José Ortega y Gasset

Amador Fernando Savater, 2014-09-30 In a series of letters to his son, the renowned Spanish philosopher delivers sage advice on living an ethical life in today's world. One of Europe's foremost ethicists, Fernando Savater presents a deeply personal inquiry into the art of living well—one addressed to his own teenage son, Amador. In a series of personal letters, Savater encourages his son to recognize his own agency and use it responsibly, to think freely, and to make decisions that are both well-reasoned and empathetic. *Amador* is a heartfelt and enlightening primer for modern life, and an inspiration for any parent wishing to impart wisdom to their children.

What Does It All Mean? Thomas Nagel, 1987-10-15 In this cogent and accessible introduction to philosophy, the distinguished author of *Mortal Questions* and *The View From Nowhere* sets forth the central problems of philosophical inquiry for the beginning student. Arguing that the best way to learn about philosophy is to think about its questions directly, Thomas Nagel considers possible solutions to nine problems—knowledge of the world beyond our minds, knowledge of other minds, the mind-body problem, free will, the basis of morality, right and wrong, the nature of death, the meaning of life, and the meaning of words. Although he states his own opinions clearly, Nagel leaves these fundamental questions open, allowing students to entertain other solutions and encouraging them to think for themselves.

Dynamics of Global Crisis Samir Amin, 1982 Examinations of the world economic, political, and social problems include analyses of the expansion of capitalism, decline of the power of the United States, and the development of socialism.

Problems of Knowledge and Freedom Noam Chomsky, 2003 From interpreting the world to changing it, this book is a synthesis of Chomsky's early work on philosophy, linguistics, and politics.

After the Death of God John D. Caputo, Gianni Vattimo, 2009-06-02 It has long been assumed that the more modern we become, the less religious we will be. Yet a recent resurrection in faith has challenged the certainty of this belief. In these original essays and interviews, leading hermeneutical philosophers and postmodern theorists John D. Caputo and Gianni Vattimo engage with each other's past and present work on the subject and reflect on our transition from secularism to postsecularism. As two of the figures who have contributed the most to the theoretical reflections on the contemporary

philosophical turn to religion, Caputo and Vattimo explore the changes, distortions, and reforms that are a part of our postmodern faith and the forces shaping the religious imagination today. Incisively and imaginatively connecting their argument to issues ranging from terrorism to fanaticism and from politics to media and culture, these thinkers continue to reinvent the field of hermeneutic philosophy with wit, grace, and passion.

Women's Daily Declarations for Spiritual Warfare John Eckhardt, 2013 A woman's devotional for spiritual warfare to use every day of the year. With the same bold, declarative style as the bestselling books *Prayers That Rout Demons* and *Daily Declarations for Spiritual Warfare*, this daily guide gives women warriors inspiration, understanding, and direction for confronting demonic strongholds.

A Short Philosophy of Birds Philippe J. Dubois, Elise Rousseau, 2019-11-07 The greatest wisdom comes from the smallest creatures There is so much we can learn from birds. Through twenty-two little lessons of wisdom inspired by how birds live, this charming french book will help you spread your wings and soar. We often need the help from those smaller than us. Having spent a lifetime watching birds, Philippe and Élise - a French ornithologist and a philosopher - draw out the secret lessons that birds can teach us about how to live, and the wisdom of the natural world. Along the way you'll discover why the robin is braver than the eagle, what the arctic tern can teach us about the joy of travel, and whether the head or the heart is the best route to love (as shown by the mallard and the penguin). By the end you will feel more in touch with the rhythms of nature and have a fresh perspective on how to live the fullest life you can.

Networks of Outrage and Hope Manuel Castells, 2015-06-04 *Networks of Outrage and Hope* is an exploration of the newforms of social movements and protests that are erupting in the world today, from the Arab uprisings to the indignadas movement in Spain, from the Occupy Wall Street movement to the social protests in Turkey, Brazil and elsewhere. While these and similar social movements differ in many important ways, there is one thing they share in common: they are all interwoven inextricably with the creation of autonomous communication networks supported by the Internet and wireless communication. In this new edition of his timely and important book, Manuel Castells examines the social, cultural and political roots of these new social movements, studies their innovative forms of self-organization, assesses the precise role of technology in the dynamics of the movements, suggests the reasons for the support they have found in large segments of society, and probes their capacity to induce political change by influencing people's minds. Two new chapters bring the analysis up-to-date and draw out the implications of these social movements and protests for understanding the new forms of social change and political democracy in the global network society.

The Cosmopolitan Tradition Martha C. Nussbaum, 2019-08-13 "Profound, beautifully written, and inspiring. It proves that Nussbaum deserves her reputation as one of the greatest modern philosophers." —Globe and Mail "At a time of growing national chauvinism, Martha Nussbaum's excellent restatement of the cosmopolitan tradition is a welcome and much-needed

contribution...Illuminating and thought-provoking.” —Times Higher Education The cosmopolitan political tradition in Western thought begins with the Greek Cynic Diogenes, who, when asked where he came from, said he was a citizen of the world. Rather than declare his lineage, social class, or gender, he defined himself as a human being, implicitly asserting the equal worth of all human beings. Martha Nussbaum pursues this “noble but flawed” vision and confronts its inherent tensions. The insight that politics ought to treat human beings both as equal and as having a worth beyond price is responsible for much that is fine in the modern Western political imagination. Yet given the global prevalence of material want, the conflicting beliefs of a pluralistic society, and the challenge of mass migration and asylum seekers, what political principles should we endorse? The Cosmopolitan Tradition urges us to focus on the humanity we share rather than on what divides us. “Lucid and accessible...In an age of resurgent nationalism, a study of the idea and ideals of cosmopolitanism is remarkably timely.” —Ryan Patrick Hanley, *Journal of the History of Philosophy*

