

Anna Dello Russo Krankheit

Cornelia Eyssen

The Blizzard Vladimir Sorokin, 2018-11-01 A darkly comic dystopian odyssey, from one of Russia's leading contemporary novelists. Garin, a country doctor, is desperately trying to reach the village of Dolgoye, where a mysterious epidemic is transforming the villagers into zombies. He has with him a vaccine which will prevent the spread of this epidemic, but a terrible blizzard turns his journey into the stuff of nightmare. A trip that should take hours turns into a metaphysical odyssey, in which he encounters strange beasts, apparitions, hallucinations and dangerous fellow men. Trapped in this existential storm, Sorokin's characters fight their way through a landscape that owes as much to Chekhov's 19th-century Russia as it does to near-future, post-apocalyptic literature. Fantastical, comic and richly drawn, *The Blizzard* at once answers to the canon of Russian writers and makes a fierce statement about life in contemporary Russia.

Wenn ich das Schicksal treffe, kann es was erleben Cornelia Eyssen, 2016-11-04 Geschichten, die das Leben schrieb - wenn das Leben eine so unglaubliche Wendung nimmt wie das von Cornelia Eyssen, dann ist das eine Geschichte, die es zu erzählen gilt. Als Journalistin hat Cornelia Eyssen mit Politikern, Königen, Verbrechern und Stars gesprochen, war jahrelang in den Chefetagen von Hochglanz-Magazinen zu Hause, reiste für spannende Reportagen um die halbe Welt. Krank zu sein, dafür hatte ich nie Zeit, sagt sie über sich. Bis sie notgedrungen die Zeit dafür haben musste, innerhalb weniger Jahre Lungenkrebs und einen Hirntumor hatte, fünf schwere Operationen, eine Chemotherapie, zwei Bestrahlungen, unzählige Tiefschläge, unfassbare Heilungserfolge. Sie hat einen scheinbar aussichtslosen Kampf gekämpft, mit Rückschlägen, kleinen Wundern, vor allem aber mit unbeschreiblicher Willenskraft. Denn das Leben ist viel zu schön, um zu sterben. Ihre Geschichte hat sie nun aufgeschrieben, um anderen Menschen Mut zu machen. Dabei lässt sie auch ihre nächsten Angehörigen zu Wort kommen: ihren Mann, ihre beste Freundin, ihre Stieftochter, ihre Schwiegermutter. Und weil Cornelia Eyssen eine Frau mitten im Leben ist, geht es auch mal um weniger Dramatisches. Um gutes Essen, um Schönheit und Wellness. Ums Leben.

Medical Parasitology Gerhard Piekarski, 2012-12-06 *Medical Parasitology* is primarily intended to be an illustrated textbook which provides a review of the most important species of parasite which occur in man; their areas of distribution, morphology and development, the typical disease symptoms resulting from infection, epidemiology and also methods of detection and indications for therapy. The main emphasis is on the protozoan and helminthic diseases; medical entomology

has only been covered in connection with the epidemiology of the diseases described here. Parasites sometimes occur exclusively in man (anthropoparasites) and sometimes also in animals (anthropozoonotic parasites). The monoxenous species complete their development in man or in one animal alone (Scheme I). Heteroxenous species, which include most of the medically important parasites, develop partly in man and partly in animals in the course of their life cycle. They may even be forced to infect different species so that they can continue their development. This may sometimes be associated with a digenesis, the larval development taking place in one intermediate (Scheme II ®) or in two different intermediate hosts (Scheme III ®, ©), and the sexually mature stage developing in another host, the so-called definitive host (Scheme III ®). The importance of the intermediate hosts can vary considerably (see below).

Spinal Disorders Norbert Boos, Max Aebi, 2008-09-24 Spinal disorders are among the most common medical conditions with significant impact on health related quality of life, use of health care resources and socio-economic costs. This is an easily readable teaching tool focusing on fundamentals and basic principles and provides a homogeneous syllabus with a consistent didactic strategy. The chosen didactic concept highlights and repeats core messages throughout the chapters. This textbook, with its appealing layout, will inspire and stimulate the reader for the study of spinal disorders.

Madkour's Brucellosis M. Monir Madkour, 2012-12-06 A full description of the clinical aspect and pathology of the disease, with a discussion of current treatment. This updated edition includes five new chapters: endocrinal brucellosis, difficulties in diagnosis and management, HIV and brucellosis, bioterrorism and brucellae, and spondylitis with neurobrucellosis. The book presents a complete, up-to-date picture of the disorder and will appeal to clinicians, students, researchers and also to veterinarians.

Framgmented Memory Nicoletta Bruno, Martina Filosa, Giulia Marinelli, 2021-10-30 Chance, in addition to the unavoidable ambiguity caused by time, is one of the main guilty parties in the transmission of ancient texts - or lack thereof. However, the same cannot be said for what concerns the mechanisms of selection and loss of historical and literary memory, where the voluntary awareness of obscuring is often part of a precise aim, thus leading the cultural memory of a literate society to become fragmented. The present volume explores the devices and criteria of selection and loss in Ancient and Medieval texts and the subsequent fragmentation of such literature, but it also addresses the questions of the *damnatio memoriae*, of literary strategies such as reticence and omission, as well as of known texts deemed lost but re-found thanks to state-of-the-art methods in digitization. The many and diverse nuances of the concepts of omission, selection, and loss throughout Ancient and Medieval literature and history are illustrated through a number of case studies in the four sections of this volume, each examining a different facet of the topic: 'Mechanisms and criteria of textual loss and selection', 'Lost texts re-discovered', 'Voluntary omissions and desire for oblivion', and 'Re-working the known'.

