Anne Fadiman

The Spirit Catches You and You Fall Down Anne Fadiman, 2012-04-24 Winner of the National Book Critics Circle Award for Nonfiction, this brilliantly reported and beautifully crafted book explores the clash between a medical center in California and a Laotian refugee family over their care of a child.

The Wine Lover's Daughter Anne Fadiman, 2017-11-07 In *The Wine Lover's Daughter*, Anne Fadiman examines—with all her characteristic wit and feeling—her relationship with her father, Clifton Fadiman, a renowned literary critic, editor, and radio host whose greatest love was wine. An appreciation of wine—along with a plummy upper-crust accent, expensive suits, and an encyclopedic knowledge of Western literature—was an essential element of Clifton Fadiman's escape from lower-middle-class Brooklyn to swanky Manhattan. But wine was not just a class-vaulting accessory; it was an object of ardent desire. *The Wine Lover's Daughter* traces the arc of a man's infatuation from the glass of cheap Graves he drank in Paris in 1927; through the Château Lafite-Rothschild 1904 he drank to celebrate his eightieth birthday, when he and the bottle were exactly the same age; to the wines that sustained him in his last years, when he was blind but still buoyed, as always, by hedonism. Wine is the spine of this touching memoir; the life and character of Fadiman's father, along with her relationship with him and her own less ardent relationship with wine, are the flesh. *The Wine Lover's Daughter* is a poignant exploration of love, ambition, class, family, and the pleasures of the palate by one of our finest essayists.

One in a Billion Mark Johnson, Kathleen Gallagher, 2016-04-12 “A riveting scientific detective story” (*The Washington Post*) by two Pulitzer Prize-winning journalists who chronicle a young Wisconsin boy with a never-before-seen disease and the doctors who save his life by taking a new step into the future of medicine. In this landmark medical narrative, Pulitzer Prize-winning journalists Mark Johnson and Kathleen Gallagher share the story of Nic Volker, the first patient to be saved by a bold breakthrough in medicine—a complete gene sequencing, aimed at finding the cause of an otherwise undiagnosable illness. At just two years old, Nic experienced a brief flicker of pain that signaled the awakening of a new and deadly disease, one that would hurl him and his family into a harrowing journey in search for a lifesaving cure. After his symptoms stump every practitioner, it becomes clear that Nic's is a one in a billion case, a disease that no one has ever seen before. As Nic and his family search for answers, the scientific community is racing to bring about the next revolution in medicine—translating results from the Human Genome Project to treatments for actual patients. At the forefront is the

brilliant geneticist Howard Jacob, who starts a lab at the Medical College of Wisconsin. Then Nic's head physician reaches out to Jacob with an unprecedented idea. A disease like Nic's is likely due to a rare mutation: if they could sequence his genes to try to find the mutation, the boy might live. Jacob doesn't know if he can do it; Nic's doctors don't know if it will even work; and no one knows what else might lie in the Pandora's Box of Nic's genome. But they decide to try—and in doing so, they step into a new era of medicine. *One in a Billion* is “a compelling story of a modern medical miracle—the first instance of personalized medicine” (Milwaukee Journal Sentinel) and the birth of a scientific revolution.

Ex Libris Anne Fadiman, 1998-10-31 In these eighteen essays, Anne Fadiman recounts a lifelong love affair with books and language.--Jacket.

Globalization: A Very Short Introduction Manfred B. Steger, 2020-05-28 We live today in an interconnected world in which ordinary people can become instant online celebrities to fans thousands of miles away, in which religious leaders can influence millions globally, in which humans are altering the climate and environment, and in which complex social forces intersect across continents. This is globalization. In the fifth edition of his bestselling *Very Short Introduction* Manfred B. Steger considers the major dimensions of globalization: economic, political, cultural, ideological, and ecological. He looks at its causes and effects, and engages with the hotly contested question of whether globalization is, ultimately, a good or a bad thing. From climate change to the Ebola virus, Donald Trump to Twitter, trade wars to China's growing global profile, Steger explores today's unprecedented levels of planetary integration as well as the recent challenges posed by resurgent national populism. ABOUT THE SERIES: The *Very Short Introductions* series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Lying Awake Mark Salzman, 2001-10-09 Mark Salzman's *Lying Awake* is a finely wrought gem that plumbs the depths of one woman's soul, and in so doing raises salient questions about the power and price of faith. Sister John's cloistered life of peace and prayer has been electrified by ever more frequent visions of God's radiance, leading her toward a deep religious ecstasy. Her life and writings have become examples of devotion. Yet her visions are accompanied by shattering headaches that compel Sister John to seek medical help. When her doctor tells her an illness may be responsible for her gift, Sister John faces a wrenching choice: to risk her intimate glimpses of the divine in favor of a cure, or to continue her visions with the knowledge that they might be false—and might even cost her her life.

collection of essays includes contributions from Sven Krkert, Allegra Goodman, Vivian Gornick, Patricia Hampl, Phillip Lopate, and Luc Sante, among others.

The Myth of Sisyphus And Other Essays Albert Camus,2012-10-31 One of the most influential works of this century, *The Myth of Sisyphus and Other Essays* is a crucial exposition of existentialist thought. Influenced by works such as *Don Juan* and the novels of Kafka, these essays begin with a meditation on suicide; the question of living or not living in a universe devoid of order or meaning. With lyric eloquence, Albert Camus brilliantly posits a way out of despair, reaffirming the value of personal existence, and the possibility of life lived with dignity and authenticity.

