Designed with only standard LEGO pieces, Warren's talent lies in choosing exactly the right parts to enable the reader to recreate these icons of history in their own home. While many of the original seven ancient wonders have crumbled away, here we see them in their full glory. Brick Wonders also takes a look at new wonders of the world; treasures from the past millennium that remain standing today. And, from the modern world there are seven still-standing wonders, including the Great Wall of China and Petra. Seven modern inventions, among them electricity and transport, are represented in LEGO creations both small and vast - a Model T car, television, the light bulb and the International Space Station. There are seven natural wonders, too, presented in their majestic beauty, including Victoria Falls, the Great Barrier Reef and the Matterhorn.