Language, Literature, and the Negotiation of Identity Barbara A. Fennell, 2020-05 1. Guests and Immigrants : the

historical and political background -- 2. The social background -- 3. From Pidgindeutsch to Standard German : the linguistic situation -- 4. Language, literature, and the negotiation of identity.

Georg Lukács' Marxism Alienation, Dialectics, Revolution Victor Zitta,2013-11-27

Body and Spirit in the Middle Ages Gaia Gubbini,2020-08-10 A crucial question throughout the Middle Ages, the relationship between body and spirit cannot be understood without an interdisciplinary approach - combining literature, philosophy and medicine. Gathering contributions by leading international scholars from these disciplines, the collected volume explores themes such as lovesickness, the five senses, the role of memory and passions, in order to shed new light on the complex nature of the medieval Self.

Ancient Music in Antiquity and Beyond Egert Pöhlmann,2020-08-10 Since the Renaissance, scholars have attempted to reconstruct ancient Greek music mainly on the basis of literary testimonies. Since the late 19th c. evidence from inscriptions and papyri enriched the picture. This book explores the factors that guided such reconstructions, from Aristophanes' comments on music to the influence of Roman music in late antiquity, thereby offering a crucial contribution to our understanding of ancient music's legacy.

Literary Translation, Reception, and Transfer Norbert Bachleitner,2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

Musical Prodigies Claude Kenneson,1998 This is a celebration of the remarkable lives of forty-four musical prodigies from the eighteenth century to the present. With a profound appreciation for their gifts, Claude Kenneson tells the amazing stories of Mozart and Paganini, Andres Segovia and Samuel Barber, Van Cliburn and Ruggiero Ricci, Shauna Rolston and Yo-Yo Ma, to name a few. The author has nurtured several prodigies among his own cello students and brings a teacher's sensitivity to these accounts of many a perilous journey to maturity. He explores early family life, first teachers, the

importance of peers, and the inevitable struggles for independence and acceptance as an adult musician. Parents and families of gifted children in all the arts will welcome this book. Young musicians will find companionship, reassurance, and insight into their own lives. And for all who have the opportunity to guide prodigious gifts, Kenneson has created an invaluable resource.

The Occult Nineteenth Century Lukas Pokorny, Franz Winter, 2021-01-09 The nineteenth century witnessed a proliferation of alternative religious currents and practices, appropriating earlier traditions, entangling geographically distinct spiritual discourses, and crafting a repository of mindscapes eminently suitable to be accommodated by later generations of thinkers and practitioners. Penned by specialists in the field, this volume examines important themes and figures pertaining to this occult amalgam and its resonance into the twentieth century and beyond. Global guises of the occult, ranging from the Americas and Europe to India, are variously addressed, with special attention to the crucial role of mesmerism and the origins of modern yoga.

Bibliography of Publications ,

Systems Biology of Cancer Sam Thiagalingam, 2015-04-09 An overview of the current systems biology-based knowledge and the experimental approaches for deciphering the biological basis of cancer.

Treatment of Dystonia Dirk Dressler, Eckart Altenmüller, Joachim K. Krauss, 2018-06-07 Comprehensive reference for neurologists, neurosurgeons and physical therapists on the treatment of all dystonias in children and adults.

Neuro-Geriatrics Babak Tousi, Jeffrey Cummings, 2017-12-06 This manual takes a multidisciplinary approach to neurological disorders in the elderly. Comprehensive and practical, it includes the most recent diagnostic criteria and immediately accessible visual care paths including the latest pharmacologic and non-pharmacologic interventions. Covering a range of modalities, from the importance and impact of each disease to diagnostic criteria, genetics, laboratory and imaging findings, treatment and care paths, this book focuses on neurological conditions that occur commonly in older persons or which have a striking effect on their lives. The common types of dementias, Parkinson's disease and related disorders, rapidly progressive diseases, seizure disorders and multiple sclerosis are covered. Issues commonly affecting this population, such as neurobehavioral symptoms and caregiver issues, are discussed. *Neuro-Geriatrics: A Clinical Manual* is aimed at any physician who treats the elderly with neurological disorders: neurologists, geriatricians and geriatric psychiatrists, both specialists and general practitioners.

Music in Antiquity Joan Goodnick Westenholz, Yossi Maurey, Edwin Seroussi, 2014-04-02

Five Faces of Modernity Matei Călinescu, 1987 *Five Faces of Modernity* is a series of semantic and cultural biographies of words that have taken on special significance in the last century and a half or so: modernity, avant-garde, decadence, kitsch, and postmodernism. The concept of modernity--the notion that we, the living, are different and somehow superior to

our predecessors and that our civilization is likely to be succeeded by one even superior to ours--is a relatively recent Western invention and one whose time may already have passed, if we believe its postmodern challengers. Calinescu documents the rise of cultural modernity and, in tracing the shifting senses of the five terms under scrutiny, illustrates the intricate value judgments, conflicting orientations, and intellectual paradoxes to which it has given rise. *Five Faces of Modernity* attempts to do for the foundations of the modernist critical lexicon what earlier terminological studies have done for such complex categories as classicism, baroque, romanticism, realism, or symbolism and thereby fill a gap in literary scholarship. On another, more ambitious level, Calinescu deals at length with the larger issues, dilemmas, ideological tensions, and perplexities brought about by the assertion of modernity.
