Weimar Cinema Noah William Isenberg, 2009 In this comprehensive companion to Weimar cinema, chapters address the technological advancements of each film, their production and place within the larger history of German cinema, the style of the director, the actors and the rise of the German star, and the critical reception of the film.

Capitalism's Eye Kevin Hetherington, 2011-02-11 Capitalism's Eye is an extremely ambitious cultural history of how people experienced commodities in the era of industrial expansion. Writing against the dominant argument that the 'society of the spectacle' emerged fully formed in the mid-nineteenth century, Kevin Hetherington explains that the emergence of a culture of mass consumption dominated by visual experience was a much slower process, not truly ascendant until after the First World War. Looking at the department stores, home life, and the great exhibitions around the turn of the last century, Capitalism's Eye promises to transform how we understand both the cultural history of capitalism in America and Europe and the historical roots of the mediated spectacle that dominates our world today.

Practical Ethnography Sam Ladner, 2016-08-25 Ethnography is an increasingly important research method in the private sector, yet ethnographic literature continues to focus on an academic audience. Sam Ladner fills the gap by advancing rigorous ethnographic practice that is tailored to corporate settings where colleagues are not steeped in social theory, research time lines may be days rather than months or years, and research sponsors expect actionable outcomes and recommendations. Ladner provides step-by-step guidance at every turn--covering core methods, research design, using the latest mobile and digital technologies, project and client management, ethics, reporting, and translating your findings into business strategies. This book is the perfect resource for private-sector researchers, designers, and managers seeking robust ethnographic tools or academic researchers hoping to conduct research in corporate settings. More information on the book is available at <http://www.practicaethnography.com/>.

On the Tranquility of the Mind Seneca, 2017-06-22 Seneca the Younger (c. 4 BC - AD 65), fully Lucius Annaeus Seneca and also known simply as Seneca, was a Roman Stoic philosopher, statesman, dramatist, and--in one work--humorist of the Silver Age of Latin literature. As a tragedian, he is best-known for his *Medea* and *Thyestes*. He was a tutor and later advisor to emperor Nero. He was forced to take his own life for alleged complicity in the Pisonian conspiracy to assassinate Nero. However, some sources state that he may have been innocent. His father was Seneca the Elder, his elder brother was Lucius Junius Gallio Annaeanus, and his nephew was the poet Lucan. In this work, the dialogue takes up the causes of man's restlessness and boredom, then moves on to Seneca's practical rules for happiness and peace of mind, rules based upon reason and virtue. The work is a timeless classic on the ultimate pursuit of happiness.
