

The Woman Of Colour

Candi Williams

The Woman of Colour Lyndon J. Dominique, 2007-10-24 *The Woman of Colour* is a unique literary account of a black heiress' life immediately after the abolition of the British slave trade. Olivia Fairfield, the biracial heroine and orphaned daughter of a slaveholder, must travel from Jamaica to England, and as a condition of her father's will either marry her Caucasian first cousin or become dependent on his mercenary elder brother and sister-in-law. As Olivia decides between these two conflicting possibilities, her letters recount her impressions of Britain and its inhabitants as only a black woman could record them. She gives scathing descriptions of London, Bristol, and the British, as well as progressive critiques of race, racism, and slavery. The narrative follows her life from the heights of her arranged marriage to its swift descent into annulment and destitution, only to culminate in her resurrection as a self-proclaimed "widow" who flouts the conventional marriage plot. The appendices, which include contemporary reviews of the novel, historical documents on race and inheritance in Jamaica, and examples of other women of colour in early British prose fiction, will further inspire readers to rethink issues of race, gender, class, and empire from an African woman's perspective.

[Women of Color and the Reproductive Rights Movement](#) Jennifer Nelson, 2003-10 Uncover the truth behind the ideas, struggles, and eventual success of Black and Puerto Rican Nationalists regarding key feminist issues of the 1960s, 1970s,

and 1980s While most people believe that the movement to secure voluntary reproductive control for women centered solely on abortion rights, for many women abortion was not the only, or even primary, focus. Jennifer Nelson tells the story of the feminist struggle for legal abortion and reproductive rights in the 1960s, 1970s, and early 1980s through the particular contributions of women of color. She explores the relationship between second-wave feminists, who were concerned with a woman's right to choose, Black and Puerto Rican Nationalists, who were concerned that Black and Puerto Rican women have as many children as possible “for the revolution,” and women of color themselves, who negotiated between them. Contrary to popular belief, Nelson shows that women of color were able to successfully remake the mainstream women's liberation and abortion rights movements by appropriating select aspects of Black Nationalist politics—including addressing sterilization abuse, access to affordable childcare and healthcare, and ways to raise children out of poverty—for feminist discourse.

White Tears Brown Scars Ruby Hamad,2020-10-22 'Powerful and provocative' - Dr. Ibram X. Kendi, author of the Sunday Times bestselling *How to be an Antiracist* 'A MUST read for any white women who consider themselves feminist' - Scarlett Curtis, author of the Sunday Times bestselling *Feminists Don't Wear Pink* 'An explosive and revelatory argument for deconstructing and confronting the entrenched notions of white supremacy and superiority that still reign today.' - Mireille Harper 'How is it that we have been so conditioned to privilege the emotional comfort of white people?' White tears possess a potency that is rarely acknowledged or commented upon, but they have long been used as a dangerous and insidious tool against people of colour, weaponised in order to invoke sympathy and divert blame. Taking us from the slave era, when white women fought in court to keep 'ownership' of their slaves, through centuries of colonialism, when women offered a soft face for brutal tactics, to the modern workplace, in which tears serve as a defense to counter accusations of bias and micro-aggressions, *White Tears/Brown Scars* tells a charged story of white women's active participation in campaigns of oppression. It offers a long-overdue validation of the experiences of women of colour and an urgent call-to-arms in the need for true intersectionality. With rigour and precision, Hamad builds a powerful argument about the legacy of white superiority that we are socialised within, a reality that we must all apprehend in order to fight.

Woman of Color, Daughter of Privilege Kent Anderson Leslie,2010-04-15 This fascinating story of Amanda America Dickson, born the privileged daughter of a white planter and an unconsenting slave in antebellum Georgia, shows how strong-willed individuals defied racial strictures for the sake of family. Kent Anderson Leslie uses the events of Dickson's life to explore the forces driving southern race and gender relations from the days of King Cotton through the Civil War, Reconstruction, and New South eras. Although legally a slave herself well into her adolescence, Dickson was much favored by her father and lived comfortably in his house, receiving a genteel upbringing and education. After her father died in 1885 Dickson inherited most of his half-million dollar estate, sparking off two years of legal battles with white relatives. When the Georgia Supreme Court upheld the will, Dickson became the largest landowner in Hancock County, Georgia, and the

wealthiest black woman in the post-Civil War South. Kent Anderson Leslie's portrayal of Dickson is enhanced by a wealth of details about plantation life; the elaborate codes of behavior for men and women, blacks and whites in the South; and the equally complicated circumstances under which racial transgressions were sometimes ignored, tolerated, or even accepted.

