

Segregated From Its History How Ghetto Lost Its Meaning

Jonathan C. K. Wells

Segregation by Design Catalina Freixas, Mark Abbott, 2018-10-24 This book discusses racial segregation in American cities. Using St. Louis as a point of departure, it examines the causes and consequences of residential segregation, and proposes potential mitigation strategies. While an introduction, timeline and historical overview frame the subject, nine topic-specific conversations - between invited academics, policy makers and urban professionals - provide the main structure. Each of these conversations is contextualized by a photograph, an editors' note and an essay written by a respected current or former St. Louisan. The essayists respond to the conversations by speaking to the impacts of segregation and by suggesting innovative policy and design tactics from their professional or academic perspective. The purpose of the book, therefore, is not to provide original research on residential segregation, but rather to offer a unique collection of insightful, transdisciplinary reflections on the experience of segregation in America and how it might be addressed.

Ghetto Daniel B. Schwartz, 2019-09-24 Just as European Jews were being emancipated and ghettos in their original form—compulsory, enclosed spaces designed to segregate—were being dismantled, use of the word ghetto surged in Europe and spread around the globe. Tracing the curious path of this loaded word from its first use in sixteenth-century Venice to the present turns out to be more than an adventure in linguistics. Few words are as ideologically charged as ghetto. Its early uses centered on two cities: Venice, where it referred to the segregation of the Jews in 1516, and Rome, where the ghetto survived until the fall of the Papal States in 1870, long after it had ceased to exist elsewhere. *Ghetto: The History of a Word* offers a fascinating account of the changing nuances of this slippery term, from its coinage to the present day. It details how the ghetto emerged as an ambivalent metaphor for “premodern” Judaism in the nineteenth century and how it was later revived to refer to everything from densely populated Jewish immigrant enclaves in modern cities to the hypersegregated holding pens of Nazi-occupied Eastern Europe. We see how this ever-evolving word traveled across the Atlantic Ocean, settled into New York's Lower East Side and Chicago's Near West Side, then came to be more closely associated with African Americans than with Jews. Chronicling this sinuous transatlantic odyssey, Daniel B. Schwartz reveals how the history of ghettos is tied up with the struggle and argument over the meaning of a word. Paradoxically, the term ghetto came to loom

larger in discourse about Jews when Jews were no longer required to live in legal ghettos. At a time when the Jewish associations have been largely eclipsed, Ghetto retrieves the history of a disturbingly resilient word.

Reversing Urban Inequality in Johannesburg Melissa Tandiwe Myambo, 2018-10-08 With the spread of capitalism - a socio-economic system that produces both wealth and poverty simultaneously - the spatial dynamics of the global(izing) city are creating more division between social classes, not less. This means that in the 21st-century, large cities around the world exhibit intensifying spatial inequality taking the form of a wealthy, privileged urban core ringed by a periphery of lower-income denizens far removed from the city's resources and amenities. This trend toward swelling socio-spatial division is especially pronounced in cities purporting to be global, or in the case of Johannesburg, South Africa's financial capital, a world-class African city. Ironically, Johannesburg's historical legacy of immense spatial inequality thanks to apartheid is the direction in which most global(izing) cities such as New York, Cairo, London, Shanghai, New Delhi, Jakarta, Lagos, Berlin, and São Paulo are headed. The globalization of neoliberal urban policy has made the city less welcoming, liveable, accessible and friendly for lower-income city residents. This book asks if Johannesburg can unstitch its complex urban fabric to create a city with more democratic public transport, affordable housing in desirable locations and safe, socially and racially integrated public spaces. These pithy, solidly researched, accessibly written essays are instructive for all those who are interested in questions of spatial justice, urban development, history and planning and the general goal of making cities more livable and accessible for urban dwellers of all income levels.

