Ambrose of Milan Neil B. McLynn, 1994-12-13 In this new and illuminating interpretation of Ambrose, bishop of Milan from 374 to 397, Neil McLynn thoroughly sifts the evidence surrounding this very difficult personality. The result is a richly detailed interpretation of Ambrose's actions and writings that penetrates the bishop's painstaking presentation of self. McLynn succeeds in revealing Ambrose's manipulation of events without making him too Machiavellian. Having synthesized the vast complex of scholarship available on the late fourth century, McLynn also presents an impressive study of the politics and history of the Christian church and the Roman Empire in that period. Admirably and logically organized, the book traces the chronology of Ambrose's public activity and reconstructs important events in the fourth century. McLynn's zesty, lucid prose gives the reader a clear understanding of the complexities of Ambrose's life and career and of late Roman government.

Aspects of Nature in Different Lands and Different Climates, 1 Alexander von Humboldt, 1849 It is not without diffidence that I present to the public a series of papers which took their origin in the presence of natural scenes of grandeur or of beauty -- on the Ocean, in the forests of the Orinoco, in the Steppes of Venezuela, and in the mountain wildernesses of Peru and Mexico. (p. 1).

The Spirit of the Liturgy Joseph Cardinal Ratzinger, 2014-08-26 New Softcover Edition with Index! Considered by Ratzinger devotees as his greatest work on the Liturgy, this profound and beautifully written treatment of the great prayer of the Church will help readers rediscover the Liturgy in all its hidden spiritual wealth and transcendent grandeur as the very center of our Christian life. Among the many liturgical issues that he covers in this work, Cardinal Ratzinger discusses fundamental misunderstandings of the Second Vatican Council's intentions for liturgical renewal, especially the orientation of prayer at the Eucharistic sacrifice, the placement of the tabernacle, and the posture of kneeling. Other important topics he discusses include the following: the essence of worship; Jewish roots and new elements of the Christian Liturgy; the historic and cosmic dimensions of the Liturgy; the relationship of the Liturgy to time and space; art, music, and the Liturgy; active participation of all the faithful; gestures, posture, and vestments. My purpose here is to assist this renewal of understanding of the Liturgy. Its basic intentions coincide with what Guardini wanted to achieve. The only difference is that I have had to translate what Guardini did at the end of the First World War, in a totally different historical situation, into the context of our

present-day questions, hopes, and dangers. Like Guardini, I am not attempting to involve myself with scholarly discussion and research. I am simply offering an aid to the understanding of the faith and to the right way to give the faith its central form of expression in the Liturgy. - Joseph Cardinal Ratzinger, from the preface

Debating Human Rights Peter Van Ness, 2003-07-13 Human rights debates can provoke strong reactions, particularly among people of different cultural backgrounds. The debate over Asian values and the use of human rights diplomacy are the most obvious manifestations of divisions between Asia and the West and reflect particular world views and historical legacies. In this new book, scholars from the United States and several Asian countries debate fundamental issues such as 'Asian values', 'peaceful evolution' and cultural imperialism. Provocative and challenging essays analyse the debate between East and West, presenting critical perspectives on globalization and human rights diplomacy. *Debating Human Rights* is an original contribution to a vital area of debate. It presents a uniquely wide diversity of perspectives on controversial issues and demonstrates how scholars and activists who view the world very differently can nonetheless move these debates forward in a search for common ground.

The Italic People of Ancient Apulia T. H. Carpenter, K. M. Lynch, E. G. D. Robinson, 2014-08-28 The focus of this book is on the Italic people of Apulia during the fourth century BC, when Italic culture seems to have reached its peak of affluence. Scholars have largely ignored these people and the region they inhabited. During the past several decades archaeologists have made significant progress in revealing the cultures of Apulia through excavations of habitation sites and un-plundered tombs, often published in Italian journals. This book makes the broad range of recent scholarship - from new excavations and contexts to archaeometric testing of production hypotheses to archaeological evidence for reconsidering painter attributions - available to English-speaking audiences. In it thirteen scholars from Italy, the United States, Great Britain, France, and Australia present targeted essays on aspects of the cultures of the Italic people of Apulia during the fourth century BC and the surrounding decades.

The Faithful Lover Massimo Bontempelli, 2007 A short story collection by renowned writer Massimo Bontempelli. From a young boy's memorable encounter with a pair of ghostly lovers, to an elderly woman's unsettling final bequest, these powerful stories illuminate Bontempelli's belief that the wonders of the world can be found all around us, dwelling within the realm of the everyday. from publisher

Modernism and Eugenics M. Turda, 2010-09-30 *Modernism and Eugenics* comprehensively explores modern Europe's fixation with eugenic programmes of racial and national purification. It convincingly demonstrates that between 1870 and 1940 eugenicists were not only preoccupied with rescuing the individual from the anomie of modernity but equally

championed a glorious racial destiny for the nation.

Population Politics in Twentieth Century Europe Maria-Sophia Quine,2013-04-15 Maria Sophia Quine demystifies the population policies of fascist regimes by looking at them in the wider context of how societies in general reacted to the profound economic changes brought by industrialization. Population Politics in Twentieth Century Europe: * provides an original, comparative treatment of European population policies * gives the historical background to twentieth-century population policies * considers topics such as racism and sexism in Nazi ideology, Eugenics in England, family allowance schemes in France, and sterilization * synthesizes the latest research in different fields and countries.

Eugenics, Human Genetics and Human Failings Pauline Mazumdar,2005-12-20 This scholarly and penetrating study of eugenics is a major contribution to our understanding of the complex relation between science, ideology and class.

The Wellborn Science Mark B. Adams,1990 The four contributors to this volume examine the eugenics movements in Germany, France, Brazil, and the Soviet Union, and describe how geneticists and physicians participated in the development of policies concerning the improvement of hereditary qualities in humans. They examine the scientific components of those programs and discuss the involvement of social, religious, and political forces that significantly altered the original scientific goals. The book opens up new and comparative perspectives on the history of eugenics and the social uses of science in general.

Racial Theories in Fascist Italy Aaron Gillette,2003-08-29 Racial Theories in Fascist Italy examines the role played by race and racism in the development of Italian identity during the fascist period. The book examines the struggle between Mussolini, the fascist hierarchy, scientists and others in formulating a racial persona that would gain wide acceptance in Italy. This book will be of interest to historians, political scientists concerned with the development of fascism and scholars of race and racism.
