

Reporting War How Foreign Correspondents Risked Capture Torture And Death To Cover World War Ii

Reporting World War II G. Kurt Piehler, Ingo Trauschweizer, 2023-04-25 This set of essays offers new insights into the journalistic process and the pressures American front-line reporters experienced covering World War II. Transmitting stories through cable or couriers remained expensive and often required the cooperation of foreign governments and the American armed forces. Initially, reporters from a neutral America documented the early victories by Nazi Germany and the Soviet invasion of Finland. Not all journalists strove for objectivity. During her time reporting from Ireland, Helen Kirkpatrick remained a fierce critic of that country's neutrality. Once the United States joined the fight after the Japanese attack on Pearl Harbor, American journalists supported the struggle against the Axis powers, but this volume will show that reporters, even when members of the army sponsored newspaper, Stars and Stripes were not mere ciphers of the official line. African American reporters Roi Ottley and Ollie Stewart worked to bolster the morale of Black GIs and undermined the institutional racism endemic to the American war effort. Women front-line reporters are given their due in this volume examining the struggles to overcome gender bias by describing triumphs of Thérèse Mabel Bonney, Iris Carpenter, Lee Carson, and Anne Stringer. The line between public relations and journalism could be a fine one as reflected by the U.S. Marine Corps' creating its own network of Marine correspondents who reported on the Pacific island campaigns and had their work published by American media outlets. Despite the pressures of censorship, the best American reporters strove for accuracy in reporting the facts even when dependent on official communiqués issued by the military. Many wartime reporters, even when covering major turning points, sought to embrace a reporting style that recorded the experiences of average soldiers. Often associated with Ernie Pyle and Bill Mauldin, the embrace of the human-interest story served as one of the enduring legacies of the conflict. Despite the importance of American war reporting in shaping perceptions of the war on the home front as well as shaping the historical narrative of the conflict, this work underscores how there is more to learn. Readers will gain from this work a new appreciation of the contribution of American journalists in writing the first version of history of the global struggle against Nazi Germany, imperial Japan, and fascist Italy.

Reporting War Ray Moseley, 2017-02-21 This "excellent, wonderfully-researched" chronicle of WWII journalism explores

the lives and work of embedded reporters across every theater of war (Chris Ogden, former Time magazine bureau chief in London). Luminary journalists Ed Murrow, Martha Gellhorn, Walter Cronkite, and Clare Hollingworth were among the young reporters who chronicled World War II's daily horrors and triumphs for Western readers. In *Reporting War*, fellow foreign correspondent Ray Moseley mines their writings to create an exhilarating parallel narrative of the war effort in Europe, Pearl Harbor, North Africa, and Japan. This vivid history also explores the lives, methods, and motivations of the courageous journalists who doggedly followed the action and the story, often while embedded in the Allied armies. Moseley's sweeping yet intimate history draws on newly unearthed material to offer a comprehensive account of the war. *Reporting War* sheds much-needed light on an abundance of individual stories and overlooked experiences, including those of women and African-American journalists, which capture the drama as it was lived by reporters on the front lines of history.

Reporting War and Conflict Janet Harris, Kevin Williams, 2018-10-03 *Reporting War and Conflict* brings together history, theory and practice to explore the issues and obstacles involved in the reporting of contemporary war and conflict. The book examines the radical changes taking place in the working practices and day-to-day routines of war journalists, arguing that managing risk has become central to modern war correspondence. How individual reporters and news organisations organise their coverage of war and conflict is increasingly shaped by a variety of personal, professional and institutional risks. The book provides an historical and theoretical context to risk culture and the work of war correspondents, paying particular attention to the changing nature of technology, organisational structures and the role of witnessing. The conflicts in Iraq, Afghanistan and Syria are examined to highlight how risk and the calculations of risk vary according to the type of conflict. The focus is on the relationship between propaganda, censorship, the sourcing of information and the challenges of reporting war in the digital world. The authors then move on to discuss the arguments around risk in relation to gender and war reporting and the coverage of death on the battlefield. *Reporting War and Conflict* is a guide to the contemporary changes in warfare and the media environment that have influenced war reporting. It offers students and researchers in journalism and media studies an invaluable overview of the life of a modern war correspondent.

