Morgan Llywelyn, Michael Scott

The Making of Medieval Sardinia, 2021-08-16 This landmark volume combines classic and revisionist essays to explore the historiography of Sardinia's exceptional transition from an island of the Byzantine empire to the rise of its own autonomous rulers, the iudikes, by the 1000s. In addition to Sardinia's contacts with the Byzantines, Muslim North Africa and Spain, Lombard Italy, Genoa, Pisa, and the papacy, recent and older evidence is analysed through Latin, Greek and Arabic sources, vernacular charters and cartularies, the testimony of coinage, seals, onomastics and epigraphy as well as the Sardinia's early medieval churches, arts, architecture and archaeology. The result is an important new critique of state formation at the margins of Byzantium, Islam, and the Latin West with the creation of lasting cultural, political and linguistic frontiers in the western Mediterranean. Contributors are Hervin Fernández-Aceves, Luciano Gallinari, Rossana Martorelli, Attilio Mastino, Alex Metcalfe, Marco Muresu, Michele Orrù, Andrea Pala, Giulio Paulis, Giovanni Strinna, Alberto Viridis, Maurizio Viridis, and Corrado Zedda.

Diodoros of Sicily Lisa Irene Hau, Alexander Meeus, Brian Sheridan, 2018 The Bibliothekē of Diodoros of Sicily is the most voluminous Greek historiographical text from the pre-Christian era, and contains the only preserved continuous account of Classical Greek history; for many aspects of this history, such as the events in Sicily, the rise of Macedon under Philip II or the history of the Successors, it is our main or only source. It is thus often used as a source by ancient historians, and a great deal of energy has been spent on identifying which sources Diodoros himself used. Interest in Diodoros as an author in his own right, however, is a comparatively recent phenomenon. The contributors to this volume, junior scholars as well as leading international experts, set out to confront the old and new approaches to Diodoros, studying his first century BC context, questions of genre and purpose, his relationship to his predecessors, composition and narrative technique, the role of the gods and myth in the work, the use of speeches, and Diodoros' interest in themes like war, writing, language and politics. In so doing they offer exciting new insights into the Bibliothekē and the development of Greek historiography, which in turn also shed important new light on the old question of Diodoros' value as a source. This book is of interest to students of Greek and Roman history, myth, and ancient historiography in general.

Early Arsakid Parthia (ca. 250-165 B.C.) Marek Jan Olbrycht, 2021 In his new monograph Early Arsakid Parthia (ca. 250-165 B.C.): At the Crossroads of Iranian, Hellenistic, and Central Asian History, Marek Jan Olbrycht explores the early

history of the Arsakid Parthian state. Making use of literary and epigraphic evidence as well numismatic and archaeological sources, Olbrycht convincingly depicts how the Arsakid dynasty created a kingdom (248 B.C.-A.D. 226), small at first, which, within a century after its founding, came to dominate the Iranian Plateau and portions of Central Asia as well as Mesopotamia. The Parthian genius lay in the Arsakids' ability to have blended their steppe legacy with that of sedentary Iranians, and to have absorbed post-Achaemenid Iranian and Seleucid socio-economic, political, and cultural traditions--

Translation and Lexicography Mary Snell-Hornby,Esther Pöhl,1989-01-01 Translation and Lexicography includes a selection of papers presented at the 1987 European Lexicographers' Conference (EURALEX). The volume gives a comprehensive impression of new developments in the making and use of dictionaries for translation purposes, providing practical and theoretical approaches, general and in-depth studies.

The Seleucid Army Bezalel Bar-Kochva,2012-03-29 This is a 1976 study of the organization and tactics of the Seleucid armies from 312 to 129 BC. The first part of the book discusses the numerical strength of the armies, their sources of manpower, the contingents of the regular army, their equipment and historical development, the chain of command, training and discipline. The second part reconstructs the great campaigns in order to examine the Seleucid tactics. The book provides a lesson in Hellenistic and military history and discusses several questions: how did the Hellenistic armies develop after Alexander? What distinguished the Seleucid army as superior to its Hellenistic contemporaries? The answers illuminate the expansion of Hellenism as we learn how the Seleucid army was used as a military, social and cultural instrument to impose the rule of the dynasty over the vast regions of the Empire and how it helped to shape Hellenistic society in the East.

Fra Mauro's World Map Piero Falchetta,2006 Accompanying CD-ROM contains: digital reproduction of Fra Mauro's world map with the ability to navigate within the map and extract information from it.

Features of Common Sense Geography Klaus Geus,Martin Thiering,2014 The contributions in this volume combine fundamental questions of common sense geography with case studies of ancient geographical texts. The book bridges synchronic cognitive linguistic and cognitive psychological approaches to the ancient texts with a diachronic perspective. The mental modeling of common sense geography is a fruitful theoretical approach, to gain deeper insights in universal and cultural-specific mnemonic representational systems on the one hand, and to enhance our understanding of ancient geography on the other. Innovation in Byzantine Medicine Petros Bouras-Vallianatos,2020 Byzantine medicine is the biggest unknown quantity in both the study of medieval medicine and science and in Byzantine studies. This volume aims to redress this gap by presenting

the first comprehensive examination of the medical corpus of John Zacharias Aktouarios, arguably the most important Late Byzantine physician.

