Literature 1980, Part 1 Siegfried Böhme,Ute Esser,Professor Dr. Walter Fricke,Inge Heinrich,Wilfried Hofmann,Dietlinde Krahn,Dorothea Rosa,Dr. Lutz D. Schmadel,Gert Zech,2013-11-11 Astronomy and Astrophysics Abstracts, which has appeared in semi-annual volumes since 1969, is devoted to the recording, summarizing and indexing of astronomical publications throughout the world. It is prepared under the auspices of the International Astronomical Union (according to a resolution adopted at the 14th General Assembly in 1970). Astronomy and Astrophysics Abstracts aims to present a comprehensive documentation of literature in all fields of astronomy and astrophysics. Every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months: This time interval is near to that achieved by monthly abstracting journals, compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user. I, 1980; some older Volume 27 contains literature published in 1980 and received before August literature which was received late and which is not recorded in earlier volumes is also included. We acknowledge with thanks contributions to this volume by Dr. J. Bouska, Prague, who surveyed journals and publications in Czech and supplied us with abstracts in English.

Literature 1989, Part 1 Astronomisches Rechen-Institut,2013-11-11 From the reviews: Astronomy and Astrophysics Abstracts has appeared in semi-annual volumes since 1969 and it has already become one of the fundamental publications in the fields of astronomy, astrophysics and neighbouring sciences. It is the most important English-language abstracting journal in the mentioned branches. ...The abstracts are classified under more than a hundred subject categories, thus permitting a quick survey of the whole extended material. The AAA is a valuable and important publication for all students and scientists working in the fields of astronomy and related sciences. As such it represents a necessary ingredient of any astronomical library all over the world. Space Science Review# Dividing the whole field plus related subjects into 108 categories, each work is numbered and most are accompanied by brief abstracts. Fairly comprehensive cross-referencing links relevant papers to more than one category, and exhaustive author and subject indices are to be found at the back,

making the catalogues easy to use. The series appears to be so complete in its coverage and always less than a year out of date that I shall certainly have to make a little more space on those shelves for future volumes. The Observatory Magazine#

Sophisticated Giant Maxine Gordon,2020-09-15 Tenor saxophonist Dexter Gordon was one of the major innovators of modern jazz. In a context of biography, history, and memoir, Maxine Gordon has completed the book that her late husband began, weaving his solo turns with her voice and a chorus of voices from past and present. She shows that his image of the cool jazzman fails to come to terms with the three-dimensional man full of humor and wisdom, a figure who struggled to reconcile being both a creative outsider who broke the rules and a comforting insider who was a son, father, husband, and world citizen. --

Manual de gramática francesa Elena Echeverría Pereda,2006-09-07 Manual de gramática francesa es el resultado de varias décadas de investigación lingüística y gramatical y de docencia del francés/lengua extranjera a hispanohablantes en varios niveles. Todos los materiales que se exponen han sido utilizados y secuenciados -durante los últimos 15 años- en el primer ciclo de los estudios de Traducción e Interpretación, y sus resultados se han visto reflejados en la madurez lingüística con la que estos alumnos se han enfrentado, en el segundo ciclo, a los ámbitos especializados de la traducción (jurídico-económica, científico-técnica, literaria, etc.) y de la interpretación (consecutiva y simultánea). Esta obra, por tanto, supone una útil «guía de navegación» práctica, de fácil acceso, exhaustiva y útil tanto para aquellos que necesitan aprobar un nivel inicial de la asignatura denominada «Lengua Francesa» (Enseñanza Secundaria, Escuelas Oficiales de Idiomas, estudios universitarios de Filología o de Traducción e Interpretación) como para los que se enfrentan a ella desde una perspectiva más exigente y han de alcanzar un nivel avanzado en su uso instrumental como traductores, filólogos o profesores. En resumen, este Manual de gramática francesa, pensado desde el aula y para el aula, pretende allanar el camino al alumno hispanohablante que está sometido a la siempre difícil y apasionante tarea de aprender y de conocer en profundidad la lengua francesa.

I Am Pilgrim Terry Hayes,2015-07-21 In a seedy hotel near Ground Zero, a woman lies face down in a pool of acid, features melted off her face, teeth missing, fingerprints gone. The room has been sprayed down with DNA-eradicating antiseptic spray. Pilgrim, the code name for a legendary, world-class secret agent, quickly realizes that all of the murderer's techniques were pulled directly from his own book, a cult classic of forensic science written under a pen name.

Mistakes Were Made Meryl Wilsner,2022-10-11 From the critically acclaimed author of *Something to Talk About* comes Meryl Wilsner's *Mistakes Were Made*, a sharp and sexy rom-com about a college senior who accidentally hooks up with her best friend's mom. When Cassie Klein goes to an off-campus bar to escape her school's Family Weekend, she isn't looking for a hookup—it just happens. Buying a drink for a stranger turns into what should be an uncomplicated, amazing one-night

stand. But then the next morning rolls around and her friend drags her along to meet her mom—the hot, older woman Cassie slept with. Erin Bennett came to Family Weekend to get closer to her daughter, not have a one-night stand with a college senior. In her defense, she hadn't known Cassie was a student when they'd met. To make things worse, Erin's daughter brings Cassie to breakfast the next morning. And despite Erin's better judgement—how could sleeping with your daughter's friend be anything but bad?—she and Cassie get along in the day just as well as they did last night. What should have been a one-time fling quickly proves impossible to ignore, and soon Cassie and Erin are sneaking around. Worst of all, they start to realize they have something real. But is being honest about the love between them worth the cost?

The Viking's Chosen Quinn Loftis,2018 The prophecy must be fulfilled. His orders are clear: launch a raid against England and bring home the spoils of war. But the prophecy is also clear: General Torben will take a foreign bride--one who is a seer and healer just like his mother. The eldest princess of England is said to be just that ... a beautiful, charming, and headstrong woman. But he's a Viking army general and she's an English princess--and one who is already promised to the king of Tara. Two worlds collide in this epic historical fiction centered on an undeniable chemistry that smolders against the odds. Richly written and injected with moments of humor, this action-packed romantic tale will leave you breathless. Quinn Loftis is the author of twenty novels, including the USA Today Bestseller Fate and Fury. Experiments in Art Research Sarah Travis,Azlan Guttenberg Smith,Catalina Hernández-Cabal,Jorge Lucero,2024-06-28 *Experiments in Art Research: How Do We Live Questions Through Art?* is not a conventional research methods guide; it's an encounter for asking questions through art. Originating from the work of a community of tightly connected scholars, artists, and teachers, the book unfolds through a tapestry of moments, practices, and people, embracing the celebration of works in

progress and in community. Rooted in the practice of permission-giving, the narrative intertwines personal stories—laying bare the transformative power of unconventional teaching methods, risky endeavors, and the breaking of scholarly norms—and begins by understanding that “art” and “research” are not separate. After that, there are endless directions to take up. Instead of a handbook offering rules or best practices, this text offers an inspiring collection of joy, longing, and determination. This is fascinating reading for arts-based researchers, artists, educators in the arts, education scholars, research-creators, performance theorists, art history scholars, art education scholars, inter- and anti-disciplinary scholars, qualitative and post-qualitative researchers, decolonization scholars, public humanities scholars, and writing pedagogy scholars.
