Simple Science Experiments for the Very Young David Evans, Claudette Williams, 2000 Introduces basic principles of science and suggests experiments which demonstrate them.

The Transits of Venus William Sheehan, John Westfall, 2024-01-15 In this unique and fascinating history of science, acclaimed popular science writer William Sheehan - who was awarded a Guggenheim Fellowship for Science Writing - and award-winning geographer John Westfall take us back through the centuries to chronicle the intrepid explorations of scientists and adventurers who studied the transits of Venus in the quest for scientific understanding.

Wanderer in 19th-century German Literature Andrew Cusack, 2008 Using a method based on New Historicism, but with added emphasis on literature as cultural commentary, Andrew Cusack's study traces the motif's intertextual connections, how it receives meaning from non-literary discourses, and how it transmits meaning into the social sphere by molding individual and collective self-conceptions. The study draws on a corpus of ten prose narratives that reflect the vast scope of the motif and show how its function changes. The study pays scrupulous attention to the historical specificity of each work and to its relationship to contemporary aesthetic and philosophical currents, revealing the wanderer motif to be a significant vehicle of cultural memory that sustained the ideas of the Enlightenment and of Romanticism into the latter part of the century.--BOOK JACKET.

Real Nazis , 2017 Glamorous impersonations of evil: In the fall of 1999 Edition Patrick Frey published 'The Nazis', which soon became a legendary cult book. It has long since been out of print and remains highly coveted to this day. While 'The Nazis' showed stills of actors playing Nazis in various Hollywood movies, Polish artist Piotr Uklanski has now juxtaposed them with the real thing: Nazi party bigwigs, decorated 'war heroes' and war criminals. Painstakingly culled from a great many different archives, this follow-up compilation superimposes fact on fiction, the stagey, propagandistic imagery of the

Third Reich on the mockup Nazi iconography of Hollywood, revealing an uncanny, even spooky, resemblance between the play-acting and real-life exponents of evil. 'Real Nazis', using the same format and production values as its predecessor, is the 'real' brother that now seems an ugly reflection of that 'glamorous' artist's book 'The Nazis'--Publisher's website (viewed on December 7, 2017)
