*Anthology of Medieval Literature* Rebecca Berg Manor, 2013-08-01 Beautiful Feet Books' *Anthology of Medieval Literature* traces the development of thought and culture in Europe from the fourth century up through the 1300s. Beginning with excerpts from Augustine's *Confessions* and culminating with selections from Dante's *Divine Comedy*, students will trace medieval culture from the beginnings of Christendom to the Age of Exploration. Selections from major works such as *The Song of Roland*, *Marco Polo's Book of Wonders*, and *The Deeds of Charlemagne* are included along with poems, creeds, hymns, and selections from medieval thinkers like Peter Abelard and Thomas Aquinas. For use with Beautiful Feet Books' *Literature Approach to Medieval History* study guide, this anthology will provide high school level students with an introductory survey of some of the greatest literary works of western civilization.

*Mobility, Spatiality, and Resistance in Literary and Political Discourse* Christian Beck, 2021-11-11 *Mobility, Space, and Resistance: Transformative Spatiality in Literary and Political Discourse* draws from various disciplines—such as geography, sociology, political science, gender studies, and poststructuralist thought—to posit the productive capabilities of literature in political action and at the same time show how literary art can resist the imposition and domination of oppressive systems of our spatial lives. The various approaches, topics, and types of literature discussed in this volume display a concern for social issues that can be addressed in and through literature. The essays address social injustice, oppression, discrimination, and their spatial representations. While offering interpretations of literature, this collection seeks to show how literary spaces contribute to understanding, changing, or challenging physical spaces of our lived world.

**Christian Animism** Shawn Sanford Beck, 2015-05-29 Come follow the Cosmic Christ on the path of the green priesthood, deep into the heart of a living web of Divine Creation. Christian animism, for many, can suggest nothing more than crude syncretism, or a blasphemous oxymoron. In this book the author challenges that view, from his own experiences and reflections, and those of many who find themselves on the fringes of church and society. He also searches out the fertile places of his own Christian tradition, seeking to hear a Word of healing for our Earth, a Word of grace for the trees and the animals, and a Word of invitation back to the garden of Creation, our once and future home.

**Local Quantum Measurement and Relativity** Christian Beck, 2021-08-17 This book treats various aspects of the quantum theory of measurement, partially in a relativistic framework. Measurement(-like) processes in quantum theory are

identified and analysed; and the quantum operator formalism is derived in full generality without postulating operators as observables. Consistency conditions are derived, expressing the requirement of Lorentz-frame independence of outcomes of spacelike separated measurements and implying the impossibility of using quantum nonlocality to send signals faster than light. Local commutativity is scrutinized. The localization problem of relativistic quantum theory is studied, including comprehensive derivation of the theorems of Hegerfeldt, Malament and Reeh-Schlieder. Finally, the quantum formalism is derived from the dynamics of particles with definite positions in Bohmian mechanics.

**Spatial Resistance** Christian Beck, 2019-01-11 *Spatial Resistance: Literary and Digital Challenges to Neoliberalism* utilizes various literary and digital artifacts to show the potential and possibility of changing the ways we consider the spaces we inhabit. As many spaces become increasingly privatized and policed, it is necessary to contemplate ways in which corporate and state-controlled spaces can not only be subverted but fundamentally changed to embrace the diverse lived experiences of all peoples. Through an analysis of fictional and virtual spaces, readers will be able to identify new ways to institute spatial change in everyday spatial lives in an effort to promote more democratic and equal experiences. While this book uses primarily the philosophy of Gilles Deleuze and Félix Guattari to engender change, it also provides practical examples to amend, change, or update the actions to suit particular needs and spaces. This book shows that radical politics and the possibility of significant change can reside in just about any object or narrative; it is the responsibility of the individual to take up the task of creating social change premised on equality, liberty, and solidarity.

