Graham Hancock

Magicians of the Gods Graham Hancock, 2016-08-11 TV presenter Graham Hancock's multi-million bestseller *Fingerprints of the Gods* remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with a book filled with completely new, scientific and archaeological evidence, which has only recently come to light... The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometres of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. But there were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the sphinx and the pyramids of Egypt, warns that the 'Great Return' will occur in our time...

Fingerprints of the Gods Graham Hancock, 2012-09-19 Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock

presents a compelling case to suggest that it is. Graham Hancock is featured in *Ancient Apocalypse*, a Netflix original docuseries. “A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought.”—Kirkus Reviews In *Fingerprints of the Gods*, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind’s hidden past. In ancient monuments as far apart as Egypt’s Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico’s awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And *Fingerprints of God* tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. “Readers will hugely enjoy their quest in these pages of inspired storytelling.”—The Times (UK)

Supernatural Graham Hancock, 2010-12-07 From the bestselling author of Fingerprints of the Gods, and creator of the explosive Netflix series, Ancient Apocalypse _____ 'Supernatural: of or relating to things that cannot be explained according to natural laws.' 'As gripping as any thriller' New Statesman 'Provocative and fascinating' Daily Mail _____ Less than 50,000 years ago mankind had no art, no religion, no sophisticated symbolism, no innovative thinking. Then, in a dramatic and electrifying change, described by scientists as the greatest riddle in human history, all the skills and qualities that we value most highly in ourselves appeared already fully formed, as though bestowed on us by hidden powers. Graham Hancock sets out to investigate this mysterious before-and-after moment and to discover the truth about the influences that gave birth to the modern human mind. His quest takes him on a journey of adventure from the stunningly beautiful painted caves of prehistoric France, Spain and Italy to remote rock shelters in the mountains of South Africa where he finds a treasure trove of extraordinary Stone Age art, ending in the depths of the Amazon rainforest, where he drinks the powerful plant hallucinogen Ayahuasca with Indian shamans, whose paintings contain images of supernatural beings identical to the animal-human hybrids depicted in prehistoric caves and rock shelters. Could these supernaturals be the ancient teachers of mankind? And is human evolution in fact more purposeful and intelligent than we have barely even begun to understand? _____ 'A welcome exploration and celebration of the mystery inside our skulls' Guardian 'Extraordinary' Daily Express 'Intelligent and articulate . . . his writing is as expert as you would expect from an esteemed international correspondent' Scotsman 'Hancock's most important book . . . Quite stunning'

The Dawn of Christianity Robert Knapp,2017-08-14 Ordinary people of antiquity interacted with the supernatural through a mosaic of beliefs and rituals. Exploring everyday life from 200 BCE to the end of the first century CE, Robert Knapp shows that Jews and polytheists lived with the gods in very similar ways. Traditional interactions provided stability even in times of crisis, while changing a relationship risked catastrophe for the individual, his family, and his community. However, people in both traditions did at times leave behind their long-honored rites to try something new. The Dawn of Christianity reveals why some people in Judea and then in the Roman and Greek worlds embraced a new approach to the forces and powers in their daily lives. Knapp traces the emergence of Christianity from its stirrings in the eastern Mediterranean, where Jewish monotheism coexisted with polytheism and prayer mixed with magic. In a time receptive to prophetic messages and supernatural interventions, Jesus of Nazareth convinced people to change their beliefs by showing, through miracles, his direct connection to god-like power. The miracle of the Resurrection solidified Jesus's supernatural credentials. After his death, followers continued to use miracles and magic to spread Jesus's message of reward for the righteous in this life and immortality in the next. Many Jews and polytheists strongly opposed the budding movement but despite major setbacks Christianity proved resilient and adaptable. It survived long enough to be saved by a second miracle, the conversion of Emperor Constantine. Hand in hand with empire, Christianity began its long march through history.

Keeper of Genesis Robert Bauval,Graham Hancock,1997 In Keeper of Genesis, Robert Bauval and Graham Hancock present a tour de force of historical and scientific detective work and answer the following questions- When and where did

history begin? When was the genesis of civilisation in Egypt? How and why were the Great Sphinx and the three pyramids of Giza designed to serve as parts of an immense three-dimensional model of the sky of 'First Time'? What is contained in the rectangular chamber that seismic surveys have located in the bedrock far below the paws of the sphinx? What lies behind the mysterious doors recently discovered at the end of a previously unexplored shaft inside the Great Pyramid? And does mankind have a rendezvous with destiny - a rendezvous not in the future, but in the distant past - at a precise place and time? Using sophisticated computer simulations of the ancient skies to crack the millennial code that the monuments transcribe, Bauval and Hancock set out a startling new theory concerning the Pyramid Texts and other archaic Egyptian scriptures.

Egyptian Magic Maarten J. Raven, 2012 The ancient Egyptians were firmly convinced of the importance of magic, which was both a source of supernatural wisdom and a means of affecting one's own fate. The gods themselves used it for creating the world, granting mankind magical powers as an aid to the struggle for existence. Magic formed a link between human beings, gods, and the dead. Magicians were the indispensable guardians of the god-given cosmic order, learned scholars who were always searching for the Magic Book of Thoth, which could explain the wonders of nature. *Egyptian Magic*, illustrated with wonderful and mysterious objects from European and Egyptian museum collections, describes how Egyptian sorcerers used their craft to protect the weakest members of society, to support the gods in their fight against evil, and to imbue the dead with immortality, and explores the arcane systems and traditions of the occult that governed this well-organized universe of ancient Egypt.

All of Mexico seems about to fall into his hands until a report comes from the coast of the arrival of a new force of Spaniards with more than three times his numbers, sent not to strengthen him but to attack him and wrest the conquest from him. Faced with the choice of abject surrender or war with fellow Spaniards Cortés chooses war and marches out to do battle but, in so doing he fatally weakens his garrison in Tenochtitlan and throws open the doors of Hell.