A New History of War Reporting Kevin Williams, 2019-12-23 This book takes a fresh look at the history of war reporting to understand how new technology, new ways of waging war and new media conditions are changing the role and work of today's war correspondent. Focussing on the mechanics of war reporting and the logistical and institutional pressures on correspondents, the book further examines the role of war propaganda, accreditation and news management in shaping the evolution of the specialism. Previously neglected conflicts and correspondents are reclaimed and wars considered as key moments in the history of war reporting such as the Crimean War (1854-56) and the Great War (1914-18) are re-evaluated. The use of objectivity as the yardstick by which to assess the performance of war correspondents is questioned. The emphasis is instead placed on war as a messy business which confronts reporters and photographers with conditions that

challenge the norms of professional practice. References to the 'demise of the war correspondent' have accompanied the growth of the specialism since the days of William Howard Russell, the so-called father of war reporting. This highlights the fragile nature of this sub-genre of journalism and emphasises that continuity as much as change characterises the work of the war correspondent. A thematically organised, historically rich introduction, this book is ideal for students of journalism, media and communication.

The Price of Truth Richard Fine, 2023-04-15 In *The Price of Truth*, Richard Fine recounts the intense drama surrounding the German surrender at the end of World War II and the veteran Associated Press journalist Edward Kennedy's controversial scoop. On May 7, 1945, Kennedy bypassed military censorship to be the first to break the news of the Nazi surrender executed in Reims, France. Both the practice and the public perception of wartime reporting would never be the same. While, at the behest of Soviet leaders, Allied authorities prohibited release of the story, Kennedy stuck to his journalistic principles and refused to manage information he believed the world had a right to know. No action by an American correspondent during the war proved more controversial. The Paris press corps was furious at what it took to be Kennedy's unethical betrayal; military authorities threatened court-martial before expelling him from Europe. Kennedy defended himself, insisting the news was being withheld for suspect political reasons unrelated to military security. After prolonged national debate, when the dust settled, Kennedy's career was in ruins. This story of Kennedy's surrender dispatch and the meddling by Allied Command, which was already being called a fiasco in May 1945, revises what we know about media-military relations. Discarding Good War nostalgia, Fine challenges the accepted view that relations between the media and the military were amicable during World War II and only later ran off the rails during the Vietnam War. *The Price of Truth* reveals one of the earliest chapters of tension between reporters committed to informing the public and generals tasked with managing a war.

American Journalists in Hitler's Germany Norman Domeier, 2025 The first book to critically examine American journalists' and media companies' roles in Hitler's Germany, reigniting the debate on the relationship between political power and the media. Despite Hitler's international use of propaganda, and despite the power of the US press, historians have neglected American journalists' activity in Nazi Germany. American media companies expanded their presence in Germany after 1933, and the Associated Press (AP) conducted business with Hitler's regime throughout the war. Norman Domeier's study, now in English, is the first to examine critically and in detail the roles of American journalists and media companies in Hitler's Germany, showing that they knew about but kept secret the plans for rearmament, the occupation of the Rhineland, the annexation of Austria, the invasions of Denmark, Norway, and the Soviet Union. The book documents the companionship between Adolf Hitler and Karl Henry von Wiegand, chief German correspondent of the Hearst press, who was the first and last American to interview him. Most important, it details the secret exchange of news photographs - discovered by Domeier

in 2017 - between the AP and the Nazis from 1942-45. Thousands of AP photos were used in the Nazi press, usually with anti-American or anti-Semitic spin, while the AP distributed ca. 40,000 Nazi photographs to US newspapers. Domeier's book reignites the debate on the relationship between political power and the media, opening up new perspectives on the political and cultural history of journalism beyond one-sided idealizations--

Historical Dictionary of World War II Anne Sharp Wells, 2023-12-15 World War II was the largest and most costly conflict in history, the first true global war. Fought on land, on sea, and in the air, it involved numerous countries and killed, maimed, or displaced millions of people, both civilian and military, around the world. In spite of the alliances that bound many of the same participants, the war was essentially two separate but simultaneous conflicts: one involved Japan as the major antagonist and took place mostly in Asia and the Pacific; and the other, initiated by Germany and Italy, was contested mainly in Europe, North Africa, the Mediterranean, and the Atlantic. This book focuses on the lesser known war, the war with Japan. It begins with Japan's seizure of Manchuria from China in 1931 and covers Japan's ambitious attacks on Pearl Harbor and other territories ten years later, the use of atomic bombs on Japan's cities, and the end of the Allied occupation of Japan in 1952. Although Japan renounced war in its 1947 constitution, conflict continued across Asia, as former colonies fought for independence and civil war engulfed other areas. *Historical Dictionary of World War II: The War Against Japan, Second Edition* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 500 cross-referenced entries on the military, diplomatic, political, social, economic, and scientific aspects of the war, in addition to the lives of the people who participated in and directed the war. This book is an excellent resource for students, researchers, and anyone wanting to know more about the war against Japan during World War II.

