Naked Statues, Fat Gladiators, and War Elephants Garrett Ryan,2021-09-01 Why didn't the ancient Greeks or Romans wear pants? How did they shave? How likely were they to drink fine wine, use birth control, or survive surgery? In a series of short and humorous essays, *Naked Statues, Fat Gladiators, and War Elephants* explores some of the questions about the Greeks and Romans that ancient historian Garrett Ryan has answered in the classroom and online. Unlike most books on the classical world, the focus is not on famous figures or events, but on the fascinating details of daily life. Learn the answers to: How tall were the ancient Greeks and Romans? How long did they live? What kind of pets did they have? How dangerous were their cities? Did they believe their myths? Did they believe in ghosts, monsters, and/or aliens? Did they jog or lift weights? How did they capture animals for the Colosseum? Were there secret police, spies, or assassins? What happened to the city of Rome after the Empire collapsed? Can any families trace their ancestry back to the Greeks or Romans?

Who's Who in Gay and Lesbian History Robert Aldrich,Garry Wotherspoon,2020-10-07 *Who's Who in Gay and Lesbian History: From Antiquity to the Mid-Twentieth Century* is a comprehensive and fascinating survey of the key figures in gay and lesbian history from classical times to the mid-twentieth century. Among those included are: * Classical heroes - Achilles; Aeneas; Ganymede * Literary giants - Sappho; Christopher Marlowe; Arthur Rimbaud; Oscar Wilde * Royalty and politicians - Edward II; King James I; Horace Walpole; Michel de Montaigne. Over the course of some 500 entries, expert contributors provide a complete and vivid picture of gay and lesbian life in the Western world throughout the ages.

Naked Barbies, Warrior Joes, and Other Forms of Visible Gender Jeannie B. Thomas,2003 In this folkloric examination of mass-produced material culture in the United States, Jeannie Banks Thomas examines the gendered sculptural forms that are among the most visible, including Barbie, Ken, and G.I. Joe dolls; yard figures (gnomes, geese, and flamingos); and cemetery statuary (angels, sports-related images, figures of the Virgin Mary, soldiers, and politicians). Images of females are often emphasized or sexualized, frequently through nudity or partial nudity, whereas those of the male body are not only clothed but also armored in the trappings of action and aggression. Thomas locates these various objects of folk art within a discussion of the post-women's movement discourse on gender. In addition to the items themselves, Thomas explores the stories and behaviors they generate, including legends of the supernatural about cemetery statues, oral narratives of yard artists and accounts of pranks involving yard art, narratives about children's play with Barbie, Ken, and

G.I. Joe, and the electronic folklore (or e-lore) about Barbie that circulates on the Internet.

Nude Sculpture Vicki Goldberg, 2000-10 The human form has inspired some of the finest sculpture in art history. It also evokes in the viewer complex reactions. Looking at magnificent nude sculptures by Michelangelo, Rodin, Henry Moore, and other great artists, we are in awe of the beauty and power of the art, as well as of the nude figure. But we may also experience other emotions, perhaps uncomfortably close to those we feel when we see an unclothed human body. This astonishing work provides a visual survey of nude sculpture throughout the ages, enhanced by an illuminating essay by noted critic Vicki Goldberg probing our various responses to this most realistic art form. While photographs distance us from the art works they depict, they also offer close-up details that permit us to see nude sculptures in new and surprising ways. Photographer David Finn, who has expanded the way we look at art in Abrams' How-to-Look-at titles, enables us -- through his remarkable photographs -- to glimpse the sculptor's creative process as well as the qualities of presence, texture, and detail that give the finest sculpture its grace and majesty.

An Old Man's Thoughts about Many Things George Long, 1872

Statues in Roman Society Peter Stewart, 2004-02-06 Statues are among the most familiar remnants of classical art. Yet their prominence in ancient society is often ignored. In the Roman world statues were ubiquitous. Whether they were displayed as public honours or memorials, collected as works of art, dedicated to deities, venerated as gods, or violated as symbols of a defeated political regime, they were recognized individually and collectively as objects of enormous significance. By analysing ancient texts and images, *Statues in Roman Society* unravels the web of associations which surrounded Roman statues. Addressing all categories of statuary together for the first time, it illuminates them in ancient terms, explaining expectations of what statues were or ought to be and describing the Romans' uneasy relationship with 'the other population' in their midst.

Articulate Flesh Gregory Woods, 1987-01-01 Discusses the themes of the male body, war, and homosexual love in poetry, and analyzes the poetry of D.H. Lawrence, Hart Crane, W.H. Auden, Allen Ginsberg, and Thom Gunn.

