Species with Amnesia Robert Sepehr,2015-05-28 Highly advanced civilizations have been here before us, just to be destroyed by some great global catastrophe. But for each race that has died out, another has taken its place, with a selected few holding on to the memories and sacred knowledge of the past race. In our vanity we think we have discovered some of the great truths of science and technology, but we are in fact only just beginning to rediscover the profound wisdom of past civilizations. In many ways, we are like an awakening Species with Amnesia, yearning to reclaim our forgotten past.

Gods with Amnesia Robert Sepehr,2016-03-28 The idea that our planet consists of a hollow, or honeycombed, interior is not new. Some of the oldest cultures speak of civilizations inside of vast cavern-cities, within the bowels of the earth. According to certain Buddhist and Hindu traditions, secret tunnels connect Tibet with a subterranean paradise, and they call this legendary underworld Agartha. In India, this underground oasis is best known by its Sanskrit name, Shambhala, thought to mean 'place of tranquility.' Mythologies throughout the world, from South America to the Arctic, describe numerous entrances to these fabled inner kingdoms. Many occult organizations, esoteric authors, and secret societies concur with these myths and legends of subterranean inhabitants, who are the remnants of antediluvian civilizations, which sought refuge in hollow caverns inside the earth. Assuming that the myths are true, and the Earth is partially hollow, how could life survive underground? How would organisms receive the ventilation required to breathe miles below the surface? What would provide the light needed to see, or to cause the photosynthesis necessary for the plant life that allegedly exists in these inner worlds? Are there any known sources of sustenance available that could provide for a large human population? What evidence is there that a sustainable biosphere could exist miles below the surface, totally isolated from the nourishment and the established life cycle provided by the sun? Where are the entrances to inner earth, and which races live there? Author and anthropologist, Robert Sepehr, explores these questions and attempts to unlock their riddles, which have eluded any serious consideration in mainstream academia. Numerous endeavours have been undertaken to access the interior of the earth. Polar expeditions and battles, such as Operation Highjump, still remain largely classified, and have been shrouded in secrecy for decades, but scientific revelations validating the rumors surrounding these covert events, and their implications, are finally

being exposed to daylight. What are the mysteries of inner Earth?

1666 Redemption Through Sin Robert Sepehr,2015-05-13 In 1666, a man by the name of Sabbatai Zevi declared himself to be the Messiah. Followers of his heretical cult believed that sin is holy and should be practised for its own sake. Sabbateans and their successors, the Frankists, have indulged in religious orgies, ritual sacrifice, incest, adultery and homosexuality for 350 years. Using secret societies such as the Masons, this diabolical sect has infiltrated into the highest echelons of political power. They covertly rule as the unelected hidden hand shaping history behind a veil of conspiracy.

Educating Air Forces Randall Wakelam,David Varey,2020-12-01 Compared to armies and navies, which have existed as professional fighting services for centuries, the technology that makes air forces possible is much newer. As a result, these services have had to quickly develop methods of preparing aviators to operate in conditions ranging from peace or routine security to full-scale war. The first book to address the history and scope of air power professionalization through learning programs, *Educating Air Forces* offers valuable new insight into strategy and tactics worldwide. Here, a group of international experts examine the philosophies, policies, and practices of air service educational efforts in the United States, France, Italy, Germany, Australia, Canada, and the UK. The contributors discuss the founding, successes, and failures of European air force learning programs between the Great War and World War II and explore how the tense Cold War political climate influenced the creation, curriculum, and results of various programs. They also consider how educational programs are adapting to soldiers' needs and the demands of modern warfare. Featuring contributions from eminent scholars in the field, this volume surveys the learning approaches globally employed by air forces in the past century and evaluates their effectiveness. *Educating Air Forces* reveals how experiential learning and formal education are not only inextricably intertwined, but also necessary to cope with advances in modern warfare.

Sovereignty and Command in Canada-US Continental Air Defence, 1940-57 Richard Goette,2018-07-01 The 1940 Ogdensburg Agreement entrenched a formal defence relationship between Canada and the United States. But was Canadian sovereignty upheld? Drawing on untapped archival material, *Sovereignty and Command in Canada-US Continental Air Defence, 1940-57* documents the close and sometimes fractious relationship between the two countries. Richard Goette challenges prevailing perceptions that Canada's defence relationship with the United States eroded Canadian sovereignty. He argues instead that a functional military transition from an air defence system based on cooperation to one based on integrated and centralized command and control under NORAD allowed Canada to retain command of its forces and thus protect Canadian sovereignty. Goette combines historical narrative with conceptual analysis of sovereignty, command and control systems, military professionalism, and civil-military relations. In the process, he provides essential insights into the Royal Canadian Air Force's paradigm shift away from its Royal Air Force roots toward closer ties with the United States Air Force and the role of the nation's armed forces in safeguarding its sovereignty.