The Media Offensive Alexander G. Lovelace, 2022-05-25 World War II was a media war. President Franklin D. Roosevelt used the press to a great extent, of course, but as the war progressed, the media also came to influence commanders' decisions on the battlefield. Rescuing General Douglas MacArthur from the Philippines in deference to public opinion forced the Allies to divide the Pacific War between two competing theaters. Omar Bradley's concern over US public opinion convinced General Dwight D. Eisenhower to include Americans in the final assault against Axis forces in Tunisia. General George S. Patton Jr. raced across Sicily to gain media attention and British respect. General Mark Clark's hunger for publicity and the glory of capturing Rome allowed an entire German army to escape destruction. Negative media pressure and the fear of V-1 bombs damaging British morale provided the impetus for the breakout of Normandy and the unsuccessful attempt to liberate the Netherlands in the fall of 1944. British general Bernard Montgomery's remarks to the press during the Battle of the Bulge almost caused him to lose his command and created tremendous ill feelings among the Allies. Soon afterward, Eisenhower was forced to hold the dangerously exposed city of Strasbourg because of French public opinion. By V-E Day, even Eisenhower was attempting to get more publicity for American, as opposed to Allied, units. The Media

Offensive offers a new way to understand military-media relations during World War II. The press and public opinion shaped not only how the conflict was seen but also how it was fought. Alexander Lovelace demonstrates that the US military repeatedly discovered that the best effects resulted from accurate news stories. Truthful news reporting—defined as news reporting that accurately depicts the events it describes—could not be created by the military or even the media but could only emerge through a free press searching for it. Lovelace recasts World War II in a new and unique fashion by placing media and public opinion at the center of battlefield decision-making. Unlike past scholarship on the media during World War II that focused on censorship, propaganda, or the adventure stories of war correspondents, *The Media Offensive* takes the historiography of war reporting in a new direction. In what could be called “the new history of war reporting,” the focus is switched from how the military controlled reporters to how military decisions were shaped by the press.

Dispatch from Berlin, 1943 Anthony Cooper, Thorsten Perl, 2023-04-01 In December 1943, five courageous correspondents join a British air raid on Berlin. They are Australians, Alf King from the Sydney Morning Herald and Norm Stockton from the Sydney Sun; Americans, Ed Murrow from CBS and Lowell Bennett from the International News Service; and Norwegian journalist and activist, Nordahl Grieg. Each is assigned to one of the 400 Lancaster bombers that fly into the hazardous skies over Germany on a single night. Of the five, only two land back at base to file their stories. After parachuting out of his doomed aircraft, one reporter is taken prisoner. From there his captors take him on a remarkable tour of bombed-out German cities. In *Dispatch from Berlin, 1943*, Anthony Cooper and Thorsten Perl uncover this incredible true story of life on both sides of the war. ‘An extraordinary tale of five brave reporters and their eyewitness accounts of the horrors of aerial warfare during and after a raid on Berlin. A compelling tribute to the 57 205 young men killed while serving with bomber command during the Second World War.’ — Ian McPhedran ‘This book captures the life and death drama that saw five war correspondents, two of them Australian, assigned to RAF Bomber Command to report on the most dangerous campaign of the Second World War — bombing Berlin. Neither they nor the crew knew if they would survive the night. A compelling story of a single raid that has remained untold for too long.’ — Peter Rees ‘A deep, intimate and remarkable story — indeed, a rare personal window into the huge and devastating machinery of the air war over Europe during World War Two. The trials and tribulations of five intrepid journalists is an exciting tale in its own right, but it simultaneously gives a unique keyhole with which to view the tenure and drama of the era. Well-written and equally well-researched, this book is a gem for those with even a passing interest in military history of the Second World War, and scholars of the field alike.’ — Craig Stockings ‘*Dispatch from Berlin, 1943* takes you on a heart-stopping bombing raid over enemy territory as brave allied air crew battle flak, fighters and fate. Told through the eyes of five brave journalists who went with them, this is a remarkable book about the horror and humanity of war.’ — Mark Willacy

