**Translanguaging for Emergent Bilinguals** Danling Fu,Xenia Hadjioannou,Xiaodi Zhou,2019-02-22 Translanguaging for Emergent Bilinguals is a thorough examination of the development, evolution, and current realities of educating emergent bilinguals in U.S. classrooms. Through engaging vignettes, readers follow the experiences of emergent bilinguals in a variety of monolingual settings, tracing the challenges encountered by both the students and the schools that serve them. The authors argue that the future of emergent bilingual education lies in an inclusive translanguaging pedagogy. By embracing home languages and cultures, this approach nurtures the development of multiple literacies, enabling individuals to thrive academically, socially, linguistically, and intellectually. The text begins by showing how the authors evolved from monolingual language educators to translanguaging educators and ends with concrete takeaways for successfully using this approach in different education settings. “This book offers an uplifting alternative view of the lives and education of language-minoritized students. The authors present here a practice-based approach to translanguaging for all types of teachers of emergent bilinguals.” —From the Foreword by Ofelia García, The Graduate Center, City University of New York “A fascinating volume offering practical as well as theoretical insights into translanguaging pedagogy.” —Li Wei, UCL Institute of Education, University College London “Contributes significantly to our understanding of the nature of translanguaging and its potential to transform the education of emergent bilingual students.” —James Cummins, University of Toronto

**Dual Language Education: Teaching and Leading in Two Languages** David E. DeMatthews, Elena Izquierdo, 2019-05-13 This book provides a comprehensive and interdisciplinary examination of dual language education for Latina/o English language learners (ELLs) in the United States, with a particular focus on the state of Texas and the U.S.-Mexico border. The book is broken into three parts. Part I examines how Latina/o ELLs have been historically underserved in public schools and how this has contributed to numerous educational inequities. Part II examines bilingualism, biliteracy, and dual language education as an effective model for addressing the inequities identified in Part I. Part III examines research on dual language education in a large urban school district, a high-performing elementary school that serves a high proportion of ELLs along the Texas-Mexico border, and best practices for principals and teachers. This volume explores the potential and realities of dual language education from a historical and social justice lens. Most importantly, the book shows how successful programs and schools need to address and align many related aspects in order to best serve emergent bilingual Latino/as: from preparing teachers and administrators, to understanding assessment and the impacts of financial inequities on bilingual learners. **Transforming Schooling for Second Language Learners** Mariana Pacheco,P. Zitlali Morales,Colleen Hamilton,2019-02-01 The purpose of *Transforming Schooling for Second Language Learners: Theoretical Insights, Policies, Pedagogies, and Practices* is to bring together educational researchers and practitioners who have implemented, documented, or examined policies, pedagogies, and practices in and out of classrooms and in real and virtual contexts that are in some way transforming what we know about the extent to which emergent bilinguals (EBs) learn and achieve in educational settings. In the following chapters, scholars and researchers identify both (1) the current state of schooling for EBs, from their perspective, and (2) the particular ways that policies, pedagogies, and/or practices transform schooling as it currently exists for EBs in discernible ways based on their scholarship and research. Drawing on current and seminal research in fields including second language acquisition, applied linguistics, sociolinguistics, and educational linguistics, contributing authors draw on complementary theoretical, methodological, and philosophical frameworks that attend to the social, cultural, political, and ideological dimensions of being and becoming bi/multilingual and bi/multiliterate in schools and in the United States. In sum, we are deeply committed to asserting hope, possibility, and potential to discussions and

discourses about bi/multilingual students. We value the urgency around improving the conditions, experiences, and circumstances in which they are learning languages and academic content. Our aim is to highlight perspectives, conceptualizations, orientations, and ideologies that disrupt and contest legacies of deficit thinking, linguistic purism, language standardization, and racism and the racialization of ethnolinguistic minorities.

Challenges for Language Education and Policy Bernard Spolsky, Ofra Inbar-Lourie, Michal Tannenbaum, 2014-09-15 Addressing a wide range of issues in applied linguistics, sociolinguistics, and multilingualism, this volume focuses on language users, the 'people.' Making creative connections between existing scholarship in language policy and contemporary theory and research in other social sciences, authors from around the world offer new critical perspectives for analyzing language phenomena and language theories, suggesting new meeting points among language users and language policy makers, norms, and traditions in diverse cultural, geographical, and historical contexts. Identifying and expanding on previously neglected aspects of language studies, the book is inspired by the work of Elana Shohamy, whose critical view and innovative work on a broad spectrum of key topics in applied linguistics has influenced many scholars in the field to think

“out of the box” and to reconsider some basic commonly held understandings, specifically with regard to the impact of language and languaging on individual language users rather than on the masses.

Educating Emergent Bilinguals Ofelia García, Jo Anne Kleifgen, 2010 This comprehensive and insightful book shows how present educational policies and practices to educate language minority students in the United States ignore an essential characteristic their emergent bilingualism. What makes this book truly useful is that it offers a thorough description of alternative practices that would transform our schools and students futures, such as building on students home languages and literacy practices in schools, curricular and pedagogical innovations, new approaches to parent and community engagement, and adoptive assessment tools.