**Unclean** Richard Beck, 2012-05-31 *I desire mercy, not sacrifice. Echoing Hosea, Jesus defends his embrace of the unclean in the Gospel of Matthew, seeming to privilege the prophetic call to justice over the Levitical pursuit of purity. And yet, as missional faith communities are well aware, the tensions and conflicts between holiness and mercy are not so easily resolved. In an unprecedented fusion of psychological science and theological scholarship, Richard Beck describes the pernicious (and largely unnoticed) effects of the psychology of purity upon the life and mission of the church.*

**Warrior Princess** Kristin Beck, Anne Speckhard, 2013 *Chris Beck played high school football. He bought a motorcycle, much to his mother's dismay, at age 17. He grew up to become a U.S. Navy SEAL, serving our country for twenty years on thirteen deployments, including seven combat deployments, and ultimately earned a Purple Heart and the Bronze Star. To everyone who saw him, he was a hero. A warrior. A man. But underneath his burly beard, Chris had a secret, one that had been buried deep inside his heart since he was a little boy—one as hidden as the panty hose in the back of his drawer. He was transgender, and the woman inside needed to get out. This is the journey of a girl in a man's body and her road to self-actualization as a woman amidst the PTSD of war, family rejection and our society's strict gender rules and perceptions. It is about a fight to be free inside one's own body, a fight that requires the strength of a Warrior Princess. Kristin's story of boy to woman explores the tangled emotions of the transgender experience and opens up a new dialogue about being male or*

female: Is gender merely between your legs or is it something much bigger?

*Luminous* T. David Beck, 2013-09-24 When pastor David Beck went to Haiti with a ministry team he found himself deeply experiencing the power of being Christ's own hands and feet. *Luminous* explores what it means to live out the reality of the incarnation, emphasizing the purpose, presence, power and peace Christ offers us and we in turn extend to the world.

**Thermodynamics of Chaotic Systems** Christian Beck, Friedrich Schögl, 1993-07 This book deals with the various thermodynamic concepts used for the analysis of nonlinear dynamical systems. The most important invariants used to characterize chaotic systems are introduced in a way that stresses the interconnections with thermodynamics and statistical mechanics. Among the subjects treated are probabilistic aspects of chaotic dynamics, the symbolic dynamics technique, information measures, the maximum entropy principle, general thermodynamic relations, spin systems, fractals and multifractals, expansion rate and information loss, the topological pressure, transfer operator methods, repellers and escape. The more advanced chapters deal with the thermodynamic formalism for expanding maps, thermodynamic analysis of chaotic systems with several intensive parameters, and phase transitions in nonlinear dynamics.

Reviving Old Scratch Richard Beck, 2016-06-03 The devil has fallen on hard times. Surveys say that even the majority of Christians doubt Satan's existence. Burdened by doubts, skeptical believers find themselves divorced from Jesus' dramatic confrontation with Satan in the Gospels and from the struggle that galvanized the early church. In *Reviving Old Scratch*, popular blogger and theologian Richard Beck reintroduces the devil to the modern world with a biblical, bold, and urgent vision of spiritual warfare: we must resist the devil by joining the kingdom of God's subversive campaign to interrupt the world with love. Beck shows how conservative Christians too often overspiritualize the devil and demons, and progressive Christians reduce these forces to social justice issues. By understanding evil as a very real force in the world, we are better able to name it for what it is and thus to combat it as Jesus did. Beck's own work in a prison Bible study and at a church for recovering addicts convinced him to take Satan more seriously, and they provide compelling illustrations as he challenges the contemporary and strangely safe versions of evil forces. The beliefs of liberals and conservatives alike will be tested by Beck's groundbreaking ideas, fascinating stories, and clear thinking. Because if Jesus took Satan seriously, says Beck, then so should we. Winner of the 2017 Book of the Year Award from The Academy of Parish Clergy!

**Understand Your Bible** John A. Beck,2011-04-01 Overwhelmed by God's Word? Then read *Understand Your Bible*, and see how the historical, geographic, literary, and other contexts of scripture can clarify what you study. This brand-new guide from Barbour—following in the footsteps of the popular *How to Study Your Bible* and *Know Your Bible*—is designed to remove obstacles to understanding, giving you a greater desire for and success in daily Bible reading. Author John A. Beck, a 2010 ECPA Christian Book Award finalist, will show you solutions to the roadblocks that keep many people from regularly reading and understanding scripture.

**Two Views on Women in Ministry** Zondervan,2010-02-23 The role of women in positions of worship and church leadership is one of the most divisive and inconclusive biblical debates. *Two Views on Women in Ministry* furnishes you with a clear and thorough presentation of the two primary exegetical arguments so you can better understand each one's strengths, weaknesses, and complexities. Egalitarian - equal ministry opportunity for both genders (represented by Linda L. Belleville and Craig S. Keener) Complementarian - men and women fill distinctive ministry roles (represented by Craig L. Blomberg and Thomas R. Schreiner) This revised edition brings the exchange of ideas and perspectives into the traditional Counterpoints format. Each author states his or her case and is then critiqued by the other contributors. The fair-minded, interactive Counterpoints forum allows you to compare and contrast the two different positions and form your own opinion concerning the practical and often deeply personal subject of women in ministry. The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own, educated opinion.