Perv Jesse Bering,2014-02-13 In this eye-opening book, psychologist Jesse Bering argues that we are all sexual deviants on one level or another. He introduces us to the young woman who falls madly in love with the Eiffel Tower, a young man addicted to seductive sneezes, and a pair of deeply affectionate identical twins, among others. He challenges us to move beyond our attitudes towards 'deviant' sex and consider the alternative: what would happen if we rise above our fears and revulsions and accept our true natures? With his signature wit and irreverent style, Bering pulls back the curtains on the history of perversions, the biological reasons behind our distaste for unusual sexual proclivities and the latest research on desire. Armed with reason, science and an insatiable appetite for knowledge, he humanises deviants while asking some provocative questions about the nature of hypocrisy, prejudice and when sexual desire can lead to harm. A groundbreaking look at our complex relationship with our carnal urges and the ways in which we disguise, deny and shame the sexual deviant in all of us, Perv brings hidden desires into the spotlight.

The Marsh King's Daughter Karen Dionne,2017-06-13 THE INTERNATIONAL BESTSELLER—NOW A MAJOR MOTION PICTURE! “Brilliant....About as good as a thriller can be.”—The New York Times Book Review *The Marsh King's Daughter* is the mesmerizing tale of a woman who must risk everything to hunt down the dangerous man who shaped her past and threatens to steal her future: her own father. Helena Pelletier has a loving husband, two beautiful daughters, and a business

that fills her days. But she also has a secret: she is the product of an abduction. Her mother was kidnapped as a teenager by her father and kept in a remote cabin in the marshlands of Michigan's Upper Peninsula. Helena, born two years after the abduction, loved her home in nature, and despite her father's sometimes brutal behavior, she loved him, too...until she learned precisely how savage he could be. More than twenty years later, she has buried her past so soundly that even her husband doesn't know the truth. But now her father has killed two guards, escaped from prison, and disappeared into the marsh. The police begin a manhunt, but Helena knows they don't stand a chance. Knows that only one person has the skills to find the survivalist the world calls the Marsh King—because only one person was ever trained by him: his daughter. "[A] nail-biter perfect for Room fans."—Cosmopolitan "Sensationally good psychological suspense."—Lee Child A Michigan Notable Book!

Bronze Age Mindset Bronze Pervert, 2018-06-06 The Atlantic named this author as possibly Steve Bannon's contact in the White House (Rosie Gray, The Atlantic Feb 10 2017: 'Think you should speak directly to my WH cutout / cell leader,' Yarvin said in an email. 'I've never met him and don't know his identity, we just DM on Twitter. He's said to be 'very close' to Bannon...Goal is to intimidate Congress with pure masculine show of youth, energy. Trump is said to know, will coordinate with powerful EOs...); and a recent Vox article (Tara Isabella Burton, Vox June 1 2018) claimed that he is the text to Jordan Peterson's subtext, and a distilled form of Peterson. Distilled means purer: yes, so why not read and understand the purer version? T. I. Burton also adds in this article that this author BAP is a kind of priest-king to thousands on Twitter and outside and is possibly leading a spiritual reawakening. Some say that this book, found in a safebox in the port area of Kowloon, was dictated, because Bronze Age Pervert refuses to learn what he calls the low and plebeian art of writing. It isn't known how this book was transcribed. The contents are pure dynamite. He explains that you live in ant farm. That you are observed by the lords of lies, ritually probed. Ancient man had something you have lost: confidence in his instincts and strength, knowledge in his blood. BAP shows how the Bronze Age mindset can set you free from this Iron Prison and help you embark on the path of power. He talks about life, biology, hormones. He gives many examples from history, both ancient and modern. He shows the secrets of the detrimental robots, how they hide and fabricate. He helps you escape gynocracy and ascend to fresh mountain air. The pricing, he insisted on against all advice. It refers to the lucky 969 Movement of Burma, led by the noble monk Wirathu. Praise be to the Pervert. Praise be to his teaching of peace. Be careful.
