities, their culture, their understanding of taxes, and also the events that took place before and after the Battle of Talas and their impact on the Turks' acceptance of Islam. Factors that contribute to the expansion of Islam in Turkish society in detail. In particular, the role played by the Turks in accepting Islam and the Karakhanids, the first Turkish-Islamic State, are also included. In summary, the work titled *Roots of Turkish History*, which will attract the attention of everyone who is interested in the Turkish days and the pre-Islamic period and will enrich their world of knowledge, will offer an important perspective to its readers after a meticulous and devoted study.

Turkey's Accession to the European Union Constantine Arvanitopoulos,2008-12-28 European views on Turkey's membership in the EU have been split between those in support of its full integration and those advocating a privileged partnership. To the extent that many of the latter proposals imply that Turkey will be partially integrated within Europe in certain areas, the question of Turkey's accession is probably not about 'if', but about 'how much' integration there will be within the Union's structures. The purpose of this book is not to offer a definitive response to this question. The book aims instead to examine the complexity of the issues pertaining to Turkey's prospective EU membership by presenting several, often divergent, accounts of the political, security and socio-economic dimensions of the entire process. The book provides a forum for an exchange of views among distinguished scholars and researchers from different national backgrounds in order to contribute to the ongoing public discussion of Turkey's accession. Sophisticated, informative and refreshing in its argumentation, the book provides an excellent overview of the complexities of Turkey's accession to the EU membership. Professor Mustafa Aydin, TOBB University of Economics and Technology A refreshing view from the European periphery, an original mirror of the Union's central challenges. Professor Georges Prevelakis, University of Paris 1 - Panthéon-Sorbonne

Ideology Teun A Van Dijk, 1998-02-05 The definition of ideology continues to occupy scholars across a wide range of disciplines. In this book, Teun A van Dijk sketches a challenging new multidisciplinary framework for theorizing ideology. He defines ideology as the basis of the social representations of a group, its functions in terms of social relations between groups, and its reproduction as enacted by discourse. Contemporary racist discourse is examined to illustrate these ideological relations between cognition, society and discourse.

Gender, Race and Religion Martin Bulmer, John Solomos, 2014-01-02 *Gender, Race and Religion* brings together a selection of original papers published in *Ethnic and Racial Studies* that address the intersections between gender relations, race and religion in our contemporary environment. Chapters address both theoretical and empirical aspects of this phenomenon, and although written from the perspective of quite different national, social and political situations, they are linked by a common concern to analyze the interface between gender and other situated social relationships, from both a conceptual and a policy angle. These are issues that have been the subject of intense scholarly research and analysis in recent years, as well as forming part of public debates about the significance of gender, race and religion as sites of identity formation and mobilization in our changing global environment. The substantive chapters bring together insights from both theoretical reflection and empirical research in order to investigate particular facets of these questions. *Gender, Race and Religion* addresses issues that are at the heart of contemporary scholarly debates in the field of race and ethnic studies, and engages with important questions in policy and public debates. This book was originally published as a special issue of *Ethnic and Racial Studies*.

Religion and Politics in Turkey Barry Rubin, Ali Çarkoğlu, 2013-09-13 Over the last decade the once marginal extreme right of the Turkish ideological spectrum has grown in size as well as in influence and has effectively reshaped party competition in Turkey. Policy mandates and electoral bases of the rising extreme right rely on potentially explosive social cleavages in the country. One such confrontation is between the secularist and pro-Islamist forces, which has always been one of the centrepieces of modern Turkish politics. The rise of pro-Islamist electoral forces from a marginal to an undeniably imposing position in Turkish electoral politics has led many to worry that a deep-rooted schism has come to the forefront of Turkish politics. The frontline of this secularist vs pro-Islamist confrontation is quite widespread ranging from a debate around the ban of turban and headscarves in universities to religious education in the country, from Islamic principles in the economy to Turkish foreign policy towards the Middle Eastern countries. This volume was previously published as a special issue of the journal *Turkish Studies*.

Islam in Modern Turkey Kim Shively, 2021-01-31 This book provides a survey of Islam in Turkey since the founding of the modern republic in 1923. It examines the secularising policies of Turkey's founders and how these policies have shaped the development of religious institutions and social expectations around religious practice up to the present day. A special

emphasis is on the relationship between religion and politics, with chapters focusing on state-based religious institutions, religious education, Sufi orders and religious communities, Alevism, Islamic-oriented political parties, and the effects of economic liberalization on the practice of Islam in Turkey. Readers will also learn about the political and social developments that contributed to the rise of the current Islamist government of the Justice and Development Party. In this way, Islam in Turkey provides vital historical context for understanding both the rise of the controversial President Recep Tayyip Erdoğan and current events in Turkey and the Middle East more broadly.