Hitler's War in Africa 1941-1942 David Mitchelhill-Green, 2021-08-04 Adolf Hitler’s war in Africa arose from the urgent

need to reinforce the Italian dictator, Benito Mussolini, whose 1940 invasion of Egypt had been soundly beaten. Of secondary importance to his ideological dream of conquering the Soviet Union, Germany's Führer rushed a small mechanised force into the unfamiliar North African theatre to stave off defeat and avert any political fallout. This fresh account begins with the arrival of the largely unprepared German formations, soon to be stricken by disease and heavily reliant upon captured materiel, as they fought a bloody series of see-sawing battles across the Western Desert. David Mitchelhill-Green has gathered a wealth of personal narratives from both sides as he follows the brash exploits of General Erwin Rommel, intent on retaking Libya; the Nile firmly in his sights. Against this backdrop is the brutal human experience of war itself.

Richard Tregaskis Ray E. Boomhower,2021-11-15 In the late summer of 1942, more than ten thousand members of the First Marine Division held a tenuous toehold on the Pacific island of Guadalcanal. As American marines battled Japanese forces for control of the island, they were joined by war correspondent Richard Tregaskis. Tregaskis was one of only two civilian reporters to land and stay with the marines, and in his notebook he captured the daily and nightly terrors faced by American forces in one of World War II's most legendary battles—and it served as the premise for his bestselling book, Guadalcanal Diary. One of the most distinguished combat reporters to cover World War II, Tregaskis later reported on Cold War conflicts in Korea and Vietnam. In 1964 the Overseas Press Club recognized his first-person reporting under hazardous circumstances by awarding him its George Polk Award for his book Vietnam Diary. Boomhower's riveting book is the first to tell Tregaskis's gripping life story, concentrating on his intrepid reporting experiences during World War II and his fascination with war and its effect on the men who fought it.

Invasion On Stephen M Rusiecki,2023-09-15 In Invasion On Stephen M. Rusiecki describes the process of how and why Americans developed a standing narrative of the World War II operation known as D-Day based upon a common, press-enabled, thematically framed narrative. This story of June 6, 1944 is the one which has endured for more than seven decades. How did this early, single narrative of the D-Day landings, hastily though deliberately constructed in real time by America's radio networks and newspapers, come together on 6 June 1944 to become the story of that event in the years and decades after World War II? This version is what has dominated the imaginations and consciousness of Americans ever since. Ultimately, Invasion On explains how America's collective understanding of D-Day—essentially the American D-Day story—was born. The book explores in detail the mechanics of precisely how radio broadcasts and newspapers in the 24-hour period surrounding 6 June 1944 gathered and then communicated facts, images, impressions, attitudes, and meaning that formed for all Americans nearly simultaneously a common narrative organized around four thematic themes. These four themes—the significance and grand scale of the operation, the sacralization of the event, the gifted and talented nature of the Allied senior leaders, and the purity and valor of the average American soldier—would remain fixed in the American consciousness for decades to come in any discussion of June 6, 1944. By addressing the news-making process during D-Day,

Invasion On further explores what information was available to the press; how the press assigned meaning to, or perceived, that information; and what information remained unavailable to the press on 6 June 1944 due to censorship or procedural breakdowns caused by the friction of war. In the end, this book is about the process by which the print and broadcast media constructed a very specific storyline of D-Day in the moment, a narrative that granted D-Day a unique and war-defining status in the minds of the American public or the sort enjoyed by few events in American military history.

