The Moral Status of Persons ,2021-11-08 The advances in molecular biology and genetics, medicine and neurosciences, in ethology and environmental studies have put the concept of the person firmly on the philosophical agenda. Whereas earlier times seemed to have a clear understanding about the moral implications of personhood and its boundaries, today there is little consensus on such matters. Whether a patient in the last stages of Alzheimer's disease is still a person, or whether a human embryo is already a person are highly contentious issues. This book tackles the issue of personhood and its moral implications head-on. The thirteen essays are representative of the major strands in the current bioethical debate and offer new insights into humanity's moral standing, its foundations, and its implications for social interaction. While most of the essays approach the issue by drawing on the rich intellectual tradition of the West, others offer a cross-cultural perspective and make available for ethical consideration the philosophical resources and the wisdom of the East. The contributors to this book are highly recognized philosophers, ethicists, theologians, and professionals in health care and medicine from East Asia (China, Japan), Europe, and North America. The first part of the book probes the foundations of personhood. Examining critically the main theories on personhood in contemporary philosophy, the authors offer alternatives that better respond to contemporary challenges and their implications for bioethics. The focus of the second part is firmly on the Confucian relational concept of the person and on the social constitution of personhood in traditional Japanese culture. While the essays challenge the individualistic features of personhood in the Western tradition, they lay the foundations for a richer concept that holds great promise for the resolution of moral dilemmas in modern medicine and health care. The third part of the book enters into a dialogue with the Christian tradition and draws on its spiritual heritage in the search for answers to the contemporary challenges to human dignity and value. Its focus is on the Catholic social thought and Lutheran theology. The fourth part addresses the moral status of persons in view of specific issues such as the effects of brain injury, gene therapy, and human cloning on personhood. It extends the scope of research beyond human beings and inquires also into the moral status of animals.

The Socially Responsive Self Larry May,1996-11 Larry May argues that socially responsive individuals need not be self-sacrificing or overly conscientious. According to May, a person's integrity and moral responsibility are shaped and limited not just by conscience but also by socialization and moral support from the communities to which he or she belongs. Applying his theory of responsibility to professional ethics, May contends that current methods of professional socialization should be changed so that professionals are not expected to ignore considerations of personal well-being, family, or community. For instance, lawyers should not place client loyalty above concerns for the common good; doctors should not place the physical well-being of patients above their mental and spiritual well-being; scientists and engineers should not feel obliged to blow the whistle on fraud and corruption unless their professional groups protect them from retaliation. This book should prove provocative reading for philosophers, political scientists, social theorists, professionals of many stripes, and ethicists.

Neopragmatism Joshua Gert,2023 This volume shows the broad value and interest of a flourishing approach to philosophical inquiry: neopragmatism. Five Uneasy Pieces Mark Gibney,2005 In 'Five Uneasy Pieces', Mark Gibney offers an assessment of the role of the US in the wider world, contrasting the policies that have been adopted with those that he argues would constitute a more ethically based relationship with other nations.

Global Justice and Due Process Larry May,2010-12-09 The idea of due process of law is recognised as the cornerstone of domestic legal systems, and in this book Larry May makes a powerful case for its extension to international law. Focussing on the procedural rights deriving from Magna Carta, such as the rights of habeas corpus (not to be arbitrarily incarcerated) and nonrefoulement (not to be sent to a state where harm is likely), he examines the legal rights of detainees, whether at Guantanamo or in refugee camps. He offers a conceptual and normative account of due process within a general system of

global justice, and argues that due process should be recognised as jus cogens, as universally binding in international law. His vivid and compelling study will be of interest to a wide range of readers in political philosophy, political theory, and the theory and practice of international law.

