Life's Short-Eat Dessert First: Wake Up and Press On: A Memoir Robert L. Bladow, 2020-01-20 Life Is Short - Eat Dessert First By: Robert L. Bladow Life Is Short - Eat Dessert First is more than author Robert L. Bladow's story. From his family research, he learned that his grandfather had a story to tell but left it for him to discover. His life was full of challenges and perils that took every bit of determination for him to survive. How he survived is a lesson of determination and perseverance. His son, Robert's father, who persisted through the Great Depression and with his career, is the example he set that had exposed Robert to many practical life skills and the experience of acting in theatre, which later allowed him to be successful at what he chose to do. Robert's older brother, Terry, had a significant influence on him by sharing his wisdom and skills while they were growing up. Life is a challenge that can be met with determination and perseverance to gain a successful life, and if Robert's experience helps just one person deal with that, he would be satisfied. He hopes his readers enjoy the story and have a reflection that is meaningful to them.

Something New Under the Sun: Ancient Wisdom for Contemporary Living Ray Pritchard, What can we learn from looking at the world around us? According to King Solomon, quite a lot. Solomon was a man of faith who took his readers on a voyage

through some of the backwater regions of life that we all think about but rarely discuss in public. He wasn't afraid to ask the hard questions or to admit when there were no easy answers. In *Something New Under the Sun*, Pastor Ray Pritchard walks readers through Ecclesiastes, a book written by King Solomon from an earthly perspective. Solomon examines those things available to us in this life and invites us on a search for ultimate truth. Pastor Pritchard adds poignant and revealing stories to the words of this great king of old to bring this book crashing into our reality as we approach the 21st century. In short, bite-sized devotionals, Ray Pritchard brings us face to face with such topics as: the meaning of life, the reality of death, the instability of power, the futility of riches. For a generation desperately searching for reality - and not knowing where to find it - God wrote a book that sets our feet in the right direction. Join Ray Pritchard as he follows Solomon on his journey to truth through the book of Ecclesiastes.

Confident Moms, Confident Daughters Maria Furlough,2019-08-20 Every mother wants her daughter to love the skin she's in, to be free of insecurity and poor body image. But no matter how much we try to tell our daughters that they are beautiful and lovable as they are, words are not enough. And if we're honest, we don't always set the best example of being body confident. Until we truly see ourselves as good enough, our girls will struggle. With deep compassion, Maria Furlough delves into the root causes of our insecurity, offers biblical guidance for seeing ourselves as God sees us, and shows how to model our newfound confidence to our impressionable daughters. Speaking as a daughter, a youth leader, and a mother, Furlough shares her own struggles and triumphs, as well as expert advice from a pediatrician, a nutritionist, a Christian counselor, and more. What we say to our daughters might last a moment. What we show our daughters lasts a lifetime. With God's help, we can put aside our obsession with bodily perfection and refocus on becoming and raising godly women.

How We Are Being Tricked and Bamboozled Into Bad Health Marcia Banks-Alston,2001-05-31 "...people are destroyed for the lack of knowledge" (Hosea 4:6) Therefore, one of our best weapons is knowledge. We need to learn God's ways so we can combat the tricks and ploys that the master trickster (Satan) uses to ensnare. This book is to help us "renew our minds", break life-defeating habits, overcome generational curses, dispel useless myths and begin to 'feed' ourselves in a manner that is God honoring, health promoting and not Satan honoring and death producing. "Feeding" does not refer to just physical

food, but also the mental 'food' we take in that keeps us defeated, down-trodden, broke and unsuccessful in our secular and spiritual life. Most of us do not know that what we are doing to our bodies, minds and spirits are not life generating or God pleasing. We have been tricked and bamboozled. This book will reveal some of the best tricks played on us. Tricks that cause needless death, severe aches, emotional pains, marital affairs, academic failures, mental problems, social concerns, sleepless nights and drug addictions (legal and illegal). Not only will this book expose what the tricks are but will tell you how to avoid and conquer their ill effects.

Kitchenary Peggy H. Landis, 2013 In the autumn of her life, Landis harvests the stories of her seventy years. Here are stories of friendship and forgiveness, heritage and hospitality, generosity and gratitude, loss and love, and the people of a lifetime with whom she has broken bread. The memoir is a series of key words arranged alphabetically to construct a dictionary of her life. She coins the work Kitchenary to link the significance of food, its flavors and aromas, to memory. Because food evokes strong emotions, it recalls people and places to mind. When Landis tastes the smoky tartness of hot bacon dressing it conjures up a picture of her mother gathering the early spring shoots of dandelion along the farm fencerows to make a green salad. Food is the theme that binds the essays together. Realizing how our need and enjoyment of food remain constant, even though many aspects of family life change, she uses this medium as the connecting point across generations. Fifty-seven recipes are included, all from the kitchens of Landis, her family and friends.

Handbook of Eudaimonic Well-Being Joar Vittersø, 2016-10-18 This handbook presents the most comprehensive account of eudaimonic well-being to date. It brings together theoretical insights and empirical updates presented by leading scholars and young researchers. The handbook examines philosophical and historical approaches to the study of happy lives and good societies, and it critically looks at conceptual controversies related to eudaimonia and well-being. It identifies the elements of happiness in a variety of areas such as emotions, health, wisdom, self-determination, internal motivation, personal growth, genetics, work, leisure, heroism, and many more. It then places eudaimonic well-being in the larger context of society, addressing social elements. The most remarkable outcome of the book is arguably its large-scale relevance, reminding us that the more we know about the good way of living, the more we are in a position to build a society that can be supportive and offer opportunities for such a way of living for all of its citizens.
