The Lizard from Rainbow Bridge Kate McGahan,2016-07-02 Angels and animal spirit guides serve each and every one of us every day. We share this true story, hoping to bring people to the light of the knowledge that magic exists everywhere in the world and that the end of this life is not the end of life at all.

Green Republican Thomas G. Smith,2006-06-25 Green Republican chronicles the life of Congressman John Saylor and his personal legacy as an environmental champion. Saylor believed the wilderness was intrinsic to the American experience- that our concepts of democracy, love of country, conservation, and independence were shaped by our wilderness

experiences. Through his ardent protection of national parks and diligent work to add new areas to the parks system, Saylor helped propel the American environmental movement in the three decades following World War II. At the height of the federal dam-building program in the 1950s and 1960s, Saylor blocked efforts to erect hydroelectric dams whose impounded waters would have invaded Dinosaur National Monument and the Grand Canyon. During the energy crisis of the early 1970s, Saylor denounced attempts to open the Alaska National Wildlife Refuge to oil drilling. He was the House architect of the Wilderness Act of 1964 and the Wild and Scenic Rivers Act of 1968. Because Saylor represented a coal-mining district, he doggedly promoted the use of coal, instead of atomic or hydropower, to generate electricity, and repeatedly won the support of his constituents over thirteen terms between 1949 and 1973. But he also fervently supported legislation to purify the air and water and redeem stripped lands. Considered both a maverick and a pioneer, John Saylor won respect on both sides of the aisle because he was direct, hardworking, and passionate about conservation at a time when the cause was not popular. Environmental leaders dubbed him St. John because he tenaciously advocated their proposals and battled resistance by resource-use proponents. Based on extensive research and numerous interviews with Saylor's colleagues and members of the conservationist community, Thomas G. Smith assembles the remarkable story of John Saylor, arguably the leading congressional conservationist of the twentieth century, and a major force in the preservation of America's wilderness.

First Impressions David J. Weber, William deBuys, 2017-08-22 A guide to the history and culture of the American Southwest, as told through early encounters with fifteen iconic sites This unique guide for literate travelers in the American Southwest tells the story of fifteen iconic sites across Arizona, New Mexico, southern Utah, and southern Colorado through the eyes of the explorers, missionaries, and travelers who were the first non-natives to describe them. Noted borderlands historians David J. Weber and William deBuys lead readers through centuries of political, cultural, and ecological change. The sites visited in this volume range from popular destinations within the National Park System—including Carlsbad Caverns, the Grand Canyon, and Mesa Verde—to the Spanish colonial towns of Santa Fe and Taos and the living Indian communities of Acoma, Zuni, and Taos. Lovers of the Southwest, residents and visitors alike, will delight in the authors' skillful evocation of the region's sweeping landscapes, its rich Hispanic and Indian heritage, and the sense of discovery that so enchanted its early explorers.
