COVID-19 and E-commerce United Nations Publications,2022-04-30 This publication assesses the impact of COVID-19 on e-commerce and digital trade. While the pandemic caused a sharp deceleration in economic activity, it also led to a rapid acceleration of e-commerce. With restrictions on movement and other public health interventions in place, digital solutions have become essential to continued delivery of economic and social activities. And, as the digital economy and e-commerce play an increased role in Sustainable Development, stakeholders at all levels have a responsibility to ensure that these technologies play a positive and powerful role in national and international recovery efforts. Indeed, those that can harness the potential of e-commerce will be better placed to benefit from global markets for their goods and services, while those that fail to do so risk falling behind. Thus, the critical global policy challenge that emerges from this study is that greater efforts are needed to help reduce inequalities in e-trade readiness that currently prevail amongst countries.

Fratelli Tutti Pope Francis ,2020-11-05

Laudato Si Pope Francis,2015-07-18 “In the heart of this world, the Lord of life, who loves us so much, is always present. He does not abandon us, he does not leave us alone, for he has united himself definitively to our earth, and his love constantly impels us to find new ways forward. Praise be to him!” - Pope Francis, *Laudato Si'* In his second encyclical, *Laudato Si'*: On the Care of Our Common Home, Pope Francis draws all Christians into a dialogue with every person on the planet about our common home. We as human beings are united by the concern for our planet, and every living thing that dwells on it, especially the poorest and most vulnerable. Pope Francis' letter joins the body of the Church's social and moral teaching, draws on the best scientific research, providing the foundation for “the ethical and spiritual itinerary that follows.” *Laudato Si'* outlines: The current state of our “common home” The Gospel message as seen through creation The human causes of the ecological crisis Ecology and the common good Pope Francis' call to action for each of us Our Sunday Visitor has included discussion questions, making it perfect for individual or group study, leading all Catholics and Christians into a deeper understanding of the importance of this teaching.

Heritage in the Classroom ,2005

The European Constitution in the Making Roberto Miccù,2004 In the European Convention, parliamentarians and government representatives from the Member States have elaborated the Draft Constitution establishing a Constitution for

Europe. This process requires academic guidance and analysis. The European Constitutional Law Network provides an important forum of associated constitutional and European lawyers from different old and new Member States (www.ecln.net). The structure of the future constitution and the general lines of argument underlying the deliberations of the Convention are the focus of the individual contributions to this volume which were presented on the occasion of the second ECLN conference in summer 2002 in Rome. Against the background of their national constitutional and legal orders, the contributors demonstrate their expectations for the European constitution in the making. Thereby, the deliberations provide a pan-European basis for the debate on the future Constitution for Europe.

Bioethics in a European Perspective H.A. Ten Have, Bert Gordijn, 2013-03-09 In this book, developed by a group of collaborating scholars in bioethics from different European countries, an overview is given of the most salient themes in present-day bioethics. The themes are discussed in order to enable the reader to have an in-depth overview of the state of the art in bioethics. Introductory chapters will guide the reader through the relevant dimensions of a particular area, while subsequent case discussions will help the reader to apply the ethical theories to specific clinical problems and health policy queries. The book focuses on perspectives typical for the European context. This highlights not only particular bioethical themes such as social justice, choices in health care, and health policy (e.g., in post-communist countries), it also emphasizes specific approaches in ethical theory, in relation to Continental philosophies such as phenomenology and hermeneutics. Because of its articulation of what is typical for the European health care setting as well as for bioethical debate, this book is unique in comparison to existing textbooks in bioethics. The book is an introductory textbook acquainting the reader with the major issues in present-day health care as well as the various theoretical and practical approaches to clarify these issues.

