*The Cambridge Handbook of the Law of Algorithms* Woodrow Barfield, 2023-03-30 Algorithms are a fundamental building block of artificial intelligence - and, increasingly, society - but our legal institutions have largely failed to recognize or respond to this reality. The Cambridge Handbook of the Law of Algorithms, which features contributions from US, EU, and Asian legal scholars, discusses the specific challenges algorithms pose not only to current law, but also - as algorithms replace people as decision makers - to the foundations of society itself. The work includes wide coverage of the law as it relates to algorithms, with chapters analyzing how human biases have crept into algorithmic decision-making about who receives housing or credit, the length of sentences for defendants convicted of crimes, and many other decisions that impact constitutionally protected groups. Other issues covered in the work include the impact of algorithms on the law of free speech, intellectual property, and commercial and human rights law.

*The Enforcement of Intellectual Property Rights: A Case Book* L.T.C. Harms, World Intellectual Property Organization, 2012 With this publication, WIPO and the author aim at making available for judges, lawyers and law enforcement officials a valuable tool for the handling of intellectual property cases. To that effect, the case book uses carefully selected court decisions drawn from various countries with either civil or common law traditions. The extracts from the decisions and accompanying comments illustrate the different areas of intellectual property law, with an emphasis on matters that typically arise in connection with the enforcement of intellectual property rights in civil as well as criminal proceedings.

Institutional Abuse of Children Bill Madden,Tina Cockburn,Benjamin Madden,2019 Institutional abuse of children: Legal remedies and redress in Australia examines the recently amended 'common law' framework. These reforms include removal of limitation periods, reversal of the onus of proof, extending vicarious liability to persons akin to employees, requiring institutions to identify a proper defendant when necessary, and permitting some earlier settlements and judgements to be revisited. The unique fixed term National Redress Scheme for historic child sexual abuse in institutional settings is also examined, in the context of the underlying policy to offer an alternate redress pathway which aims to be more flexible, less formal, faster, cheaper, and involving less trauma and conflict for survivors. As the first detailed analysis of the new legal framework relating to compensation and redress for child sexual abuse in Australia, this book makes an original contribution to knowledge and understanding of the law in this complex area, which continues to develop at a rapid pace as additional legislation is enacted across Australia and as the courts begin to construe these new legislative provisions. Features ÷ Analyses the new legal framework governing claims for compensation and redress arising out of sexual abuse of children in institutional settings in Australia ÷ Examines the relationship between the National Redress Scheme and civil claims ÷ Provides a practical understanding of how to work through the intersecting laws and redress systems to best advise clients

**Every hill got a story** Men and Women of Central Australia and the Central Land Council,2015-08-01 Every hill got a story is the first comprehensive history of Central Australia's Aboriginal people, as told in their own words and many languages. Nyinanyi ngurangka - being on country - is not a 'lifestyle choice' but a hard-won right, a spiritual and cultural duty, a constant battle, a source of happiness and opportunity and the meaning of life all at the same time. In this heartbreaking, funny and poignant collection, 127 eminent men and women remember surviving first contact, massacres and

forced removals and resisting more than a century of top-down government policies. Their testimonies, some available as audio sound bites, paint an unflinchingly honest picture of life and work on the missions, cattle stations and fringes of towns. They speak eloquently of their struggle for self-determination and basic citizen rights. The storytellers also celebrate winning back ownership of more than 410,000 square kilometres of their ancestral lands. Key to this achievement, and deeply entwined with the lives of the storytellers and their families, is the Central Land Council. It is a Commonwealth statutory authority governed by 90 elected Aboriginal representatives. The CLC has protected the interests of Aboriginal people in the southern half of the Northern Territory since 1975 against ongoing threats to their rights. It supports them to manage their land and to use income from it to strengthen their communities and to achieve their social, cultural and economic aspirations. Through the CLC, the people and the land tell us of country where every hill got a story. For more information about the CLC and the oral history project that became Every hill got a story visit [www.clc.org.au](http://www.clc.org.au).

Rebuilding the State Institutions Juan Antonio Le Clercq, José Pablo Abreu Sacramento, 2020 Contemporary Mexico faces a complex crisis of violence and insecurity with high levels of impunity and the lack of an effective rule of law. These weaknesses in the rule of law are multidimensional and involve elements of institutional design, the specific content of the laws, particularities of political competition and a culture of legality in a country with severe social inequalities. This book discusses necessary institutional and legal reforms to develop the rule of law in a context of democratic, social and economic transformations. The chapters are organized to address: 1) The concept of the 'rule of law' and its measurement; 2) The fragility of the 'rule of law' in Mexico; 3) Structural reforms and implementation challenges; 4) Social exclusion and the culture of legality. The book addresses decision-makers, civil servants, consultants, scholars, lecturers, and students focusing on public policy, rule of law, sociology of law, legislative studies and practice, impunity, and areas of political philosophy. • The book presents an interdisciplinary and integrated approach for understanding the rule of law in Mexico, taking into account national particularities, the regional context and global comparisons. • Chapters discuss recent institutional reforms in Mexico from a critical point of view and explore possible next steps to achieve effective implementation. • This book addresses the links between a weak rule of law and social phenomena like insecurity, violence, corruption and democratic deficits.
