I Am Charlotte Simmons Tom Wolfe, 2010-08-31 A scandalous exploration of elite undergraduate life from the author of *The Bonfire of the Vanities* Dupont University: the Olympian halls of learning housing the cream of America's youth, the roseate Gothic spires and manicured lawns suffused with tradition... or so it appears to beautiful, brilliant Charlotte Simmons, a sheltered freshman from Sparta, North Carolina, who has come here on a full scholarship. But Charlotte soon learns that for the upper-crust coeds of Dupont, sex, status, and kegs trump academic achievement every time. As Charlotte encounters Dupont's elite, she gains a new, revelatory sense of her own power, that of her difference and of her very innocence. But little does she realise that she will act as a catalyst in all of their lives. 'A firecracker of a novel... A pyrotechnic delight just as dazzling as *The Bonfire of the Vanities*' - Sunday Express

Boy in a White Room Karl Olsberg, 2023-02-07 A gripping YA sci-fi thriller by German and Spiegel-bestselling author, Karl Olsberg. *The Boy in a White Room* was nominated for Deutscher Jugendliteraturpreis 2018, Germany's most prestigious youth fiction award. A fifteen-year-old boy wakes to find himself locked in a white, cube-shaped room. No windows. No doors. Total silence. He has no memories. No clue how he got there. No idea who he is. A computer-generated voice named Alice responds to his questions. Through her, he is able to access the internet. As the boy uncovers snippets of his story -- an

attempted abduction, a critical injury, a murder -- it becomes clearer. But when some of the pieces don't fit, how can he tell what's real and what's not? Who can he trust? And who is he really?

Systemic Interventions Arist von Schlippe, Jochen Schweitzer, 2015-02-18 Systemic thinking has opened up further areas of specialization from one-on-one and couples therapy to clinical supervision and organizational development. Systemic intervention sees a problem as an incident involving a number of different, interacting individuals. In this sense, conflict, problems and occurrences are viewed and treated within the social context. This comprehensive introduction contains many examples and detailed suggestions for a practical approach to directed conversation.

How Fluids Unmix J. M. H. Levelt Sengers, 2002 Between 1890 and 1906, pioneering scientists in the Netherlands reached an understanding of phase separation and fluid mixture criticality that was far ahead of its time. This book narrates the story of these profound discoveries, and details the collaboration between two Dutch physicists and Nobel prize winners, Johannes Diderik van der Waals (1837-1923) at the University of Amsterdam, and Heike Kamerlingh Onnes (1853-1926) at the University of Leiden.

Theories of International Relations Siegfried Schieder, Manuela Spindler, 2014-05-23 This book is a comprehensive guide to theories of International Relations (IR). Given the limitations of a paradigm-based approach, it sheds light on eighteen theories and new theoretical perspectives in IR by examining the work of key reference theorists. The chapters are all written to a common template. The introductory section provides readers with a basic understanding of the theory's genesis by locating it within an intellectual tradition, paying particular attention to the historical and political context. The second section elaborates on the theory as formulated by the selected reference theorist. After this account of the theory's core elements, the third section turns to theoretical variations, examining conceptual subdivisions and overlaps, further developments and internal critique. The fourth section scrutinizes the main criticisms emanating from other theoretical perspectives and highlights points of contact with recent research in IR. The fifth and final section consists of a bibliography carefully compiled to aid students' further learning. Encompassing a broad range of mainstream, traditional theories as well as emerging and critical perspectives, this is an original and ground-breaking textbook for students of International Relations. The German edition of the book won the Geisteswissenschaften International Prize, collectively awarded by the Fritz Thyssen Foundation, the German Federal Foreign Office and the German Publishers & Booksellers Association.