Place Brand Formation and Local Identities Staci M. Zavattaro, 2019-07-10 This innovative book explores micro-level neighborhood branding and the creation of distinct local identities in neighborhoods. It begins by situating place branding literature at the neighborhood level and then gives consideration to what the core components of a neighborhood brand might be. It does so by drawing on extensive interviews with key actors in the United States, such as government officials, Realtors, economic development professionals, urban planners, and neighborhood residents. Core topics such as belonging and community, identity, nostalgia, idealism, and recreation are explored. The book concludes with a proposed working definition of neighborhood brands and branding that stakeholders can use to promote and market their neighborhoods accordingly - or avoid branding them entirely. This book offers a novel contribution to place branding and destination management literatures by moving beyond the dominant macro-level narratives. It will be of interest to scholars and students studying in urban planning, tourism, destination branding, marketing, public administration and policy, and sociology.

Race Talk in the Age of the Trigger Warning Mara Lee Grayson, 2020-03-20 To generate opportunities for transformative learning, educators must create learning environments that help students feel safe and encourage them to grapple with potentially difficult material. The trigger warning, a brief statement information students of potential distressing or re-traumatizing content, has been offered as a way to do just that, but this practice is neither as effective nor

as equitable as it may seem. Intentionally or indirectly, the trigger warning limits the extent to which students are encouraged to engage in transformative critical conversations and reinforces the culture of silence that prevails in many educational spaces. Emerging as a response to trauma amid an educational environment that professes student-responsiveness and celebrates diversity yet perpetuates the marginalization of many of the bodies in the classroom, the trigger warning is not the problem – but it is not the solution either. What does this mean for the faculty members teaching this new generation of college students? And the teachers who find this generation’s younger siblings in their high school classrooms? Drawing upon original research, Mara Lee Grayson tracks the rise of the trigger warning within historical and contemporary educational contexts; explores its potentialities, limitations, and abuses as praxis; and offers curricular suggestions for high school and college instructors seeking to implement equitable, antiracist pedagogies that simultaneously encourage students’ well-being, provoke intellectual and emotional growth, and challenge the cultures of silence that maintain inequity on school campuses.

World Englishes on the Web Mirka Honkanen, 2020-08-15 *World Englishes on the Web* focuses on linguistic practices at the intersection of international migration and social media, examining the language repertoires of Nigerians living in the United States, and their negotiations of identity and authenticity on a Nigerian web forum. Based on a large corpus of informal, multilingual, interactive, online writing, this book describes how diasporic Nigerians employ African-American Vernacular English, Nigerian English, Nigerian Pidgin, and ethnic Nigerian languages in an online community of practice. The project combines corpus linguistic methods—relying on a corpus management tool custom-made for web forum data—with ethnographically-informed qualitative analyses of morphosyntactic, lexical, and orthographic features, and immigrants’ language attitudes and ideologies. It is relevant particularly for linguists and other social scientists interested in World Englishes, the sociolinguistics of globalization and computer-mediated communication, corpus linguistics, and pidgin and creole languages

The Ghetto Bryan Cheyette, 2020-08-27 For three hundred years the ghetto defined Jewish culture in the late medieval and early modern period in Western Europe. In the nineteenth-century it was a free-floating concept which travelled to Eastern Europe and the United States. Eastern European “ghettos”, which enabled genocide, were crudely rehabilitated by the Nazis during World War Two as if they were part of a benign medieval tradition. In the United States, the word ghetto was routinely applied to endemic black ghettoization which has lasted from 1920 until the present. Outside of America “the ghetto” has been universalized as the incarnation of class difference, or colonialism, or apartheid, and has been applied to segregated cities and countries throughout the world. In this Very Short Introduction Bryan Cheyette unpicks the extraordinarily complex layers of contrasting meanings that have accrued over five hundred years to ghettos, considering their different settings across the globe. He considers core questions of why and when urban, racial, and colonial ghettos

