**The Kennel Murder Case** S. S. Van Dine, 2016-01-18 This early work by S. S. Van Dine was originally published in 1933 and we are now republishing it with a brand new introduction. 'The Kennel Murder Case' is one of Van Dine's novels of crime and mystery. S. S. Van Dine was born Willard Huntington Wright in Charlottesville, Virginia in 1888. He attended St. Vincent College, Pomona College and Harvard University, but failed to graduate, leaving to cultivate contacts he had made in the literary world. At the age of twenty-one, Wright began his professional writing career as literary editor of the Los Angeles Times. In 1926, Wright published his first S. S. Van Dine novel, The Benson Murder Case. Wright went on to write eleven more mysteries. The first few books about his upper-class amateur sleuth, Philo Vance, were so popular that Wright became wealthy for the first time in his life. His later books declined in popularity as the reading public's tastes in mystery fiction changed, but during the late twenties and early thirties his work was very successful.

*Australia's Fertility Transition* Helen Moyle, 2020-02-03 In the late 19th and early 20th centuries, most countries in Europe and English-speaking countries outside Europe experienced a fertility transition, where fertility fell from high levels to relatively low levels. England and the other English-speaking countries experienced this from the 1870s, while fertility in Australia began to fall in the 1880s. This book investigates the fertility transition in Tasmania, the second settled colony of Australia, using both statistical evidence and historical sources. The book examines detailed evidence from the 1904 New

South Wales Royal Commission into the Fall in the Birth Rate, which the Commissioners regarded as applying not only to NSW, but to every state in Australia. Many theories have been proposed as to why fertility declined at this time: theories of economic and social development; economic theories; diffusion theories; the spread of secularisation; increased availability of artificial methods of contraception; and changes in the rates of infant and child mortality. The role of women in the fertility transition has generally been ignored. The investigation concludes that fertility declined in Tasmania in the late 19th century in a period of remarkable social and economic transformation, with industrialisation, urbanisation, improvements in transport and communication, increasing levels of education and opportunities for social mobility. One of the major social changes was in the status and role of women, who became the driving force behind the fertility decline.

**Teaching ‘Proper’ Drinking?** Maggie Brady, 2017-12-12 In *Teaching ‘Proper’ Drinking?*, the author brings together three fields of scholarship: socio-historical studies of alcohol, Australian Indigenous policy history and social enterprise studies. The case studies in the book offer the first detailed surveys of efforts to teach responsible drinking practices to Aboriginal people by installing canteens in remote communities, and of the purchase of public hotels by Indigenous groups in attempts both to control sales of alcohol and to create social enterprises by redistributing profits for the community good. Ethnographies of the hotels are examined through the analytical lens of the Swedish ‘Gothenburg’ system of municipal hotel ownership. The research reveals that the community governance of such social enterprises is not purely a matter of good administration or compliance with the relevant liquor legislation. Their administration is imbued with the additional challenges posed by political contestation, both within and beyond the communities concerned. ‘The idea that community or government ownership and management of a hotel or other drinking place would be a good way to control drinking and limit harm has been commonplace in many Anglophone and Nordic countries, but has been less recognised in Australia. Maggie Brady’s book brings together the hidden history of such ideas and initiatives in Australia ... In an original and wide-ranging set of case studies, Brady shows that success in reducing harm has varied between communities, largely depending on whether motivations to raise revenue or to reduce harm are in control.’ — Professor Robin Room, Director, Centre for Alcohol Policy Research, La Trobe University

*California Design, 1930&1965 Living In a Modern Way* Wendy Kaplan, 2011 The first comprehensive examination of California's mid-century modern design, generously illustrated. In 1951, designer Greta Magnusson Grossman observed that California design was not a superimposed style, but an answer to present conditions.... It has developed out of our own preferences for living in a modern way. California design influenced the material culture of the entire country, in everything from architecture to fashion. This generously illustrated book, which accompanies a major exhibition at the Los Angeles County Museum of Art, is the first comprehensive examination of California's mid-century modern design. It begins by tracing the origins of a distinctively California modernism in the 1930s by such European émigrés as Richard Neutra,

