[Dance for Me When I Die](#) Cristian Alarcón,2019-04-05 On the morning of February 6, 1999, Buenos Aires police officers shot and killed seventeen-year-old Víctor Manuel Vital, better known as Frente, while he was unarmed, hiding under a table, and trying to surrender. Widely known and respected throughout Buenos Aires's shantytowns for his success as a thief, commitment to a code of honor, and generosity to his community, Frente became a Robin Hood--style legend who, in death, was believed to have the power to make bullets swerve and save gang members from shrapnel. In *Dance for Me When I Die*—first published in Argentina in 2004 and appearing here in English for the first time—Cristian Alarcón tells the story and legacy of Frente's life and death in the context of the everyday experiences of love and survival, murder and addiction, and crime and courage of those living in the slums. Drawing on interviews with Frente's friends, family, and ex-girlfriends, as well as with local thieves and drug dealers, and having immersed himself in Frente's neighborhood for eighteen months, Alarcón captures the world of the urban poor in all of its complexity and humanity.

The End of Our Time Nikolai Berdyaev,2009 This book is the philosophical fruit of Nikolai Berdyaev's first-hand experience of, and reflections on, the crisis of European civilization in the aftermath of the Great War and the Russian Revolution. Berdyaev tells us that the modern age, with its failed Humanism, is being replaced by a new epoch: the new middle ages, an epoch of darkness, an epoch of the universal night of history. Berdyaev asserts that this night is a good thing: in this darkness, which is a return to the mysterious life of the spirit, the destruction inflicted by the previous period of light will be healed: Night is not less wonderful than day; it is equally the work of God; it is lit by the splendor of the stars and it reveals to us things that the day does not know. Night is closer than day to the mystery of all beginning (pp. 70-71, present volume).

The Cube and the Face Georges Didi-Huberman,2015 Alberto Giacometti's 1934 *Cube* stands apart for many as atypical of the Swiss artist, the only abstract sculptural work in a wide oeuvre that otherwise had as its objective the exploration of reality. With *The Cube and the Face*, renowned French art historian and philosopher Georges Didi-Huberman has conducted a careful analysis of *Cube*, consulting the artist's sketches, etchings, texts, and other sculptural works in the years just before and after *Cube* was created. *Cube*, he finds, is indeed exceptional—a work without clear stylistic kinship to the works that came before or after it.

Re-Forming Capitalism Wolfgang Streeck,2008-12-18 Wolfgang Streeck has written extensively on comparative political economy and institutional theory. In this book he addresses some of the key issues in this field: the role of history in institutional analysis, the dynamics of slow institutional change, the limitations of rational design and economic-functionalist explanations of institutional stability, and the recurrent difficulties of restraining the effects of capitalism on social order. In the classification of the 'Varieties of Capitalism' school, Germany has always been taken as the chief exemplar of a 'European', coordinated market economy. Streeck explores to what extent Germany actually conforms to this description. His argument is supported by original empirical research on wage-setting and wage structure, the organization of business and labor in business associations and trade unions, social policy, public finance, and corporate governance. From this evidence, *Bringing Capitalism Back In* traces the current liberalization of the postwar economy of democratic capitalism by means of an historically-grounded approach to institutional change. This is an important book in comparative political economy and key reading across the social sciences for academics, researchers, and advanced students of Political Economy, Sociology, comparative business systems.

The Immaterial André Gorz,2010 We live in a world where material products have increasingly become vehicles for intangible symbolic and aesthetic messages. A very sizeable marketing and advertising industry produces only images and symbols--the immaterial dimension that `sells' material commodities. The economic boom that accelerated in the 1990s and crashed so spectacularly in 2008 was based largely on immaterial consumption, as capitalism tried to overcome the crisis of the Fordist regime by throwing itself into the new, so-called knowledge economy. --

Helen of Troy and Her Shameless Phantom Norman Austin,2018-09-05 Like the male heroes of epic poetry, Helen of Troy has been immortalized, but not for deeds of strength and honor; she is remembered as the beautiful woman who disgraced herself and betrayed her family and state. Norman Austin here surveys interpretations of Helen in Greek literature from the Homeric period through later antiquity. He looks most closely at a revisionist myth according to which Helen never sailed to Troy, but remained blameless, while a libertine phantom or ghost impersonated her at Troy. Comparing the functions of contradictory images of Helen, Austin helps to clarify the problematic relations between beauty and honor and between ugliness and shame in ancient Greece. Austin first discusses the canonical account of the Iliad and the Odyssey: Helen as the archetype of woman without shame. He next considers different versions of Helen in the Homeric tradition. Among these, he shows how Sappho presents Helen as an icon of absolute beauty while she defends her own preference of eros over honor and her choice of woman as the object of desire. Austin then turns to three major authors who repudiated the traditional Helen of Troy: the lyric poet Stesichorus and the dramatist Euripides, who embraced the alternative myth of

