American Republic to 1877, Interpreting Political Cartoons McGraw-Hill Staff, 2002-06 Contains 36 reproducible activity pages, each including one political cartoon, short summary of the issue being addressed, and questions for analysis and critical thinking.

Representing Congress Clifford K. Berryman, James Zimmerhoff, 2017-08-30 INTRODUCTION Representing Congress presents a selection of political cartoons by Clifford K. Berryman to engage students in a discussion of what Congress is, how it works, and what it does. It features the masterful work of one of America's preeminent political cartoonists and showcases his ability to use portraits, representative symbols and figures, and iconic personifications to convey thought-provoking insights into the institutions and issues of civic life. The House of Representatives and Senate take center stage as national elected officials work to realize the ideals of the Founders. This eBook is designed to teach students to analyze history as conveyed in visual media. The cartoons offer comments about various moments in history, and they challenge the reader to evaluate their perspective and objectivity. Viewed outside their original journalistic context, the cartoons engage and amuse as comic art, but they can also puzzle a reader with references to little-remembered events and people. This eBook provides contextual information on each cartoon to help dispel the historical mysteries. Berryman's cartoons were originally published as illustrations for the front page of the *Washington Post* and the *Washington Evening Star* at various dates spanning the years from 1896 to 1949. Thirty-nine cartoons selected from the more than 2,400 original Berryman drawings preserved at the Center for Legislative Archives convey thumbnail sketches of Congress in action to reveal some of the enduring features of our national representative government. For more than 50 years, Berryman's cartoons engaged readers of Washington's newspapers, illustrating everyday political events as they related to larger issues of civic life. These cartoons promise to engage students in similar ways today. The cartoons intrigue and inform, puzzle and inspire. Like Congress itself, Berryman's cartoons seem familiar at first glance. Closer study reveals nuances and design features that invite in-depth analysis and discussion. Using these cartoons, students engage in fun and substantive challenges to unlock each cartoon's meaning and better understand Congress. As they do so, students will develop the critical thinking skills so important to academic success and the future health and longevity of our democratic republic. 2 | R E P R E S E N T I N G C O N G R E S SHOW THIS eBook IS ORGANIZED This eBook presents 39 cartoons by Clifford K. Berryman, organized in six chapters that illustrate how

Congress works. Each page features one cartoon accompanied by links to additional information and questions. TEACHING WITH THIS eBOOK Representing Congress is designed to teach students about Congress—its history, procedures, and constitutional roles—through the analysis of political cartoons. Students will study these cartoons in three steps: * Analyze each cartoon using the NARA Cartoon Analysis Worksheet * Analyze several cartoons to discuss how art illustrates civic life using Worksheet 2 * Analyze each cartoon in its historic context using Worksheet 3 (optional) Directions: 1. Divide the class into small groups, and assign each group to study one or more cartoons in the chapter Congress and the Constitution. 2. Instruct each group to complete Worksheet 1: Analyzing Cartoons. Direct each group to share their analysis with the whole-class. 3. Instruct each group to complete Worksheet 2: Discussing Cartoons. Students should apply the questions to all of the cartoons in the chapter. Direct each group to share their analysis in a whole class discussion of the chapter. 4. Repeat the above steps with each succeeding chapter. 5. Direct each group to share what they have learned in the preceding activities in a whole-class discussion of Congress and the Constitution. 6. Optional Activity: Assign each group to read the Historical Context Information statement for their cartoon. The students should then use the Historical Context

The Death of Truth Michiko Kakutani,2018-07-17 NEW YORK TIMES BESTSELLER • From the Pulitzer Prize-winning critic comes an impassioned critique of America's retreat from reason We live in a time when the very idea of objective truth is mocked and discounted by the occupants of the White House. Discredited conspiracy theories and ideologies have resurfaced, proven science is once more up for debate, and Russian propaganda floods our screens. The wisdom of the crowd has usurped research and expertise, and we are each left clinging to the beliefs that best confirm our biases. How did truth become an endangered species in contemporary America? This decline began decades ago, and in *The Death of Truth*, former New York Times critic Michiko Kakutani takes a penetrating look at the cultural forces that contributed to this gathering storm. In social media and literature, television, academia, and politics, Kakutani identifies the trends—originating on both the right and the left—that have combined to elevate subjectivity over factuality, science, and common values. And she returns us to the words of the great critics of authoritarianism, writers like George Orwell and Hannah Arendt, whose work is newly and eerily relevant. With remarkable erudition and insight, Kakutani offers a provocative diagnosis of our current condition and points toward a new path for our truth-challenged times.

Citizenship and Political Education Today J. Demaine,2004-11-10 *Citizenship and Political Education Today* brings together a collection of essays from around the world; including discussion of politics and education in Australia, The United States of America, New Zealand, Norway, England, France, Germany and the wider European Union. The contributors discuss vital and interesting issues involved in the engagement of citizens in politics and political institutions and the role of education in encouraging education for citizenship. The book is an important contribution to ongoing debates on citizenship.

The Relevance of Political Science Gerry Stoker,B. Guy Peters,Jon Pierre,2015-03-26 What does political science tell us about important real-world problems and issues? And to what extent does and can political analysis contribute to solutions? Debates about the funding, impact and relevance of political science in contemporary democracies have made this a vital and hotly contested topic of discussion, and in this original text authors from around the world respond to the challenge. A robust defence is offered of the achievements of political science research, but the book is not overly sanguine given its sustained recognition of the need for improvement in the way that political science is done. New insights are provided into the general issues raised by relevance, into blockages to relevance, and into the contributions that the different subfields of political

science can and do make. The book concludes with a new manifesto for relevance that seeks to combine a commitment to rigour with a commitment to engagement.

Follow-ups in Political Discourse Elda Weizman, Anita Fetzer, 2015-08-15 This book explores the various forms and functions of follow-ups in a range of political speech events. Follow-ups are conceptualized as communicative acts, in and through which a prior communicative act is accepted, challenged, or otherwise negotiated by ratified participants in the exchange or by third parties. The broad view suggested here accommodates a large variation in the functions of follow-ups, e.g. positioning, third-party involvement, evaluation and argumentation, ratification, support, challenge and attendance to face wants. These variations are explored in a range of cultural environments, such as the UK, The Netherlands, Israel and France. Inter-cultural exchanges are studied through the analysis of diplomatic discourse, interpreting and cross-cultural comparison.

EU Lobbying: Empirical and Theoretical Studies David Coen, 2013-10-31 EU Lobbying: Empirical and Theoretical studies offers an analysis of large empirical studies of interest group politics and Lobbying in Europe. Recognising the continued European economic integration, globalisation and the changing role of the state, it observes significant adaptations in interest mobilisation and strategic behaviour. This book assesses the logic of collective and direct action, the logic of access and influence, the logic of venue-shopping and alliance building. It addresses specific issues such as: the emergence of elite pluralism in EU institutions, the pump priming of political action by EU institutions, and the growing political sophistication

of private and public interests in Brussels. Through these issues the book explores how interest groups lobby different European institutions along the policy process and how the nature of policy dictates the style and level of lobbying. This book was previously published as a special issue of Journal of European Public Policy