Bilbao–New York–Bilbao Kirmen Uribe, 2022-08-09 On a transatlantic flight between Bilbao and New York City, a fictional version of Kirmen Uribe recalls three generations of family history—the inspiration for the novel he wants to write—and ponders how the sea has shaped their stories. The day he knew he was going to die, our narrator’s grandfather took his daughter-in-law to the Fine Arts Museum in Bilbao, the de facto capital of the Basque region of northern Spain, to show her a painting with ties to their family. Years later, her son Kirmen traces those ties back through the decades, knotting together moments from early twentieth-century art history with the stories of his ancestors’ fishing adventures—and tragedies—in the North Atlantic Ocean. Elegant, fluid storytelling is punctuated by scenes from Kirmen’s flight, from security line to airport bar to jet cabin, and reflections on the creative writing process. This original and compelling novel earned debut author Kirmen Uribe the prestigious National Prize for Literature in Spain in 2009. Exquisitely translated from Basque to English by Elizabeth Macklin, Bilbao–New York–Bilbao skillfully captures the intersections of many journeys: past and present, physical and artistic, complete and still unfolding. Bilbao–New York–Bilbao is the second book commissioned for the Spatial Species series, edited by Youmna Chlala and Ken Chen. The series investigates the ways we activate space through language. In the tradition of Georges Perec’s *An Attempt at Exhausting a Place in Paris*, Spatial Species titles are pocket-sized editions, each keenly focused on place. Instead of tourist spots and public squares, we encounter unmarked, noncanonical spaces: edges, alleyways, diasporic traces. Such intimate journeying requires experiments in language and genre, moving travelogue, fiction, or memoir into something closer to eating, drinking, and dreaming.

The Promise of Politics Hannah Arendt, 2007-06-19 In *The Promise of Politics*, Hannah Arendt examines the conflict between philosophy and politics. In particular, she shows how the tradition of Western political thought, which extends from Plato and Aristotle to its culmination in Marx, failed to account for human action. The concluding section of the book,

“Introduction into Politics,” examines an issue that is as timely today as it was when Arendt first wrote about it fifty years ago—the modern prejudice against politics. When politics is considered as a means to an end that lies outside of itself, argues Arendt, when force is used to create “freedom,” the very existence of political principles is imperiled.

Daughters of Spain Jean Plaidy, 2011-02-15 With Spain now united, Ferdinand looked to his daughters to further his ambitions. All too often, Isabella found herself torn between his brilliant plans and her love for her children. During the last years of Isabella's reign it seemed there was a curse on the royal house which struck at the children of the sovereigns. Tragedy followed tragedy - the Infanta Isabella, a broken-hearted widow; Juana, driven to madness by her husband's philandering; and the sorrow of parting with young Catalina, destined to become Katharine of Aragon, wife to Henry VIII and Queen of England ...

The Chosen Primate Adam Kuper, 1994 The Chosen Primate ends by looking forward to the next millennium, noting that our future depends on our response to another fundamental question: Will our culture, which has given us the means to adapt successfully to nature, ultimately destroy nature? In raising this question, Kuper shows that debates in anthropology are more than just academic disputes - they engage the major issues of our time.

Oration on the Dignity of Man Giovanni Pico Della Mirandola, 2012-03-27 An ardent treatise for the Dignity of Man, which elevates Humanism to a truly Christian level. This translation of Pico della Mirandola's famed Oration, hitherto hidden away in anthologies, was prepared especially for Gateway Editions, making it available for the first time in a stand-alone volume. The youngest son of the Prince of Mirandola, Pico lived during the Renaissance, an era of change and philosophical ferment. The tenacity with which he clung to fundamental Christian teachings while crying out against his brilliant though half-pagan contemporaries made him exceptional in a time of exceptional men. While Pico, as Russell Kirk observes in his introduction, was an ardent spokesman for the dignity of man, his devout nature elevated humanism to a truly Christian level, which makes his writing as pertinent today as it was in the fifteenth century.

The Uncomfortable Dead Subcomandante Marcos, Paco Ignacio Taibo II, 2010-02-01 A stylized reissue of the acclaimed, surreal noir collaboration between Mexico's greatest writer and its most courageous revolutionary. “Taibo's expertise ensures a smart, funny book, and Marcos brings a wry sense of humor.” —Publishers Weekly In alternating chapters, Zapatista leader Subcomandante Marcos and the consistently excellent Paco Ignacio Taibo II create an uproarious murder mystery with two intersecting storylines. The chapters written by the famously masked Marcos originate in the mountains of Chiapas, Mexico. There, the fictional “Subcomandante Marcos” assigns Elias Contreras—an odd but charming mountain man—to travel to Mexico City in search of an elusive and hideous murderer named “Morales.” The second story line, penned by Taibo, stars his famous series detective Hector Belascoaran Shayne. Hector guzzles Coca-Cola and smokes cigarettes furiously amidst his philosophical and always charming approach to investigating crimes—in this case, the search for his own

“Morales.” The two stories collide absurdly and dramatically in the urban sprawl of Mexico City. The ugly history of the city’s political violence rears its head, and both detectives find themselves in an unpredictable dance of death with forces at once criminal, historical, and political. Readers expecting political heavy-handedness will be disarmed by the humility and playful self-mocking that runs throughout the book.