We All Fall Down Robert Cormier,2013-03-19 Buddy Walker is troubled by his parent's recent divorce, and when Harry Flowers suggests a prank, he goes along, just for opportunity to do something different. He doesn't realize that someone is watching. When Jane Jerome's house is trashed, and sister brutally injured in a home invasion, she struggles to continue with her life as her family falls apart. The Avenger has witnessed reckless evil. He has killed before and knows that he just needs to wait until the time is right before he can take his revenge. Robert Cormier once again sheds light on the conflict between good and evil and the dark side of human nature. In his classic style, each character's point of view is revealed invoking both sympathy and horror while showing the complexities of the psyche.

Know Your Enemy David C. Engerman,2009-11-20 As World War II ended, few Americans in government or universities knew much about the Soviet Union. As David Engerman shows in this book, a network of scholars, soldiers, spies, and philanthropists created an enterprise known as Soviet Studies to fill in this dangerous gap in American knowledge. This group brought together some of the nation's best minds from the left, right, and center, colorful and controversial individuals ranging from George Kennan to Margaret Mead to Zbigniew Brzezinski, not to mention historians Sheila Fitzpatrick and Richard Pipes. Together they created the knowledge that helped fight the Cold War and define Cold War thought. Soviet Studies became a vibrant intellectual enterprise, studying not just the Soviet threat, but Soviet society and culture at a time when many said that these were contradictions in terms, as well as Russian history and literature. And this broad network, Engerman argues, forever changed the relationship between the government and academe, connecting the Pentagon with the ivory tower in ways that still matter today.

Cultural Diversity in Health & Illness Rachel E. Spector,1996 Written for all health care providers, this text promotes awareness of the dimensions and complexities involved in caring for people from culturally diverse backgrounds. The author through discussions of her own experiences, shows how cultural heritage can affect delivery and acceptance of health care and how professionals, when interacting with their clients, need to be aware of these issues in order to deliver safe and professional care. Traditional and alternative health care beliefs and practices from Asian American, African American, Hispanic, and American Indian perspectives are represented.

Charlotte's Web E. B. White, 1952 Sixty years ago, on October 15, 1952, E.B. White's *Charlotte's Web* was published. It's gone on to become one of the most beloved children's books of all time. To celebrate this milestone, the renowned Newbery Medalist Kate DiCamillo has written a heartfelt and poignant tribute to the book that is itself a beautiful translation of White's own view of the world—of the joy he took in the change of seasons, in farm life, in the miracles of life and death, and, in short, the glory of everything. We are proud to include Kate DiCamillo's foreword in the 60th anniversary editions of this cherished classic. *Charlotte's Web* is the story of a little girl named Fern who loved a little pig named Wilbur—and of Wilbur's dear friend Charlotte A. Cavatica, a beautiful large grey spider who lived with Wilbur in the barn. With the help of Templeton, the rat who never did anything for anybody unless there was something in it for him, and by a wonderfully clever plan of her own, Charlotte saved the life of Wilbur, who by this time had grown up to quite a pig. How all this comes about is Mr. White's story. It is a story of the magic of childhood on the farm. The thousands of children who loved *Stuart Little*, the heroic little city mouse, will be entranced with Charlotte the spider, Wilbur the pig, and Fern, the little girl who understood their language. The forty-seven black-and-white drawings by Garth Williams have all the wonderful detail and warmhearted appeal that children love in his work. Incomparably matched to E.B. White's marvelous story, they speak to each new generation, softly and irresistibly.

Touching Spirit Bear Ben Mikaelson, 2018-01-03 A Book of the Year Award Nominee Avoiding jail time^ young Cole Matthews elects to participate in an alternative sentencing program based on traditional Native American practices that result in his being banished to a remote Alaskan Island where he is left to survive for a year.

Life As We Know It Michael Berube, 1998-03-31 When James Berube was born in 1991 his parents knew little about Down syndrome other than that it would render their child disabled. As they sought to understand exactly what this would mean, they learned not only about the current medical and social treatment of developmental disabilities, but also about the history of how society has understood - and failed to understand - children like James.

The Oral-systemic Health Connection Michael Glick, 2014 This book gathers the latest scientific information on the associations between the oral environment and overall health. With careful analysis, the authors weigh the latest evidence about the relationships between oral infections and systemic diseases and conditions such as diabetes, cancer, osteoporosis, heart disease, pulmonary disease, inflammation, obesity, and complications of pregnancy. Other chapters focus on cutting-edge research into areas such as infectious disease screening, bioinformatics, targeted cancer therapies, and salivary diagnostics. This book will help readers to better understand current and future evidence on the associations between oral health and general health and enable readers to examine with a critical eye the claims made by scientists working on this subject. More importantly, readers will be able to apply this information clinically to guide treatment decisions and recommend preventive strategies, for the benefit of their patients.--

The Kite Runner Khaled Hosseini,2007 Traces the unlikely friendship of a wealthy Afghan youth and a servant's son in a tale that spans the final days of Afghanistan's monarchy through the atrocities of the present day.

Caring for Patients from Different Cultures Geri-Ann Galanti,1997 Geri-Ann Galanti argues that if the goal of the American medical system is to provide optimal care for all patients, health-care providers must understand cultural differences that create conflicts and misunderstandings and that can result in inferior medical care. This new edition includes five new chapters and 172 case studies of actual conflicts that occurred in American hospitals.

Fahrenheit 451 Ray Bradbury,1993 First pub. 1954. Classic fable about a hazardous future world which condones the burning of books.

What Jesus Demands from the World John Piper,2011-01-11 Looks at the Gospels and examines what Christ requires of his followers in a redemptive-historical context. New and seasoned believers will see God's loving plan for their ultimate satisfaction.
