The Catholic Church and the Dutch Bible Els Agten, 2020 In *The Catholic Church and the Bible: From the Council of Trent to the Jansenist Controversy (1564-1733)*, Els Agten studies the impact of Jansenism and anti-Jansenism on the ideas regarding vernacular Bible reading and Bible production in the Low Countries in the broader seventeenth century. The book provides a review of sixteenth- and seventeenth-century book censorship and an analysis of the ideas and the writings of ten protagonists, including theologians, Bible translators, ecclesiastical authorities and representatives of Port-Royal. This way, Agten demonstrates that the Jansenists were stimulating the laity, with the inclusion of women and children, to read the Bible in the vernacular, with no restrictions whatsoever. Their opponents, in contrast, adopted a more wary position.

**Shrines in a Fluid Space** Argyri Dermitzaki, 2021-12-17 In *Shrines in a Fluid Space: The Shaping of New Holy Sites in the Ionian Islands, the Peloponnese and Crete under Venetian Rule (14th-16th Centuries)*, Argyri Dermitzaki reconstructs the devotional experiences within the Greek realm of the Venetian Stato da Mar of Western European pilgrims sailing to Jerusalem. The author traces the evolution of the various forms of cultic sites and the perception of them as nodes of a wider network of the pilgrims' 'holy topography'. She scrutinises travelogues in conjunction with archaeological, visual and historical evidence and offers a study of the cultic phenomena and sites invested with exceptional meaning at the main ports of call of the pilgrims' galleys in the Ionian Sea, the Peloponnese and Crete--

*Sustainable Action* Christian Berg,2019-11-13 In this timely exploration of sustainable actions, Christian Berg unpacks the complexity in understanding the barriers we face in moving towards a sustainable future, providing solution perspectives for every level, from individuals to governments and supra-national organizations offering a lucid vision of a long-term and achievable goal for sustainability. While the 2030 Agenda has already set ambitious targets for humanity, it offers little guidance for concrete actions. Although much is already being done, progress seems slow and some actions aiming at sustainability may be counterproductive. Different disciplines, societal actors, governmental departments and NGOs attribute the slow progress to a number of different causes, from the corruption of politicians to the wrong incentive structures. Sustainable Action surveys all the fields involved in sustainability to provide action principles which speak to actors of different kinds, not just those professionally mandated with such changes. It offers a road map to all those who might not constantly think about systems change but who are concerned and want to contribute to a sustainable future in a meaningful way. This book will be of great interest to students and scholars of sustainability issues, as well as those looking for a framework for how to change their systems at work to impact the quadruple bottom line: environment, economy, society, and future generations.

*Maria Petyt - A Carmelite Mystic in Wartime* ,2015-07-28 Based on the discovery of an unknown Latin manuscript, Maria Petyt - A Carmelite Mystic in Wartime provides surprising new information about the seventeenth century Flemish mystic Maria Petyt (1623-1677) who wrote many letters to her spiritual director, Michael of St. Augustine. The book contains a transcription of the (unfortunately partly damaged) manuscript, an English translation of it, and several articles opening up new horizons concerning the life and spirituality of Maria Petyt and her historical and religious backgrounds. The authors characterize Maria Petyt as a self-confident spiritual daughter with a strong political mission, a zealous figure fighting side by side with Louis XIV for the catholic victory during the Dutch War, and as one who lived and profoundly understood the

spirituality of Teresa of Avila.

*The Holy Land in Observant Franciscan Texts (c. 1480-1650)* Marianne P. Ritsema van Eck, 2019-09-16 In *The Holy Land in Observant Franciscan Texts (c. 1480-1650)* Marianne Ritsema van Eck analyses the development of the complex Observant Franciscan engagement with the Holy Land during the early modern period. During these eventful centuries friars of the Franciscan establishment in Jerusalem increasingly sought to cultivate strong ideological ties between themselves and the Holy Land, participating actively in contemporary literatures of geographia sacra and Levantine pilgrimage and travel. It becomes clear how the friars constructed a collective memory using the ideological canon of their order - featuring Bonaventurian theology, marvels of the east, cartography, apocalyptic visions of history, calls for Crusade, and finally a pilgrimage-possession of the Holy Land by Francis.
