The Creation of a Consciousness Shift Paul Lenda,2012-02-24 Humanity is at a crossroads, where it has to decide whether it wishes to live in a bright future or a dystopian dark age. By making a decision one way or the other, humanity is creating its reality. Through the power of consciousness, humanity has the ability to create a global and transpersonal shift in consciousness to a much higher level. This book demonstrates that such a wide-reaching shift is possible through the realization that everything and everyone is interconnected. This book is one of the first of its kind to put forth scientific evidence to support its transcendental self-growth message. By giving the reader the knowledge and tools necessary for the creation of a consciousness shift, the collective consciousness can be affected in such a way that each individual can help in creating a massive global consciousness shift. Several tools, methods, and guidelines are provided to help bring about such a monumental change. It is the author's intent to stir up a spirit of action and change in respect to altering one's modality of thought and perception of reality. ,

Experience Heaven on Earth Salantra,2008-07 In the new matrix of life expect the unexpected, as constant change is the only stable condition. The genuine spiritual message in this book transmits a multidimensional perspective, which challenges us to liberate ourselves from archaic paradigms of organized teachings, and support independent thinking. It underscores that as we embrace all that we are within consciousness, we give ourselves an opportunity to experience the grand scope of multidimensional life. For the first time in human history we live as unified consciousness in human embodiment, which enables us to be fully present in the new matrix of life. Given that this union is only a moment away, are you ready to emanate your own resonance of light? Experience Heaven on Earth: The New Matrix of Life is an experiential book that allows the reader access to their own blueprint. No other book gives step by step guidance and tools, which assist in the

acceleration of your personal vibrational frequency - a manual where science and spirituality meet to assist you with your transfiguration. This book places conscious ascension in your hands. - Karen Bissett, South Windsor, CT USA

The New Science of Consciousness Survival and the Metaparadigm Shift to a Conscious Universe Dr. Alan Ross Hugenot, 2016-06-30 Alan Hugenot lectures on "the Leading-Edge Science of the Afterlife,... he concluded that the entire universe is conscious and that this explains both near-death experiences and certain paradoxes of quantum theory.... As someone with a physics degree, I know that Hugenot's....basic idea of a conscious universe is neither crazy nor new.... Erwin Schrödinger, one of the fathers of quantum physics, was an avid student of Hindu philosophy, and believed something similar. Gideon Lichfield, April 2015 Atlantic Monthly "The existence of a hidden field (Bohm's implicate order) of non-physical consciousness, occupying as yet undiscerned additional dimensions, which are outside the visible reality (Bohm's explicate order) as defined by 3-D plus time, has now been proven scientifically by the following collated data: Recent repeated replication of John Bell's theory of non-locality, Studies of the Near-Death experience, and After-death communications demonstrated in triple blind laboratory experiments testing evidential mediumship This hidden field (implicate order) of non-physical consciousness, also provides the matrix upon which the explicate order of observed reality is continually manifested. Alan Hugenot "Our challenge is to discover, through careful science, how we can interface with this matrix of consciousness. Viewing psi phenomena as belonging to aspects of reality, about which we as yet simply know very little, is the only honest way for any scientist to proceed. Healthy scientific skepticism must be open to new discoveries; and so allow open examination of the scientific data developed by rigorous para-normal research. Honest, open minded inquiry will bring both new discoveries of truth and new laws of physics beyond the limits of the Newtonian paradigm. Alan Hugenot