Human Factors and Ergonomics: Syllabus for Indian Universities Vivek Kant, Prathamesh Bachche, Rammohan Maikala, 2024-05-04 As India moves towards the Vision 2047 in a quest for a better future, there is a growing need for the

design of technology and infrastructure to enable well-being, safety, and productivity for Indians. Human Factors and Ergonomics is one discipline that supports the well-being of people in terms of design, maintenance, management, regulation, and governance of technology. Due to the lack of disciplinary programs that address the totality of the discipline, there is a need for capacity building in the academic sector for training the next generation of practitioners. Dialectics, Politics, and the Contemporary Value of Hegel's Practical Philosophy Andrew Buchwalter, 2012-11-12 This book explores and details the actuality (Aktualität) of Hegel's social and political philosophy--its relevance, topicality, and contemporary validity. It asserts--against the assumptions of those in a wide range of traditions--that Hegel's thought not only remains relevant to debates in current social and political theory, but is capable of productively enhancing and enriching those debates. The book is divided into three main sections. Part 1 considers the actuality of Hegel's social and political thought in the context of a constructed dialogues with later social and political theorists, including Marx, Adorno, Habermas, and Rawls. Part 2 explores Hegel's internal criticism of Enlightenment rationality as well as the unique manner in which his thought reaffirms both the classical tradition of politics and the Christian conception of freedom in order to deepen and further develop our understanding of modernity and modern secularity. Part 3 considers Hegel's contribution to current theorizing about globalization.

Better Living through TV Steven A. Benko, 2022-03-25 Watching television need not be a passive activity or simply for entertainment purposes. Television can be the site of important identity work and moral reflection. Audiences can learn about themselves, what matters to them, and how to relate to others by thinking about the implicit and explicit moral messages in the shows they watch. *Better Living through TV: Contemporary TV and Moral Identity Formation* analyzes the possibility of identifying and adopting moral values from television shows that aired during the latest Golden Era of television and Peak TV. The diversity of shows and approaches to moral becoming demonstrate how television during these eras took advantage of new technologies to become more film-like in both production quality and content. The increased depth of characterization and explosion of content across streaming and broadcast channels gave viewers a diversity of worlds and moral values to explore. The possibility of finding a moral in the stories told on popular shows such as *The Sopranos*, *Breaking Bad*, *The Wire*, and *The Good Place*, as well as lesser known shows such as *Letterkenny* and *The Unicorn*, are explored in a way that centers television viewing as a site for moral identity formation.

Elder Mistreatment Tanya F Johnson, 1995-11-08 In this guidebook, authors from various disciplines distinguish conflicts

in ethical issues among elder abuse victims, precipitators, and professional care providers and propose ways to address these differences. *Elder Mistreatment: Ethical Issues, Dilemmas, and Decisions* identifies key differences and similarities in professional ethical protocols and shows how differences may be addressed to achieve consensus in ethical decisionmaking. For some time now, helping professionals involved with cases of elder abuse have recognized the need to begin a dialogue on applying ethical principles to practice. The subject of ethics, while always a part of services, has been difficult to articulate in practice because its roots come from principles of belief rather than objective, absolute criteria. For this reason, professionals have erred on the side of practice methods rather than the deeper issues of values protocols for clients and professionals. *Elder Mistreatment* raises the question of how to identify ethical values and their starting points among all parties in the elder abuse situation, determine whether dilemmas may arise with competing values, and initiate moves toward consensus. Professionals from the fields of medicine, social work, law, religion, and ethics review three cases of mistreatment, identify the ethical values, issues, and dilemmas as they relate to both the client/patient and their particular profession. In this way, the reader can compare the similarities and differences among professional starting points. The final chapter in this book, written by a medical ethicist, describes how members from different professions working as a multidisciplinary team might be able to integrate differing perceptions of the dilemmas into greater consensus in the process of ethical decisionmaking in cases of elder mistreatment. Throughout the case studies and chapters, these topics are covered in depth: communicative ethics autonomy beneficence non-maleficence justice community-based multidisciplinary care legal competence clinical competence Readers at all levels in the following fields will benefit from this guidebook: social workers, physicians, nurses, allied health professionals, psychologists, therapists, psychiatrists, clergy, lawyers, paralegals, and ethicists.