Common Dwelling Place of All the Gods Michael Blömer, Stefan Riedel, Miguel John Versluys, Engelbert Winter, 2021-08-11 The history and archaeology of Hellenistic Commagene is a rich field of study, not in the least because of the remarkable monuments and inscriptions of king Antiochos I (c. 70-36 BC). Over the last decades important new work has been done on Commagene proper, providing novel interpretations of the epigraphical and historical record or the archaeological data and individual sites, like Nemrud Dag, Samosata or Arsameia. Simultaneously scholars have tried to better understand Hellenistic Commagene by situating the region and its history in a wider Mediterranean and Near Eastern context. This long-awaited book provides a critical evaluation of all these new data and ideas on the basis of a theoretically embedded, state-of-the-art overview for the history and archaeology of Hellenistic Commagene. From this volume a new picture emerges in which Hellenistic Commagene is no longer understood as peripheral and out-of-the-ordinary, but as an important node in a global Hellenistic network, from Ai-Khanoum to Pompeii and from Alexandria to Armawir.

Etruscans Morgan Llywelyn, Michael Scott, 2013-04-30 Bestselling historical novelist Morgan Llywelyn teams up with Irish fantasy writer Michael Scott to write an epic fantasy based on the mythology of ancient Rome. As the Romans expand their rule from their newly founded capital city, the civilization of their elegant forerunners, the Etruscans, is waning. Into this era of flux and change strides a young figure destined to become one of the classical world's greatest mythic heroes. When Vesi, a young Etruscan noblewoman, is raped by a supernatural being who was once human, a child is conceived. Outcast from Etruria, Vesi bears a son she calls Horatrim: a child who is dangerous both to the Etruscans and to his own father, he is gifted with arcane knowledge and supernatural abilities, but has a human heart. Separated from his mother, he travels to Rome and is adopted by a businessman who changes his name to Horatius--a name that will ring down the ages. More than glory awaits the young man, however: his demon sire is pursuing Horatrim to kill him. This is fantasy of the highest order. Into a bold and colorful weave of action and adventure, Llywelyn and Scott skillfully incorporate the classical themes underlying imaginative fiction.

Plutarch's Sertorius Christoph F. Konrad, 1994 C. F. Konrad provides the first book-length commentary on Plutarch's Life of Sertorius, the work that has shaped most modern interpretations of the man and his career. Quintus Sertorius (126-73 B.C.) was a political and military leader during the p

Greek and Roman Maps Oswald Ashton Wentworth Dilke, 1998 In *Greek and Roman Maps*, O. A. W. Dilke follows the development of map-making skills, beginning in Babylonia and Egypt, through the contributions of Greek scientists and Roman administrators and surveyors, to the Age of Discovery. He provides examples of the full range of Greek and Roman maps, including town and building plans, itineraries and road maps, sea itineraries, and maps in art form. It is an extremely useful book, packed with information, simply and succinctly expressed... there is no doubt that it was Greek theoretical thinking and a growing knowledge of geography, combined with the practical demands imposed upon the administrators of the Roman Empire, which led to the development and widespread use of maps more or less as we know them. -- Mary E. Hoskins Walbank, *Echos du monde classique*

Medieval Public Justice Massimo Vallerani, 2012-06-18 In a series of essays based on surviving documents of actual court practices from Perugia and Bologna, as well as laws, statutes, and theoretical works from the 12th and 13th centuries, Massimo Vallerani offers important historical insights into the establishment of a trial-based public justice system.

The Etruscans Massimo Pallottino, 1978

The Roman Object Revolution Martin Pitts, 2019-08-17 Archaeologists working in northwest Europe have long remarked on the sheer quantity and standardisation of objects unearthed from the Roman period, especially compared with earlier eras. What was the historical significance of this boom in standardised objects? With a wide and ever-changing spectrum of innovative objects and styles to choose from, to what extent did the choices made by people in the past really matter? To answer these questions, this book sheds new light on the make-up of late Iron Age and early Roman 'objectscapes', through an examination of the circulation and selections of thousands of standardised pots, brooches, and other objects, with emphasis on funerary repertoires, c. 100 bc-ad 100. Breaking with the national frameworks that inform artefact research in much 'provincial' Roman archaeology, the book tests the idea that marked increases in the movement of people and objects fostered pan-regional culture(s) and transformed societies. Using a rich database of cemeteries and settlements spanning a swathe of northwest Europe, including southern Britannia, Gallia Belgica, and Germania Inferior, the study extensively applies multivariate statistics (such as Correspondence Analysis) to examine the roles of objects in an ever-

changing and richly complex cultural milieu.