EU Law and the Social Character of Health Care Elias Mossialos, Martin McKee, 2002 European law is an increasingly important factor in the development and implementation of national and local health policy. Yet for many it

remains shrouded in mystery. The situation with regard to laws impacting on health care is especially problematic as, typically, consequences arise from policies designed primarily to address problems in other sectors, which then establish general principles whose applicability to health care only becomes apparent once interpreted by rulings of the European Court of Justice. This book, written with the health and social policy community in mind, provides a comprehensive assessment of the main implications of EU law in certain key areas of health care.

Universities of Europe in the Middle Ages Hastings Rashdall, 1969

The Night of Rome Carlo Bonini, Giancarlo de Cataldo, 2019-07-09 When an Italian kingpin falls, a battle of successors begins in this “razor-sharp political thriller set in Berlusconi’s Rome” (The New Statesman). Things are changing in Rome. The new Pope, determined to reform the Vatican, proclaims an extraordinary Jubilee year, one “of Mercy.” A new center-left government replaces its disgraced predecessor. And with the underworld kingpin Samurai in jail, his protégé Sebastiano Laurenti plans to establish himself as his designated successor. But to do it, he must reckon with a new generation of gangsters and racketeers edging in on the corrupt profits to be made off the Jubilee’s public works. Meanwhile, Laurenti must also keep an eye on the ambitious newly elected politician Chiara Visone. As the sharks circle and the street-dogs fight, a tenuous hope endures. An incorruptible politician of the old left is about to forge an unlikely alliance with a young bishop who refuses to play the Vatican’s power games. Sharp, dark, and taut, *The Night of Rome* is fiction that sails dangerously close to the wind of current events.

Frederick the Second Ernst Kantorowicz, 2017-06-20 FREDERICK THE SECOND is the story of the remarkable man whose power and sphere of influence straddled the worlds of Christendom and of Islam. The last of the Hohenstaufens, Holy Roman Emperor and King of Sicily and Jerusalem, Frederick II was an energetic and versatile ruler, a man of great ambition in whose lifetime the conflict between Emperor and Pope reached a new intensity. Excommunicated three times by the Church, he was an absolute monarch whose power, defended in almost continuous struggle, extended over much of

Germany and Italy as well as the Holy Land. Frederick was a complex man of cultured tastes and licentious manners who had unusually wide intellectual interests. At his Sicilian court scholars of all religions were welcomed--Christian, Jewish, Mohammedan. He founded the University of Naples in 1224 and was a patron of the arts and sciences. The life of this dynamic man is fully explored in Ernst Kantorowicz's notable biography, filled with dramatic incident and absorbing detail, and written with style and scholarship.

Medical Charlatanism in Early Modern Italy David Gentilcore,2006-09-21 From the mid-sixteenth century onwards, the Italian Protomedicato tribunals, Colleges of Physicians, or Health Offices (jurisdiction varied from state to state) required charlatans to submit their wares for inspection and, upon approval, pay a licence fee in order to set up a stage from which to perform and sell them. The licensing of charlatans became an administrative routine. As far as the medical magistracies were concerned, charlatans had a defineable identity, constituting a specific trade or occupation. This book studies the way charlatans were represented, by contemporaries and by historians, how they saw themselves and, most importantly, it reconstructs the place of charlatans in early modern Italy. It explores the goods and services charlatans provided, their dealings with the public and their marketing strategies. It does so from a range of perspectives: social, cultural, economic, political, geographical, biographical and, of course, medical. Charlatans are not just some curiosity on the fringes of medicine: they offered health care to an extraordinarily wide sector of the population. Moreover, from their origins in Renaissance Italy, the Italian ciarlatano was the prototype for itinerant medical practitioners throughout Europe. This book offers a different look at charlatans. It is the first to take seriously the licences issued to charlatans in the Italian states, compiling them into a 'charlatans database' of over 1,300 charlatans active throughout Italy over the course of some three centuries. In addition, it makes use of other types of archival documents, such as trial records and wills, to give the charlatans a human face, as well as a wide range of artistic and printed sources, not forgetting the output of the charlatans themselves, in the form of handbills and pamphlets.