Dark Light Consciousness Edward Bruce Bynum, 2012-06-19 How to awaken the Ureus—the serpent power of spiritual transcendence within each of us—and connect to the superconscious of the universe • Reveals the biochemistry of how the body's melanin provides the template for the subtle energy body or light body • Shows how embracing the dark light consciousness of the awakened Ureus opens a portal to the sacred darkness of the superconscious • Provides illustrated instructions for meditation practices, breathing exercises, and yoga postures to safely awaken Ureus/Kundalini energy Within each of us lies the potential to activate a personal connection to the superconscious. Called “Ureus” in ancient Egyptian texts and “Kundalini” in ancient Hindu yoga traditions, our innate serpent power of spiritual transcendence inhabits the base of the spine in its dormant state. When awakened, it unfurls along the spinal column to the brain, connecting individual consciousness to the consciousness of the universe enfolded within the dark matter of space. At the root of creativity and spiritual genius across innumerable cultures and civilizations, this intelligent force reveals portals that enfold time, space, and the luminous matrix of reality itself. Combining physics, neuroscience, and biochemistry with ancient traditions from Africa and India, Edward Bruce Bynum, Ph.D., explores the ancient Egyptian science of the Ureus and reveals how it is intimately connected to dark matter and to melanin, a light-sensitive, energy-conducting substance found in the brain, nervous system, and organs of all higher life-forms. He explains how the dark light of melanin serves as the biochemical infrastructure for the subtle energy body, just as dark matter, together with gravity, holds the galaxies and constellations together. With illustrated instructions, he shows how to safely awaken and stabilize the spiritual energy of the Ureus through meditation practices, breathing exercises, and yoga postures as well as how to prepare the subtle body for

transdimensional soul travel. By embracing the dark light of the shining serpent within, we overcome our collective fear of the vast living darkness without. By embracing the dark, we transcend reality to the dimension of light.

After decades during which consciousness was considered beyond the scope of legitimate scientific investigation, consciousness re-emerged as a popular focus of research towards the end of the last century, and it has remained so for nearly 20 years. There are now so many different lines of investigation on consciousness that the time has come when the field may finally benefit from a book that pulls them together and, by juxtaposing them, provides a comprehensive survey of this exciting field. The Shape of Craft Ezra Shales, 2017-10-15 Today when we hear the word "craft," a whole host of things come immediately to mind: microbreweries, artisanal cheeses, and an array of handmade objects. Craft has become so overused, that it can grate on our ears as pretentious and strain our credulity. But its overuse also reveals just how compelling craft has

become in modern life. In *The Shape of Craft*, Ezra Shales explores some of the key questions of craft: who makes it, what do we mean when we think about a crafted object, where and when crafted objects are made, and what this all means to our understanding of craft. He argues that, beyond the clichés, craft still adds texture to sterile modern homes and it provides many people with a livelihood, not just a hobby. Along the way, Shales upends our definition of what is handcrafted or authentic, revealing the contradictions in our expectations of craft. Craft is—and isn't—what we think.

Directing The Power of Conscious Feelings Clinton Callahan, 2014-11-30 This book is about feelings, and the ways that we, as individuals and as a culture, have numbed ourselves against them. It is about unleashing the possibility of conscious feelings to re-make our lives into what really matters to us. *The Power of Conscious Feelings* introduces readers to the concept of the personal numbness bar—a measure set high by modern culture as a way of keeping everything cool, under control, and consequently out of touch. This book provides the insight and the means for lowering that numbness bar. You can feel more, the author asserts. You can regain the intelligence and energy of your feelings, so long denied and dressed up to appear acceptable. Being cool, Callahan states, allows you to look the other way about torture, invasion, pollution and injustice, and to accept the generic malaise that characterizes so many relationships. The central framework of the book is built with the Ten Distinctions for Consciously Feeling, including: * Learning the potent difference between thoughts and feelings, which most people confuse * Sorting out feelings (based in present) from emotions (based in the past or in somebody else's life) * Fully allowing that feelings are absolutely-neutral energy and information, neither good nor bad, neither positive nor negative. Each chapter is enriched with THOUGHTMAPS—clear diagrams of ways we presently think and ways we could possibly think—and supported by an abundance of practical experiments to try. *The Power of Conscious Feelings* is so much more than a book of self-help or inspiration. Ultimately, it is about our connection with and responsibility for the fate of the Earth. When we are no longer numb, we are freed from solitary confinement in our private world of thoughts and beliefs. We emerge, already connected with other human beings, connected in the world of feelings we all have in common. This book actually guides the reader through four distinct evolutionary stages: from Personal, to Relational, to Transformational, to Cultural, in showing us how to use our adult feelings as the fuel for living our destiny as creators of sustainable culture. Choosing numbness was probably unconscious for most of us. But, Callahan is committed to showing us, step by step, in this moment, how we can change the mind and learn to consciously feel.