Trailblazers of the Press Carmen Andraş, Sonia D. Andraş, 2024-12-18 Published as part of EDERA - The Ethos of Dialogue and Education, streamlining the themes Negotiating between objectivity and stereotypes. American correspondents in Romania (T3) and Embodying the American Feminine Ethos: Renegotiating Romanian Women's Identity from Hollywood to Rockefeller (T6). Trailblazers of the Press. American War Correspondents in Interwar Romania analyzes the portrayals of Romania shaped by the American war correspondents' who visited the country during the interwar era. These representations illustrate the cultural and identity negotiation process between the observers and the observed and among the many prevalent identities in this space. The historical and political analysis of America's stance towards Romania in the context of the world wars has been thoroughly addressed in both the American and Romanian academia. This book emphasizes the historical context of Romanian-American relationships and negotiations and the cultural, social, gender and identity dimensions reflected in the American correspondents' representations of significant historical events, especially from 1939 to 1940, when they arrived in Romania in considerable numbers. Trailblazers of the Press explores a topic often neglected in Romania's historical narrative. It highlights the crucial role of American journalists in documenting social, cultural, and historical events in Romania during World War II within a European context. It provides a comprehensive understanding of the Romanian people's cultural and social aspects by offering valuable historical, military, and diplomatic insights. "This book challenges the accepted belief regarding the irrelevant influence of the United States in interwar Romania, providing significant knowledge for a detailed analysis of the way America portrayed Romania. The book aims to remedy the information deficiencies about foreign war correspondence, diaries, and accounts of those who visited or lived for a time in interwar Romania, proving the special American interest in this cultural and identity space." Cornel Sigmirean, author of *Istoria formării intelectualității românești din Transilvania și Banat în epoca modernă. Studenți români la universități din Europa Centrală și de Vest* "This book analyzes the intricate Romanian-American relations in the inter-war era through the lenses of American war correspondents in Romania (while investigating their diaries, memoirs and other testimonies), with a view to showing that the evolution of such relations, influenced by the US political and economic interests in the region, can shed novel light on the inherent power dynamics of the Romanian-American exchanges." Mariana Neț, author of *Once Upon Two Cities: A Parallel Between New York City and Bucharest by 1900* "This is a must-read book for anyone who seeks to understand how American war reporting in interwar Romania negotiated the ebb and flow of

information transmission in order to uncover the power dynamics between the two countries. Trailblazers of the Press provides a fascinating multidisciplinary account of Romania's diplomatic and cultural exchanges with America, which is central to our contemporary history." Elena Butoescu, author of *Literary Imposture and Eighteenth-Century Knowledge*

Mr. Associated Press Gene Allen,2023-06-20 Finalist for the AEJMC Tankard Book Award Between 1925 and 1951, Kent Cooper transformed the Associated Press, making it the world's dominant news agency while changing the kind of journalism that millions of readers in the United States and other countries relied on. Gene Allen's biography is a globe-spanning account of how Cooper led and reshaped the most important institution in American--and eventually international--journalism in the mid-twentieth century. Allen critically assesses the many new approaches and causes that Cooper championed: introducing celebrity news and colorful features to a service previously known for stodgy reliability, pushing through disruptive technological innovations like the instantaneous transmission of news photos, and leading a crusade to bring American-style press freedom--inseparable from private ownership, in Cooper's view--to every country. His insistence on truthfulness and impartiality presents a sharp contrast to much of today's fractured journalistic landscape. Deeply researched and engagingly written, *Mr. Associated Press* traces Cooper's career as he built a new foundation for the modern AP and shaped the twentieth-century world of news.

American Newspaper Journalists on Film Johnny D. Boggs,2022-11-25 When talking pictures first appeared in cinema theaters in the late 1920s, films about newspaper journalists quickly became a Hollywood mainstay. These were a variety of responses from working reporters, editors, and photographers. The newspaper film was a popular genre in the 1950s, and famous films such as *All the President's Men* (1976) and *Spotlight* (2015) have depicted the power of the press. Journalists have also been portrayed in films that are not specifically about newspapers, appearing in noir films like *Woman on the Run* (1950), Westerns such as *Fort Worth* (1951), comedies like *The Ghost and Mr. Chicken* (1966), musicals like *Wake Up and Live* (1937) and historical epics like *Lawrence of Arabia* (1962). A film historian and former newspaper writer, the author investigates how accurately films have portrayed journalists across the decades. The book also details what journalists thought of the depictions at the time, contributing to brief histories and analyses for each film. Featured journalist archetypes include airy reporters, screaming editors, photographers, sportswriters and war journalists. Classics, misfires, Westerns, obscure treasures and films the press both adored and detested are all included in this comprehensive here.

Get the Damn Story Thomas W. Lippman,2023-04-03 The captivating story of an influential journalist demonstrates the value of a free press to democratic society In the decades between the Great Depression and the advent of cable television, when daily newspapers set the conversational agenda in the United States, the best reporter in the business was a rumpiled, hard-drinking figure named Homer Bigart. Despite two Pulitzers and a host of other prizes, he quickly faded from public view after retirement. Few today know the extent to which he was esteemed by his peers. *Get the Damn Story* is the first

comprehensive biography to encompass all of Bigart's journalism, including both his war reporting and coverage of domestic events. Writing for the New York Herald Tribune and the New York Times, Bigart brought to life many events that defined the era—the wars in Europe, the Pacific, Korea, and Vietnam; the civil rights movement; the creation of Israel; the end of colonialism in Africa; and the Cuban Revolution. The news media's collective credibility may have diminished in the age of Twitter, but Bigart's career demonstrates the value to a democratic society of a relentless, inquiring mind examining its institutions and the people who run them. The principle remains the same today: the truth matters. Historians and journalists alike will find Bigart's story well worth reading.