have appeared, and who they contain. Exploring their various identities, he shows how different ghettos interrelate, or are contrasted, across time and space, or even in the same place. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Expanding Elementary Teacher Education through Service-Learning Margaret-Mary Sulentic Dowell, Tynisha D. Meidl, 2016-11-16 Teacher education programs and colleges of education face a multilayered task of preparing teachers to teach in increasingly divergent environments where children of color encompass a significant number of urban school populations. Yet the teaching force remains predominantly white, middle-income, monolingual, and female. Compounding this complex issue, the racial and the socio-economic makeup of many teacher education faculty mirrors the teacher candidate population. The goal of this handbook is to offer teacher educators a blue print for strengthening and extending traditional literacy field experiences to include service-learning components. As literacy teacher educators, Sulentic Dowell and Meidl demonstrate how teacher education can be transformed to include more authentic, meaningful, and preparatory field experiences. Adding service-learning components expands teacher education to more adequately prepare elementary education candidates to meet children's needs in 21st century, urban elementary classrooms. This handbook considers the need to redefine and reconfigure teacher education in regards to literacy teaching and learning.

The Metabolic Ghetto Jonathan C. K. Wells, 2016-07-21 A multidisciplinary analysis of the role of nutrition in generating hierarchical societies and cultivating a global epidemic of chronic diseases.

Ghetto Mitchell Duneier, 2016-04-19 A New York Times Notable Book of 2016 Winner of the Zócalo Public Square Book Prize On March 29, 1516, the city council of Venice issued a decree forcing Jews to live in il getto—a closed quarter named for the copper foundry that once occupied the area. The term stuck. In this sweeping and original account, Mitchell Duneier traces the idea of the ghetto from its beginnings in the sixteenth century and its revival by the Nazis to the present. As Duneier shows, we cannot comprehend the entanglements of race, poverty, and place in America today without recalling the ghettos of Europe, as well as earlier efforts to understand the problems of the American city. Ghetto is the story of the scholars and activists who tried to achieve that understanding. As Duneier shows, their efforts to wrestle with race and poverty cannot be divorced from their individual biographies, which often included direct encounters with prejudice and discrimination in the academy and elsewhere. Using new and forgotten sources, Duneier introduces us to Horace Cayton and St. Clair Drake, graduate students whose conception of the South Side of Chicago established a new paradigm for thinking about Northern racism and poverty in the 1940s. We learn how the psychologist Kenneth Clark subsequently linked Harlem's slum conditions with the persistence of black powerlessness, and we follow the controversy over Daniel Patrick Moynihan's

report on the black family. We see how the sociologist William Julius Wilson redefined the debate about urban America as middle-class African Americans increasingly escaped the ghetto and the country retreated from racially specific remedies. And we trace the education reformer Geoffrey Canada's efforts to transform the lives of inner-city children with ambitious interventions, even as other reformers sought to help families escape their neighborhoods altogether. Duneier offers a clear-eyed assessment of the thinkers and doers who have shaped American ideas about urban poverty—and the ghetto. The result is a valuable new estimation of an age-old concept.

The Ghetto in Global History Wendy Z. Goldman, Joe William Trotter, Jr., 2017-11-27 *The Ghetto in Global History* explores the stubborn tenacity of 'the ghetto' over time. As a concept, policy, and experience, the ghetto has served to maintain social, religious, and racial hierarchies over the past five centuries. Transnational in scope, this book allows readers to draw thought-provoking comparisons across time and space among ghettos that are not usually studied alongside one another. The volume is structured around four main case studies, covering the first ghettos created for Jews in early modern Europe, the Nazis' use of ghettos, the enclosure of African Americans in segregated areas in the United States, and the extreme segregation of blacks in South Africa. The contributors explore issues of discourse, power, and control; examine the internal structures of authority that prevailed; and document the lived experiences of ghetto inhabitants. By discussing ghettos as both tools of control and as sites of resistance, this book offers an unprecedented and fascinating range of interpretations of the meanings of the ghetto throughout history. It allows us to trace the circulation of the idea and practice over time and across continents, revealing new linkages between widely disparate settings. Geographically and chronologically wide-ranging, *The Ghetto in Global History* will prove indispensable reading for all those interested in the history of spatial segregation, power dynamics, and racial and religious relations across the globe.