Impossible Purities Jennifer DeVere Brody,1998 Uses work from African-American studies to rethink the status of race in Victorian England.

Women of Color Diane Long Hoeveler,Janet K. Boles,2001-08-30 Beginning in the late 1960s, women's studies scholars worked to introduce courses on the history, literature, and philosophies of women. While these initial efforts were rather general, women's studies programs have started to give increasing amounts of attention to the special concerns of women of color. The topic itself is politically charged, and there is growing awareness that the issues facing women of color are diverse and complex. Expert contributors offer chapters on the major concerns facing women of color in the modern world, particularly in the United States and Latin America. Each chapter treats one or more groups of women who have been underrepresented in women's studies scholarship or have had their experiences misinterpreted, including African Americans, Latina Americans, Asian Americans, and Native Americans. *Women of Color* includes chapters on theories related to race, gender, and identity. One section provides discussions of literature by women of color, including works by such authors as Toni Morrison and Maxine Hong Kingston. The book also focuses on the place of women of color in higher education, including chapters on women of color and the women's studies curriculum, and the role of librarians in shaping women's studies programs.

Transatlantic Women Travelers, 1688-1843 Misty Krueger,2021-03-12 This important new collection explores representations of late seventeenth- through mid-nineteenth-century transatlantic women travelers across a range of historical and literary works. While at one time transatlantic studies concentrated predominantly on men's travels, this volume highlights the resilience of women who ventured voluntarily and by force across the Atlantic—some seeking mobility, adventure, knowledge, wealth, and freedom, and others surviving subjugation, capture, and enslavement. The essays gathered here concern themselves with the fictional and the historical, national and geographic location, racial and ethnic identities, and the configuration of the transatlantic world in increasingly taught texts such as *The Female American* and *The Woman of Colour*, as well as less familiar material such as Merian's writing on the insects of Surinam and Falconbridge's travels to Sierra Leone. Intersectional in its approach, and with an afterword by Eve Tavor Bannet, this essential collection

will prove indispensable as it provides fresh new perspectives on transatlantic texts and women's travel therein across the long eighteenth century.

Women of Color, 2007-05 Women of Color is a publication for today's career women in business and technology.

Handbook of the British Novel in the Long Eighteenth Century Katrin Berndt, Alessa Johns, 2022-07-18 The handbook offers a comprehensive introduction to the British novel in the long eighteenth century, when this genre emerged to develop into the period's most versatile and popular literary form. Part I features six systematic chapters that discuss literary, intellectual, socio-economic, and political contexts, providing innovative approaches to issues such as sense and sentiment, gender considerations, formal characteristics, economic history, enlightened and radical concepts of citizenship and human rights, ecological ramifications, and Britain's growing global involvement. Part II presents twenty-five analytical chapters that attend to individual novels, some canonical and others recently recovered. These analyses engage the debates outlined in the systematic chapters, undertaking in-depth readings that both contextualize the works and draw on relevant criticism, literary theory, and cultural perspectives. The handbook's breadth and depth, clear presentation, and lucid language make it attractive and accessible to scholar and student alike.

Liquid Metal Sean Redmond, 2004 This reader brings together a great number of what are regarded to be the 'seminal' essays that have opened up the study of science fiction to serious critical interrogation. It includes key essays by writers such as J.P. Telotte, Susan Sontag and Peter Biskind.

Photography on the Color Line Shawn Michelle Smith, 2004-06-07 DIVAn exploration of the visual meaning of the color line and racial politics through the analysis of archival photographs collected by W.E.B. Du Bois and exhibited at the Paris Exposition of 1900./div

Building Inclusion Marsha Ramroop, 2024-08-30 Building Inclusion: A Practical Guide to Equity, Diversity and Inclusion in Architecture and the Built Environment is just that - a manual to support and provide essential guidance to the profession on these key issues. Acknowledging that the existence of EDI procedures does not necessarily ensure their use, it focuses on demonstrating behaviours that help create, implement and enforce policies, procedures and practices to deliver inclusion. Written by Marsha Ramroop, former inaugural EDI Director at the RIBA and award-winning EDI strategist, the book targets the pain points of talent attraction and retention, public sector procurement, community engagement and inclusive design. It utilises case studies from organisations across the sector and the world with successful EDI practices, as well as testimonials of lived experiences of discrimination which provide important insight to the reader. The book takes an intersectional approach, considering not just the separate identities of race, ethnicity, nationality, age, gender and sexual identity, disability, neurodiversity and class but the overlap of these. Clearly written and accessible, with key points at the end of each chapter, this book is essential reading for those in the profession seeking to implement EDI practices in their work and

workplace.