The Naassenes M. David Litwa, 2023-10-20 This volume offers an accessible investigation of the Naassene discourse embedded in the anonymous *Refutation of All Heresies* (completed about 222 CE), in order to understand the theology and ritual life of the Naassene Christian movement in the late second and early third centuries CE. The work provides basic data on the date, genre, and provenance of the Naassene discourse as summarized by the author of the *Refutation* (or *Refutator*). It also offers an analysis of the *Refutator's* sources and working methods, an analysis which allows for a full reconstruction of the original Naassene discourse. The book then turns to major aspects of Naassene Christianity: its intense engagement with Hellenic myth and "mysteries," its biblical sources, its cosmopolitan hermeneutics, its snake symbology, as well as its distinctive approach to baptism, hymns, and celibacy. A concluding chapter outlines all we can securely reconstruct about

the Naassene Christian movement in terms of its social identity and place in the larger field of early Christianity and ancient Mediterranean religions more broadly. *The Naassenes: Exploring an Early Christian Identity* is suitable for students, scholars, and general readers interested in Early Christianity, Gnostic and Nag Hammadi Studies, Classics, and Ancient Philosophy, as well as hermeneutical issues like allegory and intertextuality.

The History of Western Sculpture Peter Osier,2015-07-15 This detailed overview traces the story of western sculpture from its beginnings to the present day, passing through the Aegean, classical Greek, Roman, Byzantine, Medieval, Renaissance, Baroque, Neoclassical, Romantic, and Modern periods along the way. The text explains how Western sculpture evolved over time as it adapted to changing cultural contexts. All the while, the book also highlights influential sculptors and key works. Rich in detail, highly informative and wide-ranging, and lavishly illustrated with photographs of the leading examples of sculpture from each period, this volume deserves an honored place in every school and library.

Godonism Theo Von Cezar,2010-10-12 The story starts with friends Ahma and Jovian who, like most humans, have fallen on terrible luck. There's nothing special about these two or humanity in general. The dystopian, grey world the men live in is held tightly in the grip of overpopulation. People are subsisting and not much more. The friends have nothing to look forward to until they happen to find the Church of All Nonbelievers. What's the guiding principle of this somewhat sacrilegious institution? As the book states, "GOD IS NOT INDEBTED TO THE UNIVERSE AND TIME—WE ARE INDEBTED TO OUR GOD." Enter a paranormal being who offers Ahma and Jovian the chance to rise above their meager existence. The offer comes with a warning. Should the two mess up the opportunity, they'll bring their own ruination. The story leads the friends down a winding path that is one half *The Matrix* and another half Heresy. In the end, the men find out their ties run deeper than ever thought, the government's guiding hand in their lives more invasive, and the lines between religion and science so completely blurred that both begin to look like futuristic psychology.

Constructing Identities in Late Antiquity Richard Miles,2002-03-11 The essays in *Constructing Identities in Late Antiquity* concern themselves with the theme of identity, an increasingly popular topic in Classical studies. Through detailed discussions of particular Roman texts and images, the contributors show not only how these texts were used to create and organise particular visions of late antique society and culture, but also how constructions of identity and culture contributed to the fashioning of 'late antiquity' into a distinct historical period.

Modern Classic Short Novels Of Science Fiction Gardner Dozois,2014-10-28 The novella is, in the words of Gardner Dozois, a perfect length for a science fiction story: long enough to enable you to flesh out the details of a strange alien world or a bizarre future society...and yet, still short enough for the story to pack a real punch. The thirteen masterpieces assembled in *Modern Classic Short Novels of Science Fiction* travel to the farthest reaches of the imagination, through realms of immortality, along alternate paths of time and across vast galaxies to explore the best of all imaginable worlds.

The Classical Origins of Modern Homophobia Robert H. Allen,2014-12-09 From government to literature to architecture, few fields in western culture are untouched by the influence of Ancient Greece and Rome. Even mores that may seem exclusively modern often have roots in the classical past. This book takes an in-depth look at the ancient roots of homophobia, including its Pythagorean origins and its eventual spread throughout the Roman Empire and, consequently, the rest of the world. Originally, male homosexuality occupied something of an honorable position in ancient Greece. By the end of the Roman period several centuries later, this attitude had changed so radically that to be found guilty of homosexual actions was punishable by death. This work investigates how such a shift occurred and traces the various cultural forces that brought about almost universal homophobia throughout western societies. Beginning with the earliest documented instance

of homophobia in the teachings of Pythagoras (who was surrounded by mystery even in ancient times), the author examines its proliferation through various disciplines, citing sources from political history, anthropology, religion, and psychology as well as the analysis of ancient texts. Through extensive historical research, he follows the concept from Greece to Macedonia and finally to Rome, examining relevant religious attitudes including those of Christianity and Judaism. Finally, he discusses the ways in which homophobia was solidified in the legal legacy of the Roman Empire. An extensive bibliography provides additional resources regarding classical influence on modern culture.
