Steven Katz, Lisa Ain Dack

Creative Curriculum Teaching Strategies, Gryphon House, Delmar Thomson Learning, 1988-01-01 The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explaining appropriate practice.

The Creative Curriculum for Infants, Toddlers & Twos Diane Trister Dodge, Sherrie Rudick, Kai-leé Berke, Amy Laura Dombro, 2006 Helps teachers appreciate and find joy in the everyday discoveries that delight a child, and helps them to thoughtfully observe and use what they learn, to respond to children's interests and needs.

Intentional Interruption Steven Katz, Lisa Ain Dack, 2012-10-03 We interrupt this program to bring meaningful change to professional learning! Big ideas can sometimes get stuck on the way to becoming real change. The authors explain the secret to getting unstuck: interrupting the status quo of traditional activity-based professional development to help educators embrace permanent changes in thinking and behavior. You can enable true learning by: Building a focus on learning, collaborative inquiry, and formal and informal instructional leadership in schools Recognizing the psychological processes involved in adult learning, and overcoming the psychological biases and barriers to change Using tools and strategies such as critical friend relationships, learning conversations, task sheets, and protocols

Developmentally Appropriate Practice in Early Childhood Programs Serving Children from Birth Through Age 8, Fourth Edition (Fully Revised and Updated) NaeYC, 2021-08 The long-awaited new edition of NAEYC's book *Developmentally Appropriate Practice in Early Childhood Programs* is here, fully revised and updated! Since the first edition in 1987, it has been an essential resource for the early childhood education field. Early childhood educators have a professional responsibility to plan and implement intentional, developmentally appropriate learning experiences that promote the social and emotional development, physical development and health, cognitive development, and general learning competencies of

each child served. But what is developmentally appropriate practice (DAP)? DAP is a framework designed to promote young children's optimal learning and development through a strengths-based approach to joyful, engaged learning. As educators make decisions to support each child's learning and development, they consider what they know about (1) commonality in children's development and learning, (2) each child as an individual (within the context of their family and community), and (3) everything discernible about the social and cultural contexts for each child, each educator, and the program as a whole. This latest edition of the book is fully revised to underscore the critical role social and cultural contexts play in child development and learning, including new research about implicit bias and teachers' own context and consideration of advances in neuroscience. Educators implement developmentally appropriate practice by recognizing the many assets all young children bring to the early learning program as individuals and as members of families and communities. They also develop an awareness of their own context. Building on each child's strengths, educators design and implement learning settings to help each child achieve their full potential across all domains of development and across all content areas.

Teaching Children to Think Robert Fisher, 2005 This book is for anyone interested in teaching children how to think, to reason, and solve problems. Robert Fisher reviews the main concepts, methods and research in the teaching of thinking skills developed in recent years. The second edition provides practical ideas to develop the thinking and learning in children of all ages and abilities.

Creative Dialogue Robert Fisher, 2013-10-31 Creative Dialogue is an essential guide to dialogic learning for every trainee and practising teacher. It presents practical ways of teaching children to be more thoughtful and creative, and to learn more effectively through speaking and listening in school and at home. The book includes: practical ways to develop dialogic learning across the curriculum a guide to developing talk for thinking in the classroom more than 100 activities for stimulating talk with children of all ages and abilities advice on using dialogue to support assessment for learning ideas for developing listening skills and concentration. Written by a leading expert in teaching thinking, Creative Dialogue is essential reading for all who wish to understand and develop dialogic learning in education today.

Teaching for Results Findley B. Edge, 1999-01-01 In this revised edition Findley B. Edge explains that many Sunday school teachers fail to achieve better results because 'their teaching aims are too general and often vague.' The solution, he says, is for the teacher to focus on a single objective for each lesson and 'work toward that aim with singleness of purpose.'

Playful Teaching and Learning Glenda Walsh, Dorothy McMillan, Carol McGuinness, 2017-03-13 Every early years practitioner should be able to captivate and maintain the interest of young children in their setting, through the provision of a playful learning experience. Covering age ranges 3-8 years, this textbook explores the importance of infusing playfulness throughout the entire early years day, and includes chapters that: establish the core principles underpinning playful teaching and learning help students and practitioners understand how playfulness can be applied to all aspects of the early years

curriculum including mathematics, literacy, outdoor environments, science & technology, and ICT explore core issues in early years provision including observing, planning & assessment, and how they relate to playful learning emphasise the role and qualities of the playful professional. This is a fantastic resource for any student or practitioner looking to enrich the lives of young children through meaningful playful learning experiences.

Teaching for Purpose Heather Malin,2021-03-09 In *Teaching for Purpose*, Heather Malin explores the idea of purpose as the purpose of education and shows how educators can prepare youth to live intentional, fulfilling lives. The book highlights the important role that purpose—defined as “a future-directed goal that is personally meaningful and aimed at contributing to something larger than the self”—plays in optimal youth development and in motivating students to promote the cognitive and noncognitive skills that teachers want to instill. Based on a decade of research conducted at the Stanford University Center on Adolescence, the book explores how educators and schools can promote purpose through attention to school culture, curriculum, project learning, service learning, and other opportunities. Malin argues for expansive thinking on the direction schools should take, especially in terms of educating students to be creative, innovative, and self-directed critical thinkers. The book includes profiles of six organizations working in schools across the US that have made purpose development a priority. Infused with the engaging voices of purposeful youth, *Teaching for Purpose* offers a fresh, inspirational guide for educators who are looking for new ways to support students to succeed not only in school, but in life.

