Who Is to Blame Alhaji Mohamed Abu Sesay,2016-09-15 Who Is to Blame By Alhaji Mohamed Abu Sesay In his quiet moments, Author Alhaji Mohamed Abu Sesay reads a lot of novels. He reads religious books to enlighten himself to God's word. Outside of reading, he jokes a lot with his children and meets friends on weekends. He is married with six children. Despite his ability to work in the civil service, his passion has always been teaching.

Who Is to Blame? Alexander Herzen,1984 Herzen's novel played a significant part in the intellectual ferment of the 1840s. It is an important book in social and moral terms, and wonderfully expressive of Herzen's personality.--Isaiah Berlin Alexander Herzen was one of the major figures in Russian intellectual life in the nineteenth century. *Who Is to Blame?* was his first novel. A revealing document and a noteworthy contribution to Russian literature in its own right, it establishes the origins of Herzen's spiritual quest and the outlines of his emerging social and political beliefs, and it foreshadows his mature philosophical views.

Who Is to Blame? Jane Marlow,2016-10-18 Jane Marlow's debut novel is a beautifully written twenty-five-year saga of two families—one born of noble heritage and the other bound as serfs to the noble's household. Set during the mid-1800s in the vast grainfields of Russia, *Who Is to Blame?* follows the lives of two star-crossed serfs, Elizaveta and Feodor, torn apart by their own families and the Church while simultaneously trapped in the inhumane life of poverty to which they were born. At the other end of the spectrum, Count Maximov and his family struggle to maintain harmony amidst a tapestry of deception and debauchery woven by the Count's son. The plot twists further when the Tsar emancipates twenty million serfs from bondage while the rural gentry's life of privilege and carelessness has taken its final bow and much of Russia's nobility faces possible financial ruin. Aficionados of historical fiction will be captivated by the lyrical flow of Marlow's intertwining stories of love, loss, courage, and pain against her backdrop of social upheaval. The novel's riddles flow subtly throughout, spurring readers to ponder where the blame actually lies. In the end, we must tap into our own hearts to navigate the depths and quandaries of the author's perplexing question.

The Gods are Not to Blame Ola Rotimi,2015

Blame Michelle Huneven,2009-09-01 Michelle Huneven, Richard Russo once wrote, is a writer of extraordinary and thrilling talent. That talent explodes with her third book, *Blame*, a spellbinding novel of guilt and love, family and shame,

sobriety and the lack of it, and the moral ambiguities that ensnare us all. The story: Patsy MacLemoore, a history professor in her late twenties with a brand-new Ph.D. from Berkeley and a wild streak, wakes up in jail—yet again—after another epic alcoholic blackout. Okay, what'd I do? she asks her lawyer and jailers. I really don't remember. She adds, jokingly: Did I kill someone? In fact, two Jehovah's Witnesses, a mother and daughter, are dead, run over in Patsy's driveway. Patsy, who was driving with a revoked license, will spend the rest of her life—in prison, getting sober, finding a new community (and a husband) in AA—trying to atone for this unpardonable act. Then, decades later, another unimaginable piece of information turns up. For the reader, it is an electrifying moment, a joyous, fall-off-the-couch-with-surprise moment. For Patsy, it is more complicated. Blame must be reapportioned, her life reassessed. What does it mean that her life has been based on wrong assumptions? What can she cleave to? What must be relinquished? When Huneven's first novel, *Round Rock*, was published, Valerie Miner, in the *Los Angeles Times Book Review*, celebrated Huneven's moral nerve, sharp wit and uncommon generosity. The same spirit electrifies *Blame*. The novel crackles with life—and, like life, can leave you breathless.

In Praise of Blame George Sher, 2006 *Blame* is an unpopular & neglected notion that goes against the grain of a therapeutically-orientated culture & has received relatively little philosophical attention. George Sher discusses questions about the nature, normative status & the relation to character of blame, arguing that it is inseparable from morality itself.

The Financial Crisis Howard Davies, 2014-02-25 There is still no consensus on who or what caused the financial crisis which engulfed the world, beginning in the summer of 2007. A huge number of suspects have been identified, from greedy investment bankers, through feckless borrowers, dilatory regulators and myopic central bankers to violent video games and high levels of testosterone among the denizens of trading floors. There is not even agreement on whether the crisis shows a need for more government intervention in markets, or less: some maintain that government encouragement of home ownership lay at the heart of the problem in the US, in particular. In *The Financial Crisis* Howard Davies charts a course through these arguments, and the evidence advanced for each of them. The reader can thereby assess the weight to be attached to each, and the likely effectiveness of the remedies under development.

