**The Cold Between** Elizabeth Bonesteel, 2016-03-08 From debut author Elizabeth Bonesteel, *The Cold Between* is the start to a stellar military science fiction series that combines hints of mystery and romance with action and adventure in the tradition of Elizabeth Moon, Linnea Sinclair, and Lois McMaster Bujold. When her crewmate, Danny, is murdered on the colony of Volhynia, Central Corps chief engineer, Commander Elena Shaw, is shocked to learn the main suspect is her lover, Treiko Zajec. She knows Trey is innocent—he was with her when Danny was killed. So who is the real killer and why are the cops framing an innocent man? Retracing Danny's last hours, they discover that his death may be tied to a mystery from the past: the explosion of a Central Corps starship at a wormhole near Volhynia. For twenty-five years, the Central Gov has been lying about the tragedy, even willing to go to war with the outlaw PSI to protect their secrets. With the authorities closing in, Elena and Trey head to the wormhole, certain they'll find answers on the other side. But the truth that awaits them is far more terrifying than they ever imagined . . . a conspiracy deep within Central Gov that threatens all of human civilization throughout the inhabited reaches of the galaxy—and beyond.

**Chaos Reigning** Jessie Mihalik, 2020-05-19 Interplanetary intrigue and romance combine in this electrifying finale to the Consortium Rebellion series. As the youngest member of her High House, Catarina von Hasenberg is used to being underestimated, but her youth and flighty, bubbly personality mask a clever mind and stubborn determination. Her enemies, blind to her true strength, do not suspect that Cat is a spy—which makes her the perfect candidate to go undercover at a rival House's summer retreat to gather intelligence on their recent treachery. Cat's overprotective older sister reluctantly agrees, but on one condition: Cat cannot go alone. Alexander Sterling, a quiet, gorgeous bodyguard, will accompany her, posing as her lover. After Cat tries, and fails, to ditch Alex, she grudgingly agrees, confident in her ability to manage him. After all, she's never found a person she can't manipulate. But Alex proves more difficult—and more desirable—than Cat anticipated. When she's attacked and nearly killed, she and Alex are forced to work together to figure out how deep the treason goes. With rumors of widespread assaults on Serenity raging, communications down, and the rest of her family

trapped off-planet, Catarina must persuade Alex to return to Earth to expose the truth and finish this deadly battle once and for all. But Cat can't explain why she's the perfect person to infiltrate hostile territory without revealing secrets she'd rather keep buried. . . .

**Our Dark Stars** Audrey Grey, Krystal Wade, 2018-03-06 While she sleeps, the whole universe changes. Princess Talia Starchaser has it all. Wealth. Status. Adoring citizens. But on the eve of her eighteenth birthday, she's forced to publicly betray her best friend, a companion mock she's had since birth, setting events into motion that lead to the destruction of the humans, and the princess floating through space, a remnant of a time when humans ruled over droids. One hundred years later, half-mock captain Will Perrault and his ragtag crew discover a device floating in space. When a very human Talia emerges from its depths, Will suspects she's the key to buying his way back into the regiment he once commanded against the last remaining rebel humans--and the ruling mock queen's good graces. Both Talia and Will would rather get space-tossed than trust one another, but with the queen's forces chasing them across the galaxy and the fate of both worlds hanging in the balance, they'll forge the unlikeliest of alliances to survive.

Enslave Me Sweetly Gena Showalter, 2006-06-06 Eden Black is the next exciting character in the alien huntress series that started with the Naughty Girl of Summer, Mia Snow, in *Awaken Me Darkly*. Eden Black walks among humans, protecting them from the murderous evil of other-worlders who abduct and enslave. And though she appears to be human herself, Eden is an alien, a Raka, distinguished by her golden hair and skin, and gifted with the ominous ability to kill without remorse—and with total accuracy. That is, until the fateful night she has one shot to eliminate her target, a human slaver—and misses. Failure is not in Eden's vocabulary. Neither is partner, but that's what she is forcibly assigned after recovering from her disastrous mission. A sexy, steely-nerved human agent, Lucius Adaire enjoys nothing more than sparking the fury—and rousing the desire—of the fiery female assassin too proud to admit defeat. Locked in an assignment they cannot afford to lose, Lucius and Eden find themselves bound in two high-stakes, heart-pounding games: the sensual web of kill or be killed, and the erotic dance of seduction.