This book explores the authentic voices of minority groups which challenged the dominant experiences, patterns, and debates that have shaped Australia.

The War Beat, Pacific Steven Casey, 2021-04-05 The definitive history of American war reporting in the Pacific theater of World War II, from the attack on Pearl Harbor to the atomic bombings of Hiroshima and Nagasaki. After almost two years slogging with infantrymen through North Africa, Italy, and France, Ernie Pyle immediately realized he was ill-prepared for covering the Pacific War. As Pyle and other war correspondents discovered, the climate, the logistics, and the sheer scope of the Pacific theater had no parallel in the war America was fighting in Europe. From Pearl Harbor to Hiroshima and Nagasaki, *The War Beat, Pacific* provides the first comprehensive account of how a group of highly courageous correspondents covered America's war against Japan, what they witnessed, what they were allowed to publish, and how their reports shaped the home front's perception of some of the most pivotal battles in American military history. In a dramatic and fast-paced narrative based on a wealth of previously untapped primary sources, Casey takes us from MacArthur's doomed defense on the Philippines and the navy's overly strict censorship policy at the time of Midway, through the bloody battles on Guadalcanal, New Guinea, Tarawa, Saipan, Leyte and Luzon, Iwo Jima and Okinawa, detailing the cooperation, as well as conflict, between the media and the military, as they grappled with the enduring problem of limiting a free press during a period of extreme crisis. *The War Beat, Pacific* shows how foreign correspondents ran up against practical challenges and risked their lives to get stories in a theater that was far more challenging than the war against Nazi Germany, while the US government blocked news of the war against Japan and tried to focus the home front on Hitler and his atrocities.

Newshawks in Berlin Larry Heinzerling, Randy Herschaft, 2024-03-05 After the Nazis came to power in Germany in 1933, the Associated Press (AP) brought news about life under the Third Reich to tens of millions of American readers. The AP was

America's most important source for foreign news, but to continue reporting under the Nazi regime the agency made both journalistic and moral compromises. Its reporters and photographers in Berlin endured onerous censorship, complied with anti-Semitic edicts, and faced accusations of spreading pro-Nazi propaganda. Yet despite restrictions, pressures, and concessions, AP's Berlin "newshawks" provided more than a thousand U.S. newspapers with extensive coverage of the Nazi campaigns to conquer Europe and annihilate the continent's Jews. *Newshawks in Berlin* reveals how the Associated Press covered Nazi Germany from its earliest days through the aftermath of World War II. Larry Heinzerling and Randy Herschaft accessed previously classified government documents; plumbed diary entries, letters, and memos; and reviewed thousands of published stories and photos to examine what the AP reported and what it left out. Their research uncovers fierce internal debates about how to report in a dictatorship, and it reveals decisions that sometimes prioritized business ambitions over journalistic ethics. The book also documents the AP's coverage of the Holocaust and its unveiling. Featuring comprehensive research and a memorable cast of characters, this book illuminates how the dilemmas of reporting on Nazi Germany remain familiar for journalists reporting on authoritarian regimes today.

[Managing the Media in the India-Burma War, 1941-1945](#) Philip Woods, 2022-08-11 This book explores how the media was used by the armed forces during the India-Burma campaigns of WWII to project the most positive image to domestic and international audiences of a war that often seemed neglected or misunderstood. Discussing how soldiers were, for the first time, able to access newspapers and radio broadcasts relating stories of the campaigns they were actively fighting in, *Managing the Media in the India-Burma War* reveals not only the impact that the media had in maintaining troop morale, but how the military recognised that the media could be a valuable arm of warfare. Revealing how troops responded to reports of their operations, Philip Woods demonstrates the role of the media in creating the 'Forgotten Army' syndrome, which came about in the last two years of the Burma campaign. Focusing on the British Media, but with examples from the United States and India, including Indian war correspondents, it discusses India's role in the Second World War in relation to social, economic and political developments at the time. Honing in on India and Burma at a turning point in their road to independence, this book offers a fresh angle on a well-known military conflict, unpicks the various constraints and influences on the media in wartime, and links the campaign to India's crucial role in WWII.