The Oxford Handbook of the Social Science of Poverty David Brady, Linda Burton, 2016 *The Oxford Handbook of the Social Science of Poverty* builds a common scholarly ground in the study of poverty by bringing together an international, inter-disciplinary group of scholars to provide their perspectives on the issue. Contributors engage in discussions about the leading theories and conceptual debates regarding poverty, the most salient topics in poverty research, and the far-reaching consequences of poverty on the individual and societal level.

The Negro Ghetto Robert Clifton Weaver, 1948 Weaver's book ... describes perpetual segregation in the North, concentrating on the problems of housing for black Americans (such as the plight of African Americans migrating North and being restricted to living in city slums), and then suggests positive solutions. The dust jacket's front panel declares 'What Negro residential segregation costs the community and how democratic housing can be achieved'--RareAmericana.com website, viewed April 4, 2023.

White Space, Black Hood Sheryll Cashin, 2021-09-14 A 2021 C. Wright Mills Award Finalist Shows how government

created “ghettos” and affluent white space and entrenched a system of American residential caste that is the linchpin of US inequality—and issues a call for abolition. The iconic Black hood, like slavery and Jim Crow, is a peculiar American institution animated by the ideology of white supremacy. Politicians and people of all colors propagated “ghetto” myths to justify racist policies that concentrated poverty in the hood and created high-opportunity white spaces. In *White Space, Black Hood*, Sheryll Cashin traces the history of anti-Black residential caste—boundary maintenance, opportunity hoarding, and stereotype-driven surveillance—and unpacks its current legacy so we can begin the work to dismantle the structures and policies that undermine Black lives. Drawing on nearly 2 decades of research in cities including Baltimore, St. Louis, Chicago, New York, and Cleveland, Cashin traces the processes of residential caste as it relates to housing, policing, schools, and transportation. She contends that geography is now central to American caste. Poverty-free havens and poverty-dense hoods would not exist if the state had not designed, constructed, and maintained this physical racial order. Cashin calls for abolition of these state-sanctioned processes. The ultimate goal is to change the lens through which society sees residents of poor Black neighborhoods from presumed thug to presumed citizen, and to transform the relationship of the state with these neighborhoods from punitive to caring. She calls for investment in a new infrastructure of opportunity in poor Black neighborhoods, including richly resourced schools and neighborhood centers, public transit, Peacemaker Fellowships, universal basic incomes, housing choice vouchers for residents, and mandatory inclusive housing elsewhere. Deeply researched and sharply written, *White Space, Black Hood* is a call to action for repairing what white supremacy still breaks. Includes historical photos, maps, and charts that illuminate the history of residential segregation as an institution and a tactic of racial oppression.

Muslims in Indian Cities Laurent Gayer, 2012 With more than 150 million people, Muslims are the largest Indian minority but are facing a significant decline in socio-economic as well as political terms - not to say anything about the communal waves of violence that have affected them over the last 25 years. In India's cities, these developments find contrasted expressions. While Muslims are everywhere lagging behind, local syncretic cultures have proved to be resilient in the South and in the East (Bangalore, Calicut, Cuttack). In the Hindi belt and in the North, Muslims have met a different fate, especially in riot-prone areas (Ahmedabad, Mumbai, Jaipur, Aligarh) and in the former capitals of Muslim states (Delhi, Hyderabad, Bhopal, Lucknow). These developments have resulted in the formation of Muslim ghettos and Muslim slums in places like Ahmedabad and Mumbai. But (self-)segregation also played a role in the making of Muslim enclaves, like in Delhi and Aligarh, where traditional elites and the new Muslim middle class searched for physical as well as cultural protection through their regrouping. This book supplements an ethnographic approach of Muslims in 11 Indian cities with a quantitative methodology in order to give a first hand account of an untold story.