*Loving Hope* Ann Gimpel, 2017-02-27 Hope's had her eye on Charlie for a long time, for all the good it's done her. He's not even aware of her existence—other than as a fellow agent working Black Ops for the CIA. Her friends, Glory, Honor, and Charity, found men to love, so Hope knows it's possible. But the odds aren't in her favor. Not in a world of normal humans where she's a genetically modified aberration. Hell, even she refers to her kind as freaks. What man in his right mind would want one of those in his bed? Charlie swore off women after his last marriage went down in drama-tipped flames fifteen years ago. His first mistress is danger. He fell in love with the adrenaline rush when he signed on as a Navy Seal right out of college, and he never got over the thrill of pitting himself against the impossible. Hope caught his eye the night she escaped her compound, but years of ignoring anything resembling a feeling made it easy to ignore the attraction—until they're paired on a mission. Her intelligence and resourcefulness impress the hell out of him, but her half-naked body, exposed after an animal attack, forces him to face feelings he was certain he'd buried for good. *Romance* Dana Percec, 2012-03-15 *Romance: The History of a Genre* is a collection of essays devoted to the highly popular and no less controversial genre of romance. A genre often disregarded for its stereotypical language, shallow characters, and predictable plots, dismissed as “women’s” fiction, accused of conventionalism, romance is a genre which, after ups and downs in its millennial history, is now holding a leading position on the international bookselling market. This achievement has also been possible with the endorsement of contemporary media and modern technology, cinema, television, the Internet, etc. Much has been written in both traditional and more recent literary theory about the origins and evolution of the early forms of romance, from the classical Antiquity, through the Middle Ages, and into the Renaissance and early modernity in Western Europe. A corpus, which is becoming more and more substantial today, is already available about the gendered status of contemporary romance, both in terms of the writing ethos and in terms of reader response, with theories coming from the combined areas of feminism, social sciences, and psychoanalysis. The aim of the present volume is that of noting the fluid character of the genre, with the great number of subcategories, mixed and hybrid, bringing evidence to the polymorphous nature of contemporary popular culture. This book proposes, in four parts and twelve chapters, a fascinating and multifaceted journey into the history, substance and geography of romance. From its origins to the latest developments, from its subgenres to its features, from print to film, from television to Facebook, romance comes in various shapes and colours, which the reader can fully explore. The journey in the world of romance takes the reader from familiar corners to less familiar ones: from North America, Great Britain, Romania, or Turkey, to India or South Africa. The numerous approaches to romance generate diverse data, varied analytical frameworks and interesting, fresh and solidly grounded findings.

**Women, Violence and Postmillennial Romance Fiction** Emma Roche, 2023-04-21 This book interrogates the significance of the revival and reformulation of the romance genre in the postmillennial period. Emma Roche examines how six popular novels, published between 2005 and 2015 (*Twilight*, *Fifty Shades of Grey*, *Gone Girl*, *Sharp Objects* and *The Girl on the Train*), reanimate and modify recognisable tropes from the romance genre to reflect a neoliberal and postfeminist cultural climate. As such, Roche argues, these novels function as crucial spaces for interrogating and challenging those contemporary gender ideologies. Throughout the book, Roche addresses and critiques several key attributes of neoliberal postfeminism, including a pervasive emphasis on individualism and personal responsibility; an insistent requirement for self-monitoring, self-surveillance, and bodywork; the celebration of consumerism and its associated pleasures; the prescription of mandatory optimism and suppressing one’s ‘negative’ emotions; and the endorsement of choice as a primary marker of women’s empowerment. While much critical attention has been devoted to those attributes and their pernicious effects, Roche argues that one crucial repercussion has been largely overlooked in contemporary cultural criticism: how these

ideologies function together to effectively sanction gender-based violence. Thus, Roche exploits textual analysis to demonstrate the subtle ways in which neoliberal postfeminism can augment women's vulnerability to male violence.

Encyclopedia of Romance Fiction Kristin Ramsdell, 2018-09-07 As the first encyclopedia solely devoted to the popular romance fiction genre, this resource provides a wealth of information on all aspects of the subject. Romance fiction accounts for a large share of book sales each year, and contrary to popular belief, not all of its readers are women: roughly 16 percent are men. This enormously popular genre continues to captivate people reading for pleasure, and it also commands a growing amount of academic interest. Included are alphabetically arranged reference entries on significant authors along with works, themes, and other topics. The articles are written by scholars, librarians, and industry professionals with a deep knowledge of the genre and so provide a thorough understanding of the subject. An index provides easy access to information within the entries, and bibliographies at the end of each entry, a general bibliography, and a suggested romance reading list allow for further study of the genre.

**Romance Fiction and American Culture** William A. Gleason, Eric Murphy Selinger, 2017-05-15 Since the 1970s, romance novels have surpassed all other genres in terms of popularity in the United States, accounting for half of all mass market paperbacks sold and driving the digital publishing revolution. Romance Fiction and American Culture brings together scholars from the humanities, social sciences, and publishing to explore American romance fiction from the late eighteenth to the early twenty-first century. Essays on interracial, inspirational, and LGBTQ romance attend to the diversity of the genre, while new areas of inquiry are suggested in contextual and interdisciplinary examinations of romance authorship, readership, and publishing history, of pleasure and respectability in African American romance fiction, and of the dynamic tension between the genre and second wave feminism. As it situates romance fiction among other instances of American love culture, from Civil War diaries to Bob Dylan's Blood on the Tracks, Romance Fiction and American Culture confirms the complexity

and enduring importance of this most contested of genres.
