Ends of the Seventh Year D.E. Langley,2024-06-26 Based upon the scripture of the KJV and the time line depicted thereby. The last 2,300 days of this Earth age and how it shall transpire into the next Earth age. This time line is told in unison with a collection of stories, some of which are true. Stories of weird experiences, of love found, love lost, and love reunited. Characters that endure hardships that persist and grow until the end becomes the beginning. The Year of the End Anne Theroux,2021-07-08 'A moving and absorbing account' Adam Buxton 'Scorching ... a brave book' Helen Brown, Telegraph 'A wise and vivid memoir of a disintegrating marriage and a study of the role of the spouse in the life of a literary giant' Fiona Sturges, i Paper 18TH JANUARY 1990 Paul left today at 8am. We had been married just over

22 years. The previous evening we had gone out to eat at a local restaurant, where we drank champagne and reminisced. In a short story which he wrote about that final evening of a marriage, the central characters talk wittily and poignantly about the explorer Sir Richard Burton and the sad, misunderstood wife who burnt his books. The reality was different. 'This memoir is based on the diary I kept during 1990, the year that my first marriage came to an end.' After 22 years, spent across four continents, with two children - Louis and Marcel - in 1990 Anne and Paul Theroux decided to separate. For that year, Anne - later a professional relationship therapist herself - kept a diary, noting not only her day-to-day experiences as a busy freelance journalist and broadcaster, but the contrasts in her feelings between despairing grief and hope for a new future. With reflections on truth and fiction, literature and art, and the nature of marriage, alongside commentary on notable political and cultural events, and interviews with prominent writers of the time, including Kingsley Amis and Barbara Cartland, *The Year of the End* offers a unique insight into the unravelling of a relationship and the attempt to rebuild a life.

It's Not About The Bike Lance Armstrong, 2012-06-12 I want to die at a hundred years old after screaming down an Alpine descent on a bicycle at 75 miles per hour. I don't do anything slow, not even breathe. I do everything at a fast cadence: eat fast, sleep fast. At twenty four, Lance Armstrong was already well on his way to becoming a sporting legend. Then, in October 1996, he was diagnosed with stage four testicular cancer. When lesions appeared on his brain and in his lungs, doctors gave him a 40% chance of survival. On that day Armstrong's life changed forever and in typical fashion he met the challenge head on - this was one fight he was determined not to lose. As he battled against the cancer invading his body and the chemotherapy that threatened to sap his soul, a tremendous sense of commitment emerged, to his training and to the people around him who never gave up on him. Just sixteen months after he was discharged from hospital, Armstrong entered the Tour de France, a race famed for its gruelling intensity, and won, in the fastest ever time. Just a few months after that, he became a father. *It's Not About the Bike* is the story of one man's inspirational battle against the odds, charting his progress through triumph, tragedy and transformation. This is an awe-inspiring tale of immense courage and will.

Stars, Myths and Rituals in Etruscan Rome Leonardo Magini,2014-12-04 This book offers a detailed and fascinating picture of the astonishing astronomical knowledge on which the Roman calendar, traditionally attributed to the king Numa Pompilius (reign 715-673 B.C.), was based. This knowledge, of Mesopotamian origins, related mainly to the planetary movements and to the occurrence of eclipses in the solar system. The author explains the Numan year and cycle and illustrates clearly how astronomical phenomena exerted a powerful influence over both public and private life. A series of concise chapters examine the dates of the Roman festivals, describe the related rites and myths and place the festivals in relation to the planetary movements and astronomical events. Special reference is made to the movements of the moon and Venus, their relation to the language of myth, and the particular significance that Venus was considered to have for female fertility. The book clearly demonstrates the depth of astronomical knowledge reflected in the Roman religious calendar and the designated festive days. It will appeal both to learned connoisseurs and to amateurs with a particular interest in the subject.

Last Days of the Concorde Samme Chittum,2018-09-25 The gripping true tale of a devastating plane crash, the investigation into its causes, and the race to prevent similar disasters in the future. On July 25, 2000, a Concorde, the world's fastest passenger plane, was taking off from Charles de Gaulle Airport in Paris when it suddenly burst into flames. An airliner capable of flying at more than twice the speed of sound, the Concorde had completed 25 years of successful flights, whisking wealthy passengers--from diplomats to rock stars to corporate titans--between continents on brief and glamorous flights. Yet

on this fateful day, the chartered Concorde jet, en route to America, crashed and killed all 109 passengers and crew onboard and four people on the ground. Urgent questions immediately arose as investigators scrambled to discover what had gone wrong. What caused the fire? Could it have been prevented? And, most urgently, was the Concorde safe to fly? Last Days of the Concorde addresses these issues and many more, offering a fascinating insider's look at the dramatic disaster, the hunt for clues, and the systemic overhauls that followed the crash.

Barren Women Sara Verskin,2020-04-06 *Barren Women* is the first scholarly book to explore the ramifications of being infertile in the medieval Arab-Islamic world. Through an examination of legal texts, medical treatises, and works of religious preaching, Sara Verskin illuminates how attitudes toward mixed-gender interactions; legal theories pertaining to marriage, divorce, and inheritance; and scientific theories of reproduction contoured the intellectual and social landscape infertile women had to navigate. In so doing, she highlights underappreciated vulnerabilities and opportunities for women's autonomy within the system of Islamic family law, and explores the diverse marketplace of medical ideas in the medieval world and the perceived connection between women's health practices and religious heterodoxy. Featuring copious translations of primary sources and minimal theoretical jargon, *Barren Women* provides a multidimensional perspective on the experience of infertility, while also enhancing our understanding of institutions and modes of thought which played significant roles in shaping women's lives more broadly. This monograph has been awarded the annual BRAIS - De Gruyter Prize in the Study of Islam and the Muslim World.