Who Is to Blame for Judges 19? Grace Kwan Sik Tsoi, 2022-06-29 The horrific text of Judges 19 is puzzling, especially to Chinese Christians who read the Chinese Union Version. This dominant translation of the Bible seems to place the blame for the tragedy on the concubine, which in turn legitimizes violence against women. Using tools of narrative, intertextual, and ideological criticism, Tsoi reveals an anti-Levite rhetoric in the text that has been neglected by translators. An examination of the translation context suggests that an anti-concubinage agenda in the social context of Republican China might have contributed to the bias in the translation, resulting in more than a century of misinterpretation among Chinese Christians.

The Limits of Blame Erin I. Kelly, 2018-11-12 Faith in the power and righteousness of retribution has taken over the

American criminal justice system. Approaching punishment and responsibility from a philosophical perspective, Erin Kelly challenges the moralism behind harsh treatment of criminal offenders and calls into question our society's commitment to mass incarceration. *The Limits of Blame* takes issue with a criminal justice system that aligns legal criteria of guilt with moral criteria of blameworthiness. Many incarcerated people do not meet the criteria of blameworthiness, even when they are guilty of crimes. Kelly underscores the problems of exaggerating what criminal guilt indicates, particularly when it is tied to the illusion that we know how long and in what ways criminals should suffer. Our practice of assigning blame has gone beyond a pragmatic need for protection and a moral need to repudiate harmful acts publicly. It represents a desire for retribution that normalizes excessive punishment. Appreciating the limits of moral blame critically undermines a commonplace rationale for long and brutal punishment practices. Kelly proposes that we abandon our culture of blame and aim at reducing serious crime rather than imposing retribution. Were we to refocus our perspective to fit the relevant moral circumstances and legal criteria, we could endorse a humane, appropriately limited, and more productive approach to criminal justice.

Workplace Bullying Charlotte Rayner, Helge Hoel, Cary Cooper, 2003-08-29 Workplace bullying is an area that has attracted significant press attention throughout the last decade. Sufism and the Way of Blame Yannis Toussulis, 2012-12-19 Gold Winner of the 2012 Benjamin Franklin Award and the 2012 Independent Publisher Book Award! This is a definitive book on the Sufi "way of blame" that addresses the cultural life of Sufism in its entirety. Originating in ninth-century Persia, the "way of blame" (Arab. *malamatiyya*) is a little-known tradition within larger Sufism that focused on the psychology of egoism and engaged in self-critique. Later, the term referred to those Sufis who shunned Islamic literalism and formalism, thus being worthy of "blame." Yannis Toussulis may be the first to explore the relation between this controversial movement and the larger tradition of Sufism, as well as between Sufism and Islam generally, throughout history to the present. Both a Western professor of the psychology of religion and a Sufi practitioner, Toussulis has studied *malamatiyya* for over a decade. Explaining Sufism as a lifelong practice to become a "perfect mirror in which God contemplates Himself," he draws on and critiques contemporary interpretations by G. I. Gurdjieff, J. G. Bennett, and Idries Shah, as well as on Frithjof Schuon, Martin Lings, and Seyyed Hossein Nasr. He also contributes personal research conducted with one of the last living representatives of the way of blame in Turkey today, Mehmet Selim Ozic.

'I Know Who Caused COVID-19' Zhou Xun, Sander L. Gilman, 2021-09-14 Fear has consequences, for individuals and for communities. And in times of stress, such as during epidemics, prejudices and primeval fear, always beneath the surface, can resurge to haunt us. In this book Zhou Xun and Sander L. Gilman examine how four groups have been blamed for causing or spreading the COVID-19 virus: the residents of Wuhan and Black African communities in China; Ultra-Orthodox Jewish communities in the USA, Britain and Israel; African Americans and the UK's BAME communities; and White right-wing groups in America and Europe. 'I Know Who Caused COVID-19' explores stereotyping and the false attribution of blame, as well as what happens when a collective is actually at fault, and how the community deals with these conflicting issues.--

Who is to Blame? Robert White FRS, 2014-06-18 How can an omnipotent God of love allow disasters? Bob White, a leading geophysicist, tackles one of the biggest conundrums in Christian thinking. He combines a profound knowledge of the science behind dramatic natural events with thorough research into their impact, and underpins it with a carefully reasoned theological response. Examining each type in turn, he illuminates the way in which human factors turn natural processes, without which the earth would be sterile and uninhabitable, into disasters: how population growth, widespread inequality, foolish farming and building practices, and climate change all contribute, exacerbating heat waves, famines, and droughts.