Clusters in Nuclei Christian Beck,2010-09-09 Following the pioneering discovery of alpha clustering and of molecular resonances, the field of nuclear clustering is presently one of the domains of heavy-ion nuclear physics facing both the greatest challenges and opportunities. After many summer schools and workshops, in particular over the last decade, the community of nuclear molecular physics decided to team up in producing a comprehensive collection of lectures and tutorial reviews covering the field. This first volume, gathering seven extensive lectures, covers the follow topics: \* Cluster Radioactivity \* Cluster States and Mean Field Theories \* Alpha Clustering and Alpha Condensates \* Clustering in Neutron-rich Nuclei \* Di-neutron Clustering \* Collective Clusterization in Nuclei \* Giant Nuclear Molecules By promoting new ideas and developments while retaining a pedagogical nature of presentation throughout, these lectures will both serve as a reference and as advanced teaching material for future courses and schools in the fields of nuclear physics and nuclear astrophysics.

*Trains, Jesus, and Murder* Richard Beck,2019-11-05 Saints and sinners, all jumbled up together. That's the genius of Johnny Cash, and that's what the gospel is ultimately all about. Johnny Cash sang about and for people on the margins. He

famously played concerts in prisons, where he sang both murder ballads and gospel tunes in the same set. It's this juxtaposition between light and dark, writes Richard Beck, that makes Cash one of the most authentic theologians in memory. In *Trains, Jesus, and Murder*, Beck explores the theology of Johnny Cash by investigating a dozen of Cash's songs. In reflecting on Cash's lyrics, and the passion with which he sang them, we gain a deeper understanding of the enduring faith of the Man in Black.

Beck on Mithraism Roger Beck, 2020-11-25 Roger Beck, a world authority on Mithraism, brings together his major writings on the Mysteries of Mithras in the context of the culture and religions of imperial Rome. In these studies he opens new vistas on myth making, ritual, symbolism, the role of astrology in the cult, recently discovered Mithraic monuments and artefacts, and the emergence of Mithraism and Christianity concurrently in the first century. Beck offers new introductions to his thematically framed groups of writings and adds six entirely new essays published here for the first time. These essays link his research to contemporary studies in cognitive science of religion and anthropology of religion. This collection will appeal particularly to scholars exploring contemporary aspects in anthropology of religion, astronomy and astrology, cults and myths, images and symbols, as well as traditional scholars of Greco-Roman antiquity and Christian origins.

**Histories of the Normal and the Abnormal** Waltraud Ernst, 2006-09-27 This fascinating volume tackles the history of the terms 'normal' and 'abnormal'. Originally meaning 'as occurring in nature', normality has taken on significant cultural gravitas and this book recognizes and explores that fact. The essays engage with the concepts of the normal and the abnormal from the perspectives of a variety of academic disciplines - ranging from art history to social history of medicine, literature, and science studies to sociology and cultural anthropology. The contributors use as their conceptual anchors the works of moral and political philosophers such as Canguilhem, Foucault and Hacking, as well as the ideas put forward by sociologists including Durkheim and Illich. With contributions from a range of scholars across differing disciplines, this book will have a broad appeal to students in many areas of history.

*Ancient Christian Wisdom and Aaron Beck's Cognitive Therapy* Alexis Trader, 2012-09 *Ancient Christian Wisdom and Aaron Beck's Cognitive Therapy* details a colorful journey deep into two seemingly disparate worlds united by a common insight into the way our thinking influences our emotions, behaviors, and ultimately our lives. In this innovative study about mental and spiritual health, readers are not only provided with a thorough introduction to the elegant theory and practical techniques of cognitive therapy, they are also initiated into the perennial teachings of ascetics and monks in the Greek-speaking East and Latin-speaking West whose powerful writings not only anticipated many contemporary findings, but also suggest unexplored pathways and breathtaking vistas for human growth and development. This groundbreaking

interdisciplinary volume in the art of pastoral counseling, patristic studies, and the interface between psychology and theology will be a coveted addition to the working libraries of pastors and psychologists alike. In addition, it is ideal as a textbook for seminary classes in pastoral theology and pastoral counseling, as well as for graduate courses in psychology dealing with the relationship between psychological models and religious worldviews.