Helen's phantom; and the historian Herodotus, who claimed to have found in Egypt a Helen story that dispenses with both Helen and the phantom. Austin maintains that the conflicting motives that prompted these writers to rehabilitate Helen led to further revisions of her image, though none have endured as a credible substitute for the Helen of epic tradition.

From the Maccabees to the Mishnah Shaye J. D. Cohen, 1987 As interesting to read as they are informative, the volumes in this important series deal in new ways with topics and materials that illuminate the life and literature of early Christianity...Taken as a whole, the series offers various new avenues of approach to an understanding of the social, intellectual, and literary environment of the early Christian movement.---Victor Paul Furnish, University Distinguished Professor of New Testament, Southern Methodist University Copyright © Libri GmbH. Metropolis 1890-1940 Anthony Sutcliffe, 1984-02 An ideal and welcome reference and reader for students of urbanism, Metropolis 1890-1940 examines perceptions of the city during the dramatic urban growth of this period. Metropolis looks at the policies adopted to deal with the new city and at the views of the city expressed in the art, architecture, literature, cinema, music, and ideology of the time. Internationally known experts discuss case studies of London, Paris, Berlin, the Ruhr, New York, Moscow, and Tokyo, and a postscript brings the reader up to date with a survey of postwar urbanism.

No Apocalypse, No Integration Martín Hopenhayn, 2002-01-08 Winner of the Premio Iberoamericano Book Award in 1997 (Spanish Edition) What form does the crisis of modernity take in Latin America when societies are politically demobilized and there is no revolutionary agenda in sight? How does postmodern criticism reflect on enlightenment and utopia in a region marked by incomplete modernization, new waves of privatization, great masses of excluded peoples, and profound sociocultural heterogeneity? In No Apocalypse, No Integration Martín Hopenhayn examines the social and philosophical implications of the triumph of neoliberalism and the collapse of leftist and state-sponsored social planning in

Latin America. With the failure of utopian movements that promised social change, the rupture of the link between the production of knowledge and practical intervention, and the defeat of modernization and development policy established after World War II, Latin American intellectuals and militants have been left at an impasse without a vital program of action. Hopenhayn analyzes these crises from a theoretical perspective and calls upon Latin American intellectuals to reevaluate their objects of study, their political reality, and their society's cultural production, as well as to seek within their own history the elements for a new collective discourse. Challenging the notion that strict adherence to a single paradigm of action can rescue intellectual and cultural movements, Hopenhayn advocates a course of epistemological pluralism, arguing that such an approach values respect for difference and for cultural and theoretical diversity and heterodoxy. This essay collection will appeal to readers of sociology, public policy, philosophy, cultural theory, and Latin American history and culture, as well as to those with an interest in Latin America's current transition.

The Cambridge Companion to Greek Lyric Felix Budelmann, 2009-04-30 Greek lyric poetry encompassed a wide range of types of poem, from elegy to iambos and dithyramb to epinician. It particularly flourished in the Archaic and Classical periods, and some of its practitioners, such as Sappho and Pindar, had significant cultural influence in subsequent centuries down to the present day. This Companion provides an accessible introduction to this fascinating and diverse body of poetry and its later reception. It takes account of the exciting new papyrus finds and new critical approaches which have greatly advanced our understanding of both the corpus itself and of the sociocultural contexts in which lyric pieces were produced, performed and transmitted. Each chapter is provided with a guide to further reading, and the volume includes a chronology, glossary and guide to editions and translations.

Wind in the Pines Dennis Hirota, 1995 Wind in the Pines is a collection of writings that seek to illuminate the nature and aesthetics of chanoyu as a Buddhist path. Beginning with works on the art of linked verse (renga) that directly influenced the development of the way of tea, this book includes documents that are associated with the central figures in the formation of chanoyu in the spirit of wabi--the venerable poverty of the hermit's thatched hut--and that have been treasured by practitioners down to the present--