Rudolph Schindler, and Kem Weber; it finds other specific design influences and innovations in solid-color commercial ceramics, inspirations from Mexico and Asia, new schools for design training, new concepts about leisure, and the conversion of wartime technologies to peacetime use (exemplified by Charles and Ray Eames's plywood and fiberglass furniture). The heart of California Design is the modern California home, famously characterized by open plans conducive to outdoor living. The layouts of modernist homes by Pierre Koenig, Craig Ellwood, and Raphael Soriano, for example, were intended to blur the distinction between indoors and out. Homes were furnished with products from Heath Ceramics, Van Keppel-Green, and Architectural Pottery as well as other, previously unheralded companies and designers. Many objects were designed to be multifunctional: pool and patio furniture that was equally suitable indoors, lighting that was both task and ambient, bookshelves that served as room dividers, and bathing suits that would turn into ensembles appropriate for indoor entertainment. California Design includes 350 images, most in color, of furniture, ceramics, metalwork, architecture, graphic and industrial design, film, textiles, and fashion, and ten incisive essays that trace the rise of the California design aesthetic.

*The Handbook of Environmental Education* Philip Neal, Joy Palmer, 2003-10-04 First Published in 2004. Young people, in particular, want to learn more about contributing to the conservation of the planet, and formal education is beginning to reflect this. The National Curriculum in England and Wales, for instance, includes environmental education as a compulsory cross-curricular theme, and in Australia and the USA there are similar moves to ensure that all students are given an opportunity to learn in this area. The authors, experienced teachers and teacher educators in primary and secondary schools, here explain what environmental education is and how it can best be implemented at school and classroom level. In this handbook, school heads and curriculum co-ordinators will find advice on establishing a whole school policy and motivating the staff who need to implement it. Class teachers will find practical ideas for planning and assessing environmental education in the whole curriculum context. Throughout the book, case studies drawn from a variety of settings allow teachers to see how environmental education can work for them.

Luxury Arts of the Renaissance Marina Belozerskaya, 2005 *Luxury Arts of the Renaissance* sumptuously illustrates the stunningly beautiful objects that were the most prized artworks of their time, restoring to the mainstream materials and items long dismissed as extravagant trinkets. By re-examining the objects themselves and their uses in their day,

Belozerskaya demonstrates how these glittering creations constructed both the world and the taste of the Renaissance elites.

**Proud to be a Rebel** Pam Young,1991

**Blue Flames, Black Gold** Kristin Weidenbach,2014 Blue Flames, Black Gold is a story of persistence. It's the intrepid wildcatters who ventured into Australia's dead heart and took a punt on drilling an oil well in virgin territory. It's the young Adelaide lawyer who dared to dream, and those on the sidelines who watched and scoffed. It's two school chums who started an exploration company amidst the oil fervour of 1954--a company that, 60 years later, would be the biggest company in South Australia. The history of Santos covers the excitement of exploration and discovery in the 1950s and '60s, the boardroom tussles and political wrangles of the 1970s and '80s, and the rise of technological developments in the new millennium. It tells the tale of an industrial township that forms in the remote Australian outback; of Alan Bond's controversial stock market deal which led to the South Australian government capping shareholdings for 28 years; the construction of the 1,100-km Moomba-to-Sydney pipeline bringing natural gas to Sydney for the first time; and the birth of the Coal Seam Gas industry. Blue Flames, Black Gold is not just the story of South Australia's biggest company but a story that encompasses the social and political history of the state and Australia's transition to the new energy sources of the future. It is the story of pioneers exploring new frontiers. It is a story of faith and vision and perseverance.

**Loose Units** Paul F. Verhoeven,2018-07-30 Paul Verhoeven's father, John, is a cop. Well, an ex-cop. Long since retired, John spent years embroiled in some of the seediest, scariest intrigue and escapades imaginable. Paul, however, is something of an artsy, sensitive soul who can't understand why he doesn't have the same heroism and courage as his dad. One day, John

offers Paul the chance of a lifetime: he'll spill his guts, on tape, for the first time ever, and try to get to the bottom of this difference between them. What unfolds is a goldmine of true-crime stories, showing John's dramatic (and sometimes dodgy) experience of policing in Sydney in the 1980s. The crims, the car chases, the frequent brushes with death and violence, and the grey zone between what's ethical and what's effective: finally Paul gets real insight into what's formed his father's character. Thrilling, fascinating and often laugh-out-loud funny, Loose Units is a high-octane adventure in policing, integrity and learning what your father is really all about.
