A Coptic Gnostic Treatise Charlotte A. Baynes, 2013-07-04 The Codex Bruce was bought during the 18th century by the famous traveller James Bruce in Upper Egypt. After his return to England, the text was copied with many errors and the original papyri badly bound. This 1933 book corrects many of the earlier errors associated with this unusual Gnostic text.

Commentary and Ideology Deborah Parker, 1993 Dante's *Divine Comedy* played a dual role in its relation to Italian Renaissance culture, actively shaping the fabric of that culture and, at the same time, being shaped by it. This productive relationship is examined in *Commentary and Ideology*, Deborah Parker's thorough compendium on the reception of Dante's chief work. By studying the social and historical circumstances under which commentaries on Dante were produced, the author clarifies the critical tradition of commentary and explains the ways in which this important body of material can be used in interpreting Dante's poem. Parker begins by tracing the criticism of Dante commentaries from the nineteenth century to the present and then examines the tradition of commentary from the Middle Ages to the Renaissance. She shows how the civic, institutional, and social commitments of commentators shaped their response to the *Comedy*, and how commentators tried to use the poem as an authoritative source for various kinds of social legitimation. Parker discusses how different commentators dealt with a deeply political section of the poem: the damnation of Brutus and Cassius. The scope and importance of *Commentary and Ideology* will command the attention of a broad group of scholars, including Italian specialists on Dante, late medievalists, students and professionals in early modern European literature, bibliographers, critical theorists, historians of literary criticism and theory, and cultural and intellectual historians.

Complex Text Decoded Kathy T. Glass, 2015-09-01 In *Complex Text Decoded*, educational consultant and former master teacher Kathy T. Glass presents strategies, activities, and assessments that target students' ability to comprehend complex text—whether presented as traditional written text or in multimedia formats—in grades 5-10. You'll learn * The essential elements of unit design and models for lesson planning. * Specific, step-by-step instruction for teaching vocabulary. * Effective questioning techniques. * Strategies and activities explicitly designed for teaching complex text. * How to measure text complexity and select appropriate texts that are aligned with curricular goals. It's important to provide opportunities for students to read a wide variety of texts for different purposes and along a spectrum of difficulty and length. To meet the goal of comprehensively grasping complex text, students must have concrete tools to help them become highly skilled readers. *Complex Text Decoded* enables teachers to provide precisely that.

Images of Goethe through Schiller's Egmont David G. John, 1998-07-08 John argues that shifting the focus from the text to the efficacy of performance requires broadening our concept of performance beyond what occurs on stage and its critical reception to include the daily life of the society that provides its context. It follows from this semiotic approach that there can be no fixed text or understanding of Egmont or of Goethe himself - only multiple images. John's exploration of image includes literary motifs, acting, staging, and social role playing, with particular reference to Goethe's development as an artist and cultural icon. In addition to presenting a comprehensive analysis of the play and a discussion of Egmont's reception from its first appearance to the present (including productions on both stage and screen), John provides an in-depth performance analysis based on the theories of Alter, Burns, Carson, Fischer-Lichte, Goffman, Pavis, and Schechner. The book includes the complete Mannheim manuscript (M372), critically edited and published as a performance text for the first time.

Reading Roman Declamation Martin T. Dinter, Charles Guérin, Marcos Martinho dos Santos, 2020-08-14 Situated at the crossroads of rhetoric and fiction, the genre of declamatio offers its practitioners the freedom to experiment with new forms

of discourse. This volume places the literariness of Roman declamation into the spotlight by showcasing its theoretical influences, stylistic devices, and generic conventions as related by Seneca the Elder, the author of the *Controversiae* and *Suasoriae*, which jointly make up the largest surviving collection of declamatory speeches from antiquity. Authored by an international group of leading scholars of Latin literature and rhetoric, the chapters explore not only the historical roles of individual declaimers, but also the physical and linguistic techniques upon which they collectively drew. In addition, the 'dark side of declamation' is illuminated by contributions on the competitiveness of the arena and the manipulative potential of declamatory skill and, in keeping with the overall treatment of declamation as a literary phenomenon, a section has also been dedicated to intertextuality. Drawing on thought-provoking analyses of Seneca the Elder's works, the volume highlights the complexity of these texts and maps out, for the first time, the socio-cultural context for their composition, delivery, and reception, as well as providing a comprehensive, innovative, and up-to-date treatment of Roman declamation that will be essential for both students and scholars in the fields of Latin literature, Republican Roman history, and rhetoric.

Developing Core Literacy Proficiencies, Grade 8 Odell Education,2016-08-09 The Developing Core Literacy Proficiencies program is an integrated set of English Language Arts/Literacy units spanning grades 6-12 that provide student-centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards (CCSS). Reading Closely for Textual Details Making Evidence-Based Claims Making Evidence-Based Claims about Literary Technique (Grades 9-12) Researching to Deepen Understanding Building Evidence-Based Arguments The program approaches literacy through the development of knowledge, literacy skills, and academic habits. Throughout the activities, students develop their literacy along these three paths in an integrated, engaging, and empowering way. Knowledge: The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance. These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time, but also contain the complexity of expression necessary for developing college- and career-ready literacy skills. Literacy Skills: The program articulates and targets instruction and assessment on twenty CCSS-aligned literacy skills ranging from “making inferences” to “reflecting critically.” Students focus on this set of twenty skills throughout the year and program, continually applying them in new and more sophisticated ways. Academic Habits: The program articulates twelve academic habits for students to develop, apply, and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as “preparing” and “completing tasks” that are essential to students’ success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a

diversity of educational experiences and needs. The integrated assessment system, centered around the literacy skills and academic habits, allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels.
