Fundamentals of Soil Behavior James K. Mitchell,1993 Explains the factors which determine and control the engineering properties of soils--particularly volume change, deformation, strength and permeability. New to this edition: expanded coverage of residual and tropical soils, environmental aspects of soil behavior, material on partly saturated soils, revised treatment of direct or coupled hydraulic, chemical, thermal and electrical flows through soil.

The Basin of Mexico Exequiel Ezcurra,1999 The book examines some of these questions in a historic perspective, arguing that the depletion of natural resources in the Basin of Mexico is not just a recent phenomenon.--BOOK JACKET.

Evangelium Iohannis Aethiopicum Michael G. Wechsler,2005 In this volume is presented, for the first time, a critical edition of the earliest retrievable text (i.e., the Versio Antiqua) of the Gospel of John in Classical Ethiopic (Ge'ez). Altogether 21 manuscripts have been collated, representing four different text types and, for the first two of these, three and four sub-types respectively. The Versio Antiqua is represented by the first text type, of which, for the most part, the important Mss Abba Garima I and III, dated to 1270 or earlier, have been employed for the basic text. Five appendices are also included, in the last of which is supplied a collation of the Versio Antiqua with the critical apparatus of the 27th edition of Novum Testamentum Graece. This volume, consequently, should prove useful to anyone interested in textual criticism of the New Testament, the textual history of the Ethiopic Gospel of John, or Ge'ez literature generally.

Soil and Sediment Remediation Piet Lens,T. Grotenhuis,G. Malina,H. Tabak,2005-09-30 Soil and Sediment Remediation

discusses in detail a whole set of remediative technologies currently available to minimise their impact. Technologies for the treatment of soils and sediments in-situ (landfarming, bioscreens, bioventing, nutrient injection, phytoremediation) and ex-situ (landfarming, bio-heap treatment, soil suspension reactor) will be discussed. The microbiological, process technological and socio-economical aspects of these technologies will be addressed. Special attention will be given to novel biotechnological processes that utilise sulfur cycle conversions, e.g. sulfur and heavy metal removal from soils. Also the potential of phytoremediation will be highlighted. In addition, treatment schemes for the clean-up of polluted megasites, e.g. harbours and Manufactured Gaswork Plants (MGP), will be elaborated. The aim of Soil and Sediment Remediation is to introduce the reader in: the biogeochemical characteristics of soil and sediments- new techniques to study soil/sediment processes (molecular probes, microelectrodes, NMR) clean up technologies for soils polluted with organic (PAH, NAPL, solvents) or inorganic (heavy metals) pollutants- preventative and remediative strategies and technologies available in environmental engineering novel process applications and bioreactor designs for bioremediation the impact of soil pollution on society and its economic importance.

The Mathematics of the Ideal Villa and Other Essays Colin Rowe,1982-09-14 This collection of an important architectural theorist's essays considers and compares designs by Palladio and Le Corbusier, discusses mannerism and modern architecture, architectural vocabulary in the 19th century, the architecture of Chicago, neoclassicism and modern architecture, and the architecture of utopia.

Catalysis and Electrocatalysis at Nanoparticle Surfaces Andrzej Wieckowski,Elena R. Savinova,Constantinos G. Vayenas,2003-02-19 Illustrating developments in electrochemical nanotechnology, heterogeneous catalysis, surface science and theoretical modelling, this reference describes the manipulation, characterization, control, and application of nanoparticles for enhanced catalytic activity and selectivity. It also offers experimental and synthetic strategies in nanoscale surface science. This standard-setting work clarifies several practical methods used to control the size, shape, crystal structure, and composition of nanoparticles; simulate metal-support interactions; predict nanoparticle behavior; enhance catalytic rates in gas phases; and examine catalytic functions on wet and dry surfaces.

Register, Genre, and Style Douglas Biber,Susan Conrad,2009-10-29 This book describes the most important kinds of texts in English and introduces the methodological techniques used to analyse them. Three analytical approaches are introduced and compared, describing a wide range of texts from the perspectives of register, genre and style. The primary focus of the book is on the analysis of registers. Part 1 introduces an analytical framework for studying registers, genre conventions, and styles. Part 2 provides detailed descriptions of particular text varieties in English, including spoken interpersonal varieties

(conversation, university office hours, service encounters), written varieties (newspapers, academic prose, fiction), and emerging electronic varieties (e-mail, internet forums, text messages). Finally, Part 3 introduces advanced analytical approaches using corpora, and discusses theoretical concerns, such as the place of register studies in linguistics, and practical applications of register analysis. Each chapter ends with three types of activities: reflection and review activities, analysis activities, and larger project ideas.

James Frazer Stirling Anthony Vidler, James Frazer Stirling, 2010 The British architect James Frazer Stirling (1924–1992) stimulated impassioned responses among both supporters and detractors, and he continues to be the subject of fierce debate. He earned international renown through such innovative—and frequently controversial—projects as the Leicester University Engineering Building (1959–63); the History Faculty building at Cambridge University (1964–67); the Neue Staatsgalerie, Stuttgart (1977–84); the Clore Gallery at Tate Britain (1984); and the Arthur M. Sackler Museum at Harvard University (1979–84). Stirling was also a visiting professor at the Yale School of Architecture, where he trained and influenced many of the current leaders in the field. Fully illustrated with previously unpublished documents and new photography from the James Stirling/Michael Wilford Archive at the Canadian Centre for Architecture, Montreal, this book allows for a close examination of design drawings, photographs, and models spanning Stirling’s entire career. These materials deepen our understanding of the influences, early formation, approach, and process of an architect whose work resists labeling. Filled with in-depth analytical and critical presentations of exemplary projects and their reception, the volume reveals Stirling to be a remarkably informed and consistent thinker and writer on architecture.

La estructura de la estructura Alberto Campo Baeza, 2021-06-01 Una vez más la botadura de un barco lleno de ideas, de ideas expresadas a través de las palabras de los textos que conforman un libro. Un libro lleno de ideas transmitidas a través de los escritos claros de un conjunto de profesores y de arquitectos invitados a las clases de la Escuela TS de Arquitectura de Madrid. Todos ellos, los profesores que colaboran con el autor y los invitados, son extraordinariamente valiosos. Y todos ellos han elaborado unos textos certeros. Se ha querido respetar en el caso de los extranjeros la lengua original, para dar fe de universalidad. La estructura no sólo soporta, no sólo aguanta, sino que resuena, suena como un instrumento musical cuando es acordado por el aire. Y así será falsa la libertad del arquitecto que, olvidado de la estructura, concite sólo formas a las que, una vez definidas, añadiera o mandara añadir una estructura capaz de soportarlas. Y así, cuando se genera la Idea cuya necesaria materialización nos dará la Arquitectura, la estructura portante, el cómo aquello va a sostenerse, debe estar claro desde el primer momento. Este conjunto de textos tomó forma de publicación, con la seguridad de que este barco lleno de ideas, llegará a muy buen puerto.

Gender, War, and Militarism Laura Sjoberg,2010-08-03 How are war and militarism gendered? Feminist scholars have long contended that war and militarism are fundamentally gendered. This book provides empirical evidence, theoretical innovation, and interdisciplinary conversation on the topic, while considering the links between gender, war, and militarism.