The Rediscovery of Teaching Gert Biesta,2017-05-25 *The Rediscovery of Teaching* presents the innovative claim that teaching does not necessarily have to be perceived as an act of control but can be understood and configured as a way of activating possibilities for students to exist as subjects. By framing teaching as an act of dissensus, that is, as an interruption of egological ways of being, this book positions teaching at the progressive end of the educational spectrum, where it can be reconnected with the emancipatory ambitions of education. In conversation with the works of Emmanuel Levinas, Paulo Freire, Jacques Rancière, and other theorists, Gert Biesta shows how students’ existence as subjects hinges on the creation of existential possibilities, through which students can assert their grown-up place in the world. Written for researchers and students in the areas of philosophy of education, educational theory, curriculum theory, teaching, and teacher education, *The Rediscovery of Teaching* demonstrates the important role of teachers and teaching in the project of education as emancipation towards grown-up ways of being in the world.

Intentional Teaching Anne Houghton,2013 This book helps educators in all settings to understand the principles of intentional teaching, and highlights how intentional teaching practices can support learning outcomes for children. The book includes shared understandings of intentional teaching through conversation and reflection with many educators. Its purpose is to portray real and meaningful stories to highlight the ways in which educators have been intentional when planning for education and care with children. Discussion explores the confusion that seems to exist among some educators. They

misinterpret it and either think there is no need for intentional teaching, think it is formal instruction in a play-based curriculum or are unsure of what it looks like in practice. Through a shared conversation, the author presents practical strategies with insight, humour and common sense which will resonate with educators of all levels.

The Thinking Teacher Sandra Heidemann, Beth Menninga, Claire Chang, 2016 Self-directed professional development resource for early childhood teachers. Includes self-assessment tools to help educators reexamine their teaching philosophy and integrate new knowledge and strategies into their practice. Also includes digital content--

That's Not Fair! Ann Pelo, Fran Davidson, 2000 Noting that young children have a natural sense of what is and is not fair, this guide is intended to help teachers develop an anti-bias curriculum using children's sense of fairness to guide them toward social activism. The book provides stories of children's experiences as activists, coupled with first-person accounts of teachers' experiences and reflections. Interspersed throughout are songs for young children about fairness and activism. The chapters are: (1) Gathering Knowledge for the Journey: Guidebooks and Road Maps, describing the anti-bias approach as a foundation for activism and eliciting reflection regarding activism readiness; (2) Preparing the Travelers: Fostering Dispositions for Activism in Young Children, focusing on providing learning experiences that lay the foundation for activism projects; (3) The Journey Begins: An Activism Project Emerges, discussing steps for cultivating an activism project; (4) Travelers' Aid: Planning and Provisioning for an Activism Project, focusing on teachers' roles in guiding activism projects; (5) Traveling Companions: Involving Families in Activism Projects, discussing how parents' values can be acknowledged and included, and presenting partnership-building strategies; (6) The Journey Ends: Concluding an Activism Project, focusing on effective ways to end projects; and (7) Rest Stops and Other Oases: Finding Support, providing suggestions for supporting activism with young children. The book lists approximately 150 resources and references dealing with anti-bias and diversity education for teachers, and supporting children's dispositions for activism, as well as books for children on activism and on similarities and differences. Educating Young Children Mary Hohmann, David P. Weikart, 2002 The updated chapters include information on phonemic awareness and preschool reading, additional references, the latest Perry Preschool research results, recent research relating to brain development, and a complete description of a consistent approach to problem solving. Written for early childhood practitioners and students, this manual presents essential strategies adults can use to make active learning a reality in their programs. Describes key components of the adult's role: planning the physical setting and establishing a consistent daily routine; creating a positive social climate; and using High/Scope's 58 key experiences, in child development to understand and support young children. Other topics include family involvement, daily team planning, interest areas, appropriate materials, the plan-do-review process, small- and large-group times. Offers numerous anecdotes, photographs, illustrations, real-life scenarios, and practical suggestions for adults. Reflects High/Scope's current research findings and

over 30 years of experience.

Intentional Moves Elisa B. MacDonald, 2023 For maximum impact, let intention drive your actions. Leading a team means more than running meetings. It's leading collaborative learning for continuous improvement. Like effective teachers in the classroom, skillful team leaders decide what they are aiming to achieve and make small, intentional moves to produce powerful learning outcomes for teachers and students. In this long-awaited follow-up to her best-selling book, *The Skillful Team Leader*, acclaimed educator Elisa MacDonald presents nearly 150 effective moves, organized by intention, for any educator who leads a team. In this book, you'll find strategies to lead with purpose and direction, including how to:

- foster an inclusive environment and strengthen team trust
- interrupt bias and cultivate diverse perspectives
- navigate resistance and manage conflict
- facilitate data analysis
- lead peer observation
- assess your team's collaboration and so much more!

Written in a practitioner-friendly format with a light tone and relatable stories, this is a must-have book for all team leaders and those who support them in your school.

Fair Play: Reese's Book Club Eve Rodsky, 2021-01-05 AN INSTANT NEW YORK TIMES BESTSELLER • A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is *Fair Play*: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, *Fair Play* helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. “Winning” this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space—the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try *Fair Play*? Let's deal you in.