Dark Ghettos Tommie Shelby, 2016-11 Winner of the Spitz Prize, Conference for the Study of Political Thought Winner of

the North American Society for Social Philosophy Book Award Why do American ghettos persist? Scholars and commentators often identify some factor—such as single motherhood, joblessness, or violent street crime—as the key to solving the problem and recommend policies accordingly. But, Tommie Shelby argues, these attempts to “fix” ghettos or “help” their poor inhabitants ignore fundamental questions of justice and fail to see the urban poor as moral agents responding to injustice. “Provocative...[Shelby] doesn’t lay out a jobs program or a housing initiative. Indeed, as he freely admits, he offers ‘no new political strategies or policy proposals.’ What he aims to do instead is both more abstract and more radical: to challenge the assumption, common to liberals and conservatives alike, that ghettos are ‘problems’ best addressed with narrowly targeted government programs or civic interventions. For Shelby, ghettos are something more troubling and less tractable: symptoms of the ‘systemic injustice’ of the United States. They represent not aberrant dysfunction but the natural workings of a deeply unfair scheme. The only real solution, in this way of thinking, is the ‘fundamental reform of the basic structure of our society.’” —James Ryerson, New York Times Book Review

Making the Second Ghetto Arnold R. Hirsch, 1983-09-30 This book analyses the expansion of Chicago's Black Belt during the period immediately following World War II. Even as the civil rights movement swept the country, Chicago dealt with its rapidly growing black population not by abolishing the ghetto, but by expanding and reinforcing it. The city used a variety of means, ranging from riots to redevelopment, to prevent desegregation. The result was not only the persistence of racial segregation, but the evolution of legal concepts and tools which provided the foundation for the nation's subsequent urban renewal effort and the emergence of a ghetto now distinguished by government support and sanction. This book not only extends our knowledge of the evolution of race relations in urban America, but adds a new dimension to our perspective on the civil rights era - an age marked by the rise of Martin Luther King, Jr. and the explosion of northern cities in the wake of his assassination.

The International Convention on the Elimination of All Forms of Racial Discrimination Patrick Thornberry, 2016-07-14 The Convention on the Elimination of All Forms of Racial Discrimination is the centrepiece of international efforts to address racial discrimination, defined in broad terms to include discrimination based on skin colour, descent, ethnic, and national origin. Victims of discrimination within the scope of the Convention include minorities, indigenous peoples, non-citizens, and caste or descent groups. Virtually all national societies are diverse in terms of ethnicity or 'race' and none is free from discrimination, making it one of the great issues of our time. Against the background of international human rights standards and mechanisms to counter racial and ethnic discrimination, this book provides the first comprehensive legal analysis of the

provisions of the Convention on an article-by article basis. The book addresses the place of the Convention within the broader framework of United Nation's action against discrimination. The different chapters analyse and discuss broad topics of race, ethnicity, and international law, the genesis and drafting of the Convention, the aims and objectives of the Convention in light of its preamble, and principles of non-discrimination and equality. In particular, the book includes a critical appraisal of the contribution of the Convention to the eradication of racial discrimination. It also reflects on whether there is scope for modification of the substance or procedures of the Convention in light of challenges arising from enhanced transnational population movements, the intersection between discrimination on the ground of race and discrimination against religious communities, and the intersection of racial and gender-based discrimination.

The Cook Up D. Watkins, 2016-05-03 Reminiscent of the classic *Random Family* and *The Short and Tragic Life of Robert Peace*, but told by the man who lived it, *The Cook Up* is a riveting look inside the Baltimore drug trade portrayed in *The Wire* and an incredible story of redemption. The smartest kid on his block in East Baltimore, D. was certain he would escape the life of drugs, decadence, and violence that had surrounded him since birth. But when his brother Devin is shot-only days after D. receives notice that he's been accepted into Georgetown University-the plans for his life are exploded, and he takes up the mantle of his brother's crack empire. D. succeeds in cultivating the family business, but when he meets a woman unlike any he's known before, his priorities are once more put into question. Equally terrifying and hilarious, inspiring and heartbreaking, D.'s story offers a rare glimpse into the mentality of a person who has escaped many hells.
