

Belen Persello Causa De Muerte

Agustín Cueva

Capital Moves Jefferson Cowie, 2001 Globalization is the lead story of the new century, but its roots reach back nearly one hundred years, to major corporations' quest for stable, inexpensive, and pliant sources of labor. Before the largest companies moved beyond national boundaries, they crossed state lines, abandoning the industrial centers of the Eastern Seaboard for impoverished rural communities in the Midwest and South. In their wake they left the decaying urban landscapes and unemployment rates that became hallmarks of late twentieth-century America. This is the story that Jefferson Cowie, in a stunningly important work of historical imagination and rediscovery (Nelson Lichtenstein), tells through the lens of a single American corporation, RCA. *Capital Moves* takes us through the interconnected histories of Camden, New Jersey; Bloomington, Indiana; Memphis, Tennessee; and Juárez, Mexico--four cities radically transformed by America's leading manufacturer of records and radio sets. In a sweeping narrative of economic upheaval and class conflict, Cowie weaves together the rich detail of local history with the national--and ultimately international--story of economic and social change.

The Emperor's Last Campaign Emilio Ocampo, 2023-08 Winner of the 2009 Literary Award, sponsored by the International Napoleonic Society/La Societe Napoleonienne Internationale of Montreal, Quebec's Literary Committee Napoleon's last campaign didn't end at Waterloo. After that fateful day on June 1815, hundreds if not thousands of veterans of Napoleon's army emigrated to America. Many went farther south and joined the rebels fighting for independence in the Spanish colonies, from Mexico to Buenos Aires. The Bonapartists roiled the Western World as they sought fortune, fame, and glory in the expanding United States and in the tumultuous Spanish Americas suffering from repression and civil disorder, and even in the states of Europe. They were joined by adventurers from other nations who shared their admiration for the fallen emperor. This is the first full-length examination of the Bonapartists who emigrated from France after Napoleon's defeat and exile, who formed a loose confederation with adventurers and romantics, and who contemplated a new empire in the Western Hemisphere. The scheme had the support and encouragement of the fallen emperor himself and his brother Joseph, former King of Spain, who lived in exile in the United States. Emilio Ocampo has examined archives on three continents and sources in several languages to ferret out the evidence--a monumental task considering that conspirators tried to leave no evidence of their plans, and that a failed plot, like failure in general, leaves few claimants. Ocampo reinterprets Latin American independence as an international event that drew in all the major powers. By illuminating the

complex connections between the shattered France of the Bourbon restoration; an England threatened by radical politician inspired by the French Revolution; Napoleon in exile at St. Helena; the United States, where home-grown adventurers and French émigrés alike saw opportunity; and the collapsing Spanish colonial empire, where revolutionaries were allying themselves with the veterans of Napoleon's Grande Armée, Ocampo brings together two bodies of scholarship: Napoleonic history and Latin American independence. He does so by tracing the steps of four of the most fascinating characters of the era: two Britons disaffected with their own government--Lord Thomas Cochrane and Sir Robert Wilson--and two former generals of Napoleon's army named Charles Lallemand and Michel Brayer. *The Emperor's Last Campaign* is a fascinating story, well told, and peopled with all sorts of improbable characters and schemes that perhaps just missed coming to full fruition but that in the process contributed to one of the most important events of the nineteenth century: the breakdown of the Spanish empire in America and the rise of the United States as a world power.

The Museum of Eterna's Novel Macedonio Fernández, 2010 An anti-novel.' It opens with more than fifty prologues--including ones addressed 'To My Authorial Persona,' 'To the Critics,' and 'To Readers Who Will Perish If They Don't Know What the Novel Is About'-that are by turns philosophical, outrageous, ponderous, and cryptic. These pieces cover a range of topics from how the upcoming novel will be received to how to thwart 'skip-around readers' (by writing a book that's defies linearity!). The novel itself, is about a group of characters (some borrowed from other texts) who live on an estancia called 'la novella'

Venezuela Rafael Uzcategui, 2012-01-01 A critical look at the Chavez regime from a leftist Venezuelan perspective, this account debunks claims made by Venezuelan and U.S. rightists that the regime is antidemocratic and dictatorial. Instead, the book argues that the Chavez government is one of a long line of Latin American populist organizations that have been ultimately subservient to the United States as well as multinational corporations. Explaining how autonomous Venezuelan social, labor, and environmental movements have been systematically disempowered by the Chavez regime, this analysis contends that these movements are the basis of a truly democratic, revolutionary alternative.

Doña María's Story Daniel James, 2000 One woman's testimonial about the Peron years sheds light on gender hierarchies, the role of women in industry, women as union militants, and the material culture of working class family life in Argentina.

The Rise of Capitalism on the Pampas Samuel Amaral, 2002-08-22 Amaral focuses on the estancia, livestock firms, that led the economic growth of Buenos Aires in the early 1800s.

The Foundations of Morality Joel J. Kupperman, 2020-07-20 Originally published in 1983, this book maintains that the content and character of morality can be understood if it is regarded as a useful societal tool, whose central purposes include the prevention of harm and promotion of security for members of society. At the foundation is the general superiority of

policies and attitudes that have good consequences. The book argues that ethics is 'cognitive' and explores the kinds of ethical knowledge and the ways in which ethical claims can be challenged and justified.

The Neoconservative Persuasion Irving Kristol, 2011-01-11 Irving Kristol, the godfather of neoconservatism and one of our most important public intellectuals, played an extraordinarily influential role in the development of American intellectual and political culture over the past half century. These essays, many hard to find and reprinted here for the first time since their initial appearance, are a penetrating survey of the intellectual development of one of the progenitors of neoconservatism. Kristol wrote over the years on a remarkably broad range of topics -- from W. H. Auden to Ronald Reagan, from the neoconservative movement's roots in the 1940s at City College to American foreign policy, from religion to capitalism. Kristol's writings provide us with a unique guide to the development of neoconservatism as one of the leading strains of thought -- one of the leading persuasions -- in recent American political and intellectual history.

Insult and the Making of the Gay Self Didier Eribon, 2004-07-07 A bestseller in France following its publication in 1999, *Insult and the Making of the Gay Self* is an extraordinary set of reflections on "the gay question" by Didier Eribon, one of France's foremost public intellectuals. Known internationally as the author of a pathbreaking biography of Michel Foucault, Eribon is a leading voice in French gay studies. In explorations of gay subjectivity as it is lived now and as it has been expressed in literary history and in the life and work of Foucault, Eribon argues that gay male politics, social life, and culture are transformative responses to an oppressive social order. Bringing together the work of Jean-Paul Sartre, Pierre Bourdieu, Judith Butler, and Erving Goffman, he contends that gay culture and political movements flow from the need to overcome a world of insult in the process of creating gay selves. Eribon describes the emergence of homosexual literature in Britain and France at the turn of the last century and traces this new gay discourse from Oscar Wilde and the literary circles of late-Victorian Oxford to André Gide and Marcel Proust. He asserts that Foucault should be placed in a long line of authors—including Wilde, Gide, and Proust—who from the nineteenth century onward have tried to create spaces in which to resist subjection and reformulate oneself. Drawing on his unrivaled knowledge of Foucault's oeuvre, Eribon presents a masterful new interpretation of Foucault. He calls attention to a particular passage from *Madness and Civilization* that has never been translated into English. Written some fifteen years before *The History of Sexuality*, this passage seems to contradict Foucault's famous idea that homosexuality was a late-nineteenth-century construction. Including an argument for the use of Hannah Arendt's thought in gay rights advocacy, *Insult and the Making of the Gay Self* is an impassioned call for critical, active engagement with the question of how gay life is shaped both from without and within.

The Superstar Show of Government Roger-Gérard Schwartzberg, 1979

Forget Foucault & Forget Baudrillard Jean Baudrillard, 1987

Poverty and Inequality in Latin America Víctor E. Tokman, Guillermo A. O'Donnell, 1998 This book presents the papers

submitted to the workshop Poverty in Latin America: Issues and New Responses, organized by the Kellogg Institute. The contributors argue that old models of social protection are in crisis and that without completely rejecting the past experiences, new paradigms might better address the problems of pervasive poverty and inequity that persist in and are often exacerbated by the new global economic environment.

The Process of Political Domination in Ecuador Agustín Cueva,1982

Saint Foucault David M. Halperin,1995 Although there is scarcely more than a mention of homosexuality in his scholarly writings, Michel Foucault, who died of AIDS in 1984, has become a source of inspiration to a generation of gay activists. This book provides a defence of Foucault's work.

Social Classes in Agrarian Societies Rodolfo Stavenhagen,1992

Festivals and the French Revolution Mona Ozouf,1991 Festivals and the French Revolution--the subject conjures up visions of goddesses of Liberty, strange celebrations of Reason, and the oddly pretentious cult of the Supreme Being. Every history of the period includes some mention of festivals; Ozouf shows us that they were much more than bizarre marginalia to the revolutionary process.

Cuadernos de Investigación II Mario Osorio Olazabal,

Politics as Religion Emilio Gentile,2020-09-01 Emilio Gentile, an internationally renowned authority on fascism and totalitarianism, argues that politics over the past two centuries has often taken on the features of religion, claiming as its own the prerogative of defining the fundamental purpose and meaning of human life. Secular political entities such as the nation, the state, race, class, and the party became the focus of myths, rituals, and commandments and gradually became objects of faith, loyalty, and reverence. Gentile examines this sacralization of politics, as he defines it, both historically and theoretically, seeking to identify the different ways in which political regimes as diverse as fascism, communism, and liberal democracy have ultimately depended, like religions, on faith, myths, rites, and symbols. Gentile maintains that the sacralization of politics as a modern phenomenon is distinct from the politicization of religion that has arisen from militant religious fundamentalism. Sacralized politics may be democratic, in the form of a civil religion, or it may be totalitarian, in the form of a political religion. Using this conceptual distinction, and moving from America to Europe, and from Africa to Asia, Gentile presents a unique comparative history of civil and political religions from the American and French Revolutions, through nationalism and socialism, democracy and totalitarianism, fascism and communism, up to the present day. It is also a fascinating book for understanding the sacralization of politics after 9/11.

The Foucault Reader Michel Foucault,2020 The Foucault Reader is the ideal introduction to one the most stimulating and influential writers of the past century. It includes detailed excerpts from all his richly textured historical studies - including Discipline and Punish and The History of Sexuality - as well as many of his best interviews.
